Hello, everybody. Welcome to Episode 19. Man, you know, it's amazing to see the growth of the audience. It's rebrand of the show. We had a dedicated following, but man, it is smooth two to three times that on social media now.

 00:20

We're on platforms like rumble and all kinds of alternative platforms like that where we're getting hundreds of views on our videos. It's fantastic. So thank you for all the new folks out there tuning in every week. Thank you for the old hats that continue to tune in. Thank you to our amazing sponsors out there, especially our new sponsor, and our guest in the second part this evening. The amazing Dr. Kimberly McGeorge stop on by secret to everything.com to check out all of her services, her readings, things like that, as many of you know, in the first episode that she was ever on back in our previous incarnation. She did an ORAC reading on me where I sent a image to her. She put it through her aura software and man, the information that she came up on with me was pretty dead on it was it was pretty wild. So stop on by check that out. Secret to everything.com Thank you so much for your support, Dr. McGeorge, we are so so glad to have you part of the curious room family. And while you're online, checking that out, everybody makes sure to stop on by our live stream sponsor, web works wireless. They're your home for high speed internet for all. I mean to tell you folks, I was getting like 40 up inside of the Convention Center in Houston this last week while doing rebroadcast testing, so I'm here to tell you it works. I'm here to tell you that it is unlimited, I have yet to see a cap and I put up a good 20 gigs worth of video a month. So stop on by. Check it out. Web works. wireless.com is where you want to go. While you're there, make sure to stop on the website of our first guest this evening. Robert W. Sullivan the fourth.com. He is a best selling author. He's a lawyer. He is also

We will also be going to the Bigfoot Film Festival here and here in Texas. We will be going to the folk monster festival. All kinds of stuff. So glad to be doing that also, so entirely glad to be featuring our guest this evening. Robert W Sullivan the fourth. Welcome to the show. How are you doing today? Well, hello Chris. Thank you for having me on. Curious ROM. It's my pleasure to be here. No, I'm doing fine. I'm very well.

05:00

tonight thank you, you know, as I told you in the in the pre conversation, I was really, really excited to have you and to begin with but after Oak Island this last week in them literally mentioning the royal arch of Enoch, and the ceremony involved and it possibly having taken place on Oak Island, it was like the confluence of the universe was just too much.

05:25

Yeah, yeah, no, I the odds of that happening are just all but nill.

05:31

One the Yeah, I've been on the History Channel show the the Oak Island show twice and was drilling down. And I can't imagine this the the Ohi Wan show getting into some of the

coming down. And I can't imagine this and the 9/11 World Trade Center getting into some of the

05:44

the theory with that is that he could have been, you know, the Knights Templar, who who were hiding treasure there. And

05:51

there are there are parallels with the ritual and the burial mound, the subterranean vault there on Oak Island. And it is interesting. I don't know if I, you know, I mean, it is, you know, again, a curious parallel between it and, you know, could it be Knights Templar treasure that was hidden there? Who knows, but, but there is this sort of, you know, sort of unique parallel between the world are ceremonial and Oak Island and again, it's just kind of bringing into question, you know, the, you know, the ritual itself, you know, is it is it really trying to convey some sort of lost history or something like that it is fascinating. Absolutely. And even even the the history of the REIT itself. Let's start. Let's start getting into that a little bit real quick. I just want to share a snippet. This is this is from

06:49

Let's see this. This is from page 32. Freemasonry is capacity capacity to midwife symbolism into the public vision of order, through private high radicalism. midwived, the easements over which mathematics framed a new vocabulary, linking ordinary day to day life, to calculus, algebra, geometry, and physics.

07:11

This was maneuvered adroitly by the esoteric merging of science through masonry in France and America, specifically to enmesh. With Catholic Educational pedagogies, of course, you go into the Jesuits, things like that, and spreading this kind of knowledge of let's start talking about that, that once again, steeped symbolism that masonry has,

07:38

absolutely, and it has a lot of it, you have the blue Lodge, the symbolism coming out of the blue Lodge, which has

07:47

a lot to do with the sun, I would say, you know, the sun is probably the most important symbol in all Freemasonry, and this is especially true in the blue Lodge, both on an esoteric and exoteric level.

08:01

Some of it is very, you know, playing is playing a no, no pun intended playing his day,

08:08

with the emblems and things like that, I mean, if you go to, you know, even like the websites with with Pennsylvania or Maryland, where I am, and you go to the Grand Lodge websites, usually there's an image right there of the sun, you know, right, right, right there in your face. And then you get into the high degrees. And again, you know, what the world watch, and again, we have a lot of solar imagery.

08:29

And it's really, it's really a rich history. And at least in my, in my estimation, when you begin to understand the symbolism of the blue Lodge, and then the higher degrees and how they relate to each other, and especially the royal arch of Enoch, which I argue in the book is really the most important one, probably of any of the rights of in the high degree bodies. And you understand the underlying philosophy and you understand, you know, you know, the the Masonic old charges and where this stuff is coming from, you really can start, at least in my opinion, connecting the dots as it were, and seeing okay, you know, what, why is this year and what, you know, why is this year and, you know, you know, what's going on with the Erie Canal and, you know, the Federal District, Washington, DC and Union College of Schenectady, New York, and so many of the state shields and college logos.

09:26

You know, it it all comes back to this idea and, you know, really, you know, what it all really comes back to is that the country was sort of founded as this Masonic Republic, founded by Freemasons and

09:41

you will find, right from the get go, you know, present day just Masonic emblems symbolism, you know, philosophies just embedded in this country all over the place. And when you have the eye, when you understand it, you'll be able to eat it, you'll be able to see it you

10:00

I believe for me, you can see this stuff all over the place. So this was sort of one of my main motivations was right to write the first book. The Royal arch was to kind of explain this, to explain to someone, and it can be at times very dense history of masonry,

 10:16

you know, and bring it up to speed and get into the stuff that people like to talk about, you know, with designs and templates and things like that. Yeah. Well, and I, myself, for instance, am a Knight of Columbus. Okay, there you go. He that be that what it is, you know, you could call it a Catholic secret society, much like the Masons now, really, it's, it's a group of dudes that get together and do a whole lot of things for their community. Is there some stuff that we don't talk about, about getting in the place? Yeah, absolutely. There's a handshake, there's a word or two, that will get you in the door with or without a membership card?

 10:55

And is that something nefarious? No, not necessarily now, just like any government or anything like that, are there actors within that might be sure. That's not what we're talking about here. What?

 11:11

What I would like to get into is where the royal arch of Enoch comes into play with short with the creation of government, specifically, like you're saying, with the founding of America, things like that, because, yes, each each

 11:30

part of Freemasonry each, each degree, has its own truths that are revealed. And from what I know of people in the 32nd, whenever they get there, many of them, their paradigm is just destroyed.

 11:45

When they get to the 32nd degree, and the truths are revealed to them of the 32nd They're like, what, what, but this? Uh, yeah, yeah, yeah, but there's something different there.

 11:57

And very much so with the third degree and Knights of Columbus. But let's start getting into that royal arch degree real quick, and exactly what that is all about. Sure, it's part of the World Watch is not part of a blue Lodge, which is degrees, one, two, and three, it's part of the high degree bodies. And to really, I mean, it's a deep story, I'm gonna have to go back in time, because in order to understand the world watch, you have to understand what's going on in the blue Lodge.

 12:27

The and I should point out also that the world's largest the highest degree in Freemasonry, it's

the 13th and the Scottish and it's the seventh in New York, on the 32nd in the Scottish, but what a lot of people aren't aware of is the rights, the rights are out of order, the degrees, the the, the 30th is the end of the end, when you do degrees, 14 through 32, you go back in time, and they take place beforehand, before the world watches. So you go through degrees, four through 13, that's the end, then 14 through 30, to go back in time, and you're done, then you go up to a time before the royal arch. So the world watches the highest degree in masonry, and it just throws a monkey wrench and everything. People are constantly saying to me the 32nd 33rd it's the third teeth is really the highest degree and what it document it's not part of blue lodge Freemasonry, which is degrees 123 and relates to it.

13:24

In the third degree, the candidate portrays the solar avatar named Hyrum abyss, and he possesses something known as the tetragrammaton which is the name of God and it's through the correct pronunciation of this word that all warning is possible.

13:43

And that's there's a read that comes from the Masonic all charges.

13:48

And he he he is finishing building Solomon's temple and three fellow Crips tried to blackmail him into it saying what the giving him the word, you know, giving up the word and he refuses to do it. He basically says, you know, I'll do it once the temple is complete, but not until then. That's not good enough, and they murder him. Ultimately, he's buried and resurrected.

14:10

And again, this is sort of the retelling of what you would want to call the dying and resurrected soldier God, man, you could call this sky. I mean, we call it a hero. If you call us Mithras, Osiris, you could clearly see parallels with Jesus Christ. Absolutely. It all goes back to the sun.

14:29

It's the death and resurrection of the sun.

14:34

And anyway, if you fast forward ahead to the

14:38

high degrees and you get into the wheel arch, the wheel arch deals with and it's it's it's created, the high degrees come out of something,

14:48

a place called the College of Claremont in Paris, France. It's an invention of the Jesuits as part of the Counter Reformation. The high degrees are birthed by a Jacobite Freemason named Andrew

15:00

I called the Shivalik. A Ramsay was a very interesting guy. He's the founder of the Royal Society. He was a tutor of Bonnie Prince Charlie, and it

15:09

deals with this. He puts what this oration to kind of counteract Anderson's constitutions where Anderson said, you know, Freemasonry descends from biblical, you know, stone builders down to the Egyptians. That's the medieval you know, guilds yada yada yada. Ramsay breaks with that and says, No, Freemasonry is this comes from the, you know, mithraic, Aleutian Osirian your Lucien mystery religions and was brought back to Europe from the Knights Templar. So he splits with Andersen on that. Anyway, you had the Society of Jesus creating these high degrees as part of the Counter Reformation. And the degrees are essentially, just because of time constraints, they're a vehicle to restore the store pretenders back to the throne of England.

15:54

The high degree known as the Royal arch

15:57

documents, the recovery of what was lost. It's sort of the end of the story. You can see parallels with things like the quest for the Golden Fleece. In fact, that's actually mentioned in the ritual where

16:11

Solomon's temple has been destroyed. And by the Babylonians, it's been sacked. And the Jews are an exile in,

16:22

in Babylon, and this Babylonian emperor. And notice Cyrus the Great dispatches this Jewish

governor named Zorro Babel, whose name literally means the heart of Babylon back to the holy land to build the Second Temple. This is the temple that Jesus storms in the New Testament where they're sacrificing goats and things like that. At any rate, when they're building the Second Temple, when they're clearing the rubble, and this, that and the other, they find a trapdoor in the ground. And they spring it, and they find a subterranean treasure vault down there. And lo and behold, there's the sacred name of God, the tetragrammaton.

 16:59

And, you know, this is what has been lost in the blue light, just at the end of the story. The Freemason has discovered what was lost, that the high degrees are incredibly important, especially in the context of the United States. Because, because of, of what they're associated with France and the Jesuits, they never the high degrees, never picked up, they never take off in England. I mean, you know, who is the mortal enemy of the English, the French and the Jesuits. But it becomes very popular in the United States, because France was our main ally during the revolution.

 17:35

And it's vastly important because it's this model of the loss of the other word, and the recovery of it, that the United States is modeled around is fashioned around. This isn't the case in England, in England, basically, you have degrees, one, two, and three. And that's it. In America, you have this fusion of the blue lodge degrees, one, two, and three, but these high degree, these high degree rituals, which become incredibly popular in the United States, and it's, it's,

 18:07

you know, this this model, especially the only word I can use to describe it, that

 18:14

the United States really sort of creates itself out of what the founders being, you know, Freemasons, they're using the blue lodge philosophies and rituals, but they also tapping the high degrees, mainly this royal arch of Enoch, ceremonial, to fashion the country around, and I'll just add on this, I know you have some questions. It is really this nexus

 18:35

between the Freemasons and the Jesuits, that for lack of a better word, Chris has really, essentially spawned every conspiracy theory out there, even to this day.

 18:46

Yeah, I mean, it's blown the Illuminati, you know, the Kennedy assassination. 911. It all comes

out of this nexus between the Society of Jesus and the Freemasons. Absolutely, absolutely. And, one, there was another part here in your book, from from up around page 154 That that talks about? Let's see, where is it here.

 19:12

Enoch distinguishes itself from other holy scripture, in that it is written in the first person. The second book of Enoch, to Enoch is often called the Slavonic Enoch discovered in 1886, and it contains a section entitled the exaltation of Melchizedek which outlines the priestly succession of Melchizedek as the inheritor of Enoch secrets now

 19:37

I myself, as I said, not only a fourth degree Knights of Columbus but also studied as a Roman Catholic seminarian, my my first year in college and morning prayer and maths. Regularly, we we read from

 19:56

and I want to say Zeke zekiel Where where they talk about

 20:00

The line of the orders of mill tea order of the priests of Melchizedek have old and the knowledge being passed down. And I find it really interesting that the royal arch of Enoch follows the same succession of the priests of Melchizedek. And absolutely, yeah, absolutely. And the fact that you're talking about the Jesuits, and the confluence of those two things, once again, that the order of Melchizedek, coming, coming together with the order of Melchizedek, really, really interesting stuff there. And like you said, could be the birth of who knows how many

 20:43

nefarious

 20:46

plots in the world? As far as conspiracy theories go? Yeah, I mean, I mean, and again, you know, what you're talking about? Yeah, of course. You know, and again, this was the thrust the thesis of the main book, and, you know, why is the name Enoch in there. And again, this, this is sort of like, you know, another, you know, reason that I wrote the book is, not only is the Gnostic literature, you know, in Munich, you have the order of Melchisedec. In the high degrees, it's like a somebody and auxiliary body related to the royal arch.

 21:20

The, the, the, the thrust of the book, the thesis was not only to document the the critical nature, the importance of the anarchic material within Freemasonry, the Royal arch, but it was also to present this historical anomaly, which is, you know, not not only is the the Masonic symbolism, both coming out of the blue lodge in the high degree is critical to understanding the founding of the United States. But it's an anomaly. And that is that the retinas this is, you know, again, is something that's just fascinating, it just, again, points right towards the Jesuits is that the ritual, the World War Two ritual is is contains, displays whatever word you want to use, elements of the last book of Enoch, one Enoch. And, of course, one Enoch was lost to history. You know, it disappears from the history pages from around the second third century. It doesn't turn up.

 22:19

You know, until the late 1700s, when a guy named James Bruce returns to from Ethiopia, with copies of it, and

 22:27

three times he comes back with three copies, one, I think, goes to the Sorbonne in Paris, he keeps one and then the one, the main one, it goes to the Bodleian Library at Oxford University. And that's not even translate into I believe, at 21. But the high degree ceremony always containing elements of the last book of Enoch of one Enoch, the ritual is named after for God's sakes.

 22:52

And,

 22:53

you know, it's interesting, because then that poses a note that, you know, poses another question where, if, you know, if this if the high degree ceremonial is, you know, has elements of one Enoch in it, well, where's the carpet, you know, who has it and there's, you know, some interesting explanations as to as to where this could have come from. You can look at anything from a secret, you know, Vatican Library, perhaps you could turn to the world of John D. That's really an interesting story with D. And the last book of Enoch with Sir Walter Riley. And another guy another guy you can look at is Billy on posto, who was sort of the equivalent on the continent only without the angelic magic, he was a Jesuit sympathizer, and he actually met with this, this, this mysterious Ethiopian priest, who visited, who allegedly came with a copy of the book of Enoch could just fit in the same copy to Bruce return to later on. So yeah, I mean, it was it's an interesting story. And it's certainly an interesting anomaly. And then when you get

into the whole history of the United States, you know, it even becomes that much more fascinating. Well, and especially when you're talking about the connection with John D, the connection specifically with a Nokia magic for the fact that

24:19

really, as far as biblically or even close biblically, the only two people that ever really had like, I guess, full power of culling control, granted to them over demons, Jim's spirits were Enoch, and Solomon. They had angels directly at their charge

24:46

and the power with which to wield them.

24:50

And yeah, when you're when you're talking about that power, you know, much like we were discussing last week, the whole point of the Ark of the Covenant was

25:00

as direct communication with the divine, and even being in the presence of the Divine you, you had to be of a certain mindset you had to be of a certain place,

25:14

spiritually, or else you would be struck down. So yeah, I mean, I mean, I could give you an example of this and it ties into, you know, you know, just with what you're talking about, and even ties into pop culture. You know, when you get into the ark of the covenant, you know, this is we we talked about in the Worldwatch ceremonial in New York, right, which is the second you know, the two main high degree bodies in in the United States are the Scottish Rite in New York, right? They're both pretty much based on this thing that, like I said, comes out of Paris, France called The Rite of perfection. This is what the Jesuits create as this Counter Reformation. subterfuge in New York, right? Ritual, the tetragrammaton is located on top the Ark of the Covenant. I mean, this is the same ark of the covenant that you know, that contain the 10 commandments, and

26:03

you know, Moses, his rod and things like that, and

26:07

if you familiar if you're familiar with Hebrew lore, and then this was always this was always I thought, kind of interesting. And you can despise it, this is a prominent, go into pop culture a little bit here, if you if you know, and this ties in to what you were saying, with King Solomon with the mastery over demons and things like that.

 26:26

There in the lesser Key of Solomon, there are 72 demons that Solomon commanded. And of course, the word that Moses uses to part the Red Sea is Shem, Ham for Ash, which was constructed of 72, Hebrew letter groups. And of course, you know, this is how Moses left Egypt crossing the party, the Red Sea with the secret word, and the 72 Lovers letter groups, if you ever watch the movie, and this ties into Raiders of the Lost Ark, the First Lady in the Jones movie, if you ever seen that, you will remember the scene where they're talking about trying to find the Ark of the Covenant in the Well of Souls. Staff, Ron, he says, there was a little old man, he says, and then they got the headpiece and then they got it off, and Marty's hand is burnt hand. And they said how Paul was and he says, Six, Madame Heidi says, Oh, 72 inches 72. And again, this is an x minus one. cudham. That's right.

 27:24

God, whose Ark it is, I'm actively holding the head piece of raw in my hand right now.

 27:32

You got to take back one condemned honor your Creator, whose Ark it belongs to, but no, there was a number 72 Again, so you see how this stuff, you know, weaves in and out of popular culture also, but it's, you know, it's, it's an interesting

 27:48

story, you know, because it does link together, you know, the Masonic rituals, I mean, you know, it does tie into Judaism, and Christianity and Islam and all that good stuff. And even the fact like you said that, that the royal arch is the 13th. Degree.

 28:07

By by all degree standard, even though it's the highest one, it's really down there. That is that is directly in line with the symbolism of Christ in the 12 apostles, Christ being the 13th being the son being being the one that is revealing the truth. Same thing in the arch of Enoch, you will, you would also be looking at

 28:33

the concept of the Kabbalah and the Tree of Life. Of course, at that point, which, which once

again, whenever you look at the the right of the archer, let's go ahead and start getting into if you can get into some of that, because I know there's some things you can't really get into. And I fully fully respect that. Oh, no, I mean, I mean, you know, you know, no, I understand. I mean, I think going into this, you know, the only thing I don't really talk about it's like the passwords in hand. Yeah, yeah.

 29:05

Absolutely know that the symbolism, especially like they were talking about NOAC Island and the, and the pit that was dug and the 12 levels that are there, in the shaft of light of the revelation of truth. It's just, it's beautiful, and amazing. Yes, absolute Tree of Knowledge. Kabbalistic symbolism.

 29:30

Sure, yeah, I can absolutely talk to this. When, you know, you know, when you recover the name of God in this 13th degree, it's, it's, it's a form of apotheosis, the candidate becomes Godlike. And of course, you know, it's in Kabbalah, this is what's known as the Kena or the second, the Divine Presence, and of course, you know, it's the 13th degree, you know, I mean, you just want to look at this. You know, whether it's a coincidence or not, you don't go into revolutions. You

 30:00

of 13 colonies.

 30:02

The Great Seal is plastered with the number 13. In the Scottish Rite, there are 3032 degrees, the Kabbalistic Tree of Life contains 10, Sephora and 22 paths add 10 plus 22 and you get 32. This is why there are 32 degrees in the Scottish Rite, if you have if you add the hidden Sephora, in, in Kabbalah, which is called Das, which is a combination of the others, you have 33. And again, this is the 33 degrees in the Scottish Rite, you have, you know, the whole idea, you know, put between, you know, there's there's overlap with this in Judaism or not, we start with Judaism, it's Kabbalah with a K. There's overlap with this, and Christianity, where it's called the celestial hierarchies. And then it's an Islam, which called the dignities of God, where these super celestial spheres

 30:56

are not only divine attributes, but their levels of spiritual purification, that is the soul of sense. Beyond the celestial, you know, the three worlds, the mundane world, which we're in, there's the celestial, and then there's the super celestial, the Kabbalistic tree is in the super, super celestial spheres. When the soul parent, when the body parishes and the soul is ascending, it has to pass through these different levels of super spiritual purification.

 31:23

And, in a nutshell, what some writers like Aleister Crowley hypothesized was that the Scottish Rite enabled this soul because when the candidate went through these degrees, it enabled the soul to progress to the spheres more easily than other people. Essentially, this was the second, you know, the psychos like God and Bruno and John D, that it's a madness. The maggots was sent through these spheres.

 31:52

You know, I mean, I again, you'll find all sorts of symbolism with this stuff. Quite literally the path of the alchemist, I became obsessed at the beginning of COVID with reading old school alchemical documents, and quite literally, that was, that is what they were doing. There's science in their notes. And, and their experiments were utterly an attempt to and to purify themselves because the more pure they were, the more pure the experiment was, and the more pure the outcome.

 32:23

Really, really interesting concept to consider in that right. Oh, yeah, I mean, we you know, when you're dealing with a medieval Alchemist, you're dealing with Gnosticism they're basing their their ideas on the old Gnostics to know those who know. And again, you know, you know, when you when you look at Kabbalah and Christianity and Islam, you'll find the same thing in Gnosticism. It's the hermetic spheres, there's seven of them.

 32:51

And the spheres of spiritual purification, they're not only that, but they're also divine attributes of deity. They're all you know, you know, people like Raymond Lolly, and you know, call them you know, many tetragrammaton, things like that. And the, the, you know, the Gnostic that them the medieval Alchemist reflect the Gnostics and again, all this overlaps with Christianity, Judaism and Islam. And it's interesting, because you'll find a lot of symbolism, you know, relating to Kabbalah, not only in Freemasonry, but you'll find it in just, you know, everyday life. You know, you know, for instance, for instance, in in Kabbalah,

 33:31

you know, you have the 32 in the Christianity and Christianity there's, there's called the celestial hierarchies. These are the super celestial realms, and there's nine of them. Of course, this is where you have in Dante, Allah, Gary, the nine levels of hell, the nine levels of heaven, you have the Johnny Depp movie, the ninth gate, same sort of thing.

 33:53

So, you will find the cabbalistic symbolism, I mean, you'll find it in religion, you know, you know, even you know, in the in the orthodox religions, you'll find cabbalistic imagery and symbolism Yeah, and I'm being specifically numerology numerologically A number of power three being, you know, a number of strength nine being three threes, all kinds of things that literally date back straight to Kabbalah.

 34:23

Sure, yeah. And it's really interesting even to see numerologically Everything, how many things trace their route, right back to that one stem.

 34:35

And it I love the truths of masonry, because that's what it's about. Is is shedding the light on that. Now, once again, that's it. You can go through all kinds of conspiracy spokes, you can Hey, you could say that the I'll say it right now. You know, the Knights of Columbus give so much money to the two

 35:00

I'm like handicap charities because they want to make themselves look good. Like you could say all kinds of things.

 35:08

doesn't make it true.

 35:10

They are a society of seekers and people that are honestly there to find the truths in themselves and to finish their own pyramid. Quite literally.

 35:26

Yeah, I mean, it's, you know, like I said, what, you know, when you when you join masonry, certainly barbecues and bingo night are part of it, but,

 35:34

you know, in a lot of nations go through it, and they don't really understand the rituals that they're looking at it, or that they're going through, you know, if

35:43

it's really, I mean, I went through it, and I didn't, I didn't really know, I mean, most don't, it just you go through it, if you have the inclination, as I did, to start reading the people, you know, the great Masonic scholars, like, you know, Albert Pike, Manley P Hall, that's when you'll start putting this stuff together and, you know, can really determine and discover, you know, Roy, how deep the rabbit hole goes.

36:08

And, you know, you know, you just find this stuff, you know, all over the place. I mean, not only the Masonic symbolism, but you know, you know, mean it's, it's just, it's just a fascinating, deep study to me, and, like I said, I wrote the one book on it, you know, the Royal arch, which I'm in the process of doing some edits to but,

36:26

you know, it's just, it's just a fascinating topic. I think I like it so much, because it kind of covers so many different other areas. I mean, your philosophy, your politics, you have symbolism, you have the occult, you have religion, you have the mystical traditions, like you know, Gnosticism, Alchemy, Rosicrucianism, you know, all that, you know, Kabbalah, all that in there. Well, well, and you know, a prime example of what you're talking about, right? You're just to put all of those things in one pot of gumbo as a cage in here, page 463. You actually go into

37:02

the basilica in Baltimore, in the capitol in the District of Columbia, both Washington monuments were designed by Freemason architect Robert Mills, his placement of monuments to a Masonic President, before domed buildings is indicative of Masonic roots, solar rulership, and invested George Washington as the sublime in Nakia, Magus of the new Masonic Republic, like you, that is a fantastic, fantastic description of, of, quite literally what these higher like you said high high ranking Masons saw, we were in the middle of the moments of enlightenment in the French Enlightenment period.

37:50

Our government was so based off of the French concept of democracy and

37:59

so influenced by by that period,

38:04

even even Benjamin Franklin himself being being the envoy to France.

 38:10

Absolutely amazing to see that and like like you covered. I'm seeing George Washington as that new Inaki and priest in the temple of Enoch, which is now America.

 38:24

Right? Well, I mean, you know, you have it's the same cast of characters, the guy who did the Baltimore Basilica, and no capital within the boat dome. That's the chamber of the sun god, Apollo is Benjamin Henry Latrobe. And then you had the to Washington Monument, but one in Baltimore, which is a replication of trade agents column famous military general Yeah, that's of course why it's for Washington is actually predates the obelisk in the Federal District. And of course, you have the better than that it's the cover of the book.

 38:58

During after Washington died, a mason named Simon Shoal drawn compared Washington to Enoch. And then you have the engraving by barrel a, where you know, where Washington will cover the book where Washington is being taken out of his coffin, you know, in corporeal form, being hoisted up to heaven, and you got Saturn Cronos on there, and all that good stuff. And you have the two jewels hanging over the tomb. One is the Masonic pass master and the other is daughter of Cincinnati. Washington was in both of them, I mean, he was pretty much in fact, though, founder of the order of Cincinnati. So yeah, I mean, you know, you know, from from again, it's from start to finish. When when you can look at the architecture that's one thing I mean, you're gonna look at the founding documents, I mean, the the United States Constitution that separation of powers, the the triple division of government that comes straight out of the Masonic blue Lodge, where the power is tripled, divided. That's of course based on the movement of the sun, or the ecliptic, I guess, is the better word. So you know, yeah. I mean, you have the you know, you know, the architecture the founding day.

 40:00

documents, the seals the logo, it all goes back to Blue Lodge and high degree Freemasonry.

 40:07

And you break it all down. So entirely? Well, I mean, I chewed through the first half of this book before I even realized it over the last few days, and I cannot wait to have you on to talk about the same symbolism in popular cinema, popular movies, things like that. And of course, you know, it could it could once again go into conspiracy theories all day about Illuminati triangles at the Super Bowl. I know I know, even there were even people that went off on an Illuminati kicks on the on the horrible, horrible incident that happened in my hometown of Houston, it AstroWorld.

 40:52
And it's

 40:55
it's really interesting to see how symbolism can go awry. And I guess,

 41:02
as as we kind of wrap our time with you here in the last 15 minutes or so, sure of your hour.

 41:10
Let, let's get into

 41:13
the popular symbols that people see the regular things that people see the stones, once again, things like the unfinished pyramid, the all seeing eye. These are things that are somewhat ubiquitous, not just within Freemasonry, but throughout esoteric teachings, all kinds of things. And I guess because some of them crossover, yes. Into occult esoteric teachings as well.

 41:40
Even the Star of David does, you know? Yeah, yeah. Yeah. Right. I mean, you're, you're, you're, you're you're correct. I mean, if it, can, we, you're looking at the symbolism of this stuff. And this is the thing that I stress over and over and over and over again, and whether it be in popular culture or media or you know, within masonry, or if it's masonry, how's it being used as pay attention to the context of it? What's the surrounding circumstance? Because that's critical to understanding this. Yeah. What is the story being woven with it? And the lesson being woven with it? Well, the problem is, there's no one answer to that. Because it depends. It depends on how it's being used, and the context or the surrounding circumstances, how it's being, you know, how it's being presented.

 42:29
You know, what, when you when you come to understand it, you know, and like I said, it just depends on this, that and the other how it's being used the context, I mean, you know, you'll have a greater understanding, if you read the bulk, and you understand the Masonic lore, you know, why Hermes is always, you know, being used by libraries one on one, or, you know, you see, Hermes, always hanging around libraries.

42:52

You know, what, why is the number 47, always turning up in a popular culture where there's some secret or something like that, or the number 13 You'll find this over and over again, in the national treasure movies.

43:05

You know, and again, if you get into, you know, if you get into just,

43:10

you know, some of the symbolism, like I said, you know, the most important symbol within Freemasonry is the sun. So we're constantly dealing with solar symbolism, the domed building, the obelisk,

43:22

you know, the, the, in the Federal District, you have the 47 proposition of Euclid, right there, you know, which, you know, from the, you know, which is the Pythagorean triangle, a squared plus b squared always equals c squared.

43:37

And, again, if you're familiar with Rosicrucian philosophy, this is, you know, Cyrus, you know, ISIS and their perfected solar child Horus.

43:47

You know, you know, it's formed, it's formed in the Federal District, between the White House Down to the monument, Washington Monument, the Habilis up the mall to the Capitol, and then the high part News, this will be C squared is Pennsylvania Avenue. Why is it called Pennsylvania Avenue? Well, that's the Keystone State. Well, you know, what's a keystone? Well, that creates O'Boyle archway that creates an arch. You know, that's part of all this. It's a symbol of perfection. It's a symbol of spiritual purification. It's, again, it's the notion of recovery of the tetragrammaton. Akina as it were, so, you know,

44:23

one thing that the book really tries to do, and I hope I've done this, and, you know, like I say, I'm going back and making some edits, I'll make sure I do this is when you're looking at the symbolism, whether it be Masonic or otherwise, you know, whether it be alchemical or gnostic,

or cabbalistic you know, always always take a try to try to understand it in the context that it's in and I guess this comes from my training as being a lawyer because it's kind of what they teach at law school is just because somebody shoot somebody doesn't make it make it first degree murder, right? It could be first degree, second degree, third degree, it could be manslaughter. It could even be self defense. Yeah, that's the parallel. I'm kind of trying to draw us

 45:00

Always try to pay attention to the surrounding circumstances of how the information is being presented. That's right. And and not only that, because yeah, you gotta be careful a not to weave a narrative with it. And you got to be let the evidence take you where the evidence takes you.

 45:18

You know

 45:19

what you can weave a narrative with it, but you want to make sure it's the correct one, because

 45:25

that's where you could fall into a bit of a trap. Because if you if you don't miss understand the correct context of how it's being presented, you could, you know, misinterpret it, because I can't tell you how many times you know, especially this is true with the movies, you know, a symbol in one movie, it means something esoteric, but in another movie, it can mean something esoteric, also, but just have a slightly off kilter, meaning are a little different. And again, you got to look at how it's being presented. Well, well, and like I say, on the show all the time, yes, we have conspiracy theorists all over. They're professional ones. They're, they're called district attorneys. Their

 46:04

their job is to Yes, we weave a story with the evidence at hand and weave a narrative. And if the jury bites and goes with it, the nose of the charges and you know,

 46:17

so, it, yeah, it can be easily done, things can be easily misconstrued. How often do you see

 46:27

46:27

symbols being used as specifically Masonic symbolism, and that esoteric symbolism

46:35

being used for nefarious purposes in media, stuff like that? Because I definitely want to have you back on to discuss your whole series of books, cinema symbolism, all that kind of stuff. Because there's I'm a huge

46:53

subliminal cinema fan. The Exorcist is one of my favorite movies of all time. That's kind of all kinds of stuff. Oh, absolutely. From from subliminal audio and video to to esoteric messages, all kinds of things. And I definitely want to have you on about that. But there is a beautiful symbology to the, the rights of masonry, and how often do you see that being subverted for nefarious use? Or for, I guess,

47:29

conspiratorial use? Right? I don't know if it's necessarily Masonic, per se. And the one thing I do with my books is I present the information. I don't really,

47:39

as a lawyer, I guess this is just my I present the information object, you know, from an objective standpoint, I don't you know, I leave it to the reader, if they want to take it to evil or good or whatever. I could kind of argue it both ways. Some of the stuff that is very interesting to me, and I'm going to do a whole chapter on this in the next book, is the 911 imagery to turns up in pop culture right before the event. Oh, lovely. Yeah, that that is really strange. And I started working on this. And

48:12

as I'm doing it, I kind of, you know, come to the conclusion that probably just doing a laundry list of it isn't really, it didn't really work, it doesn't really work we have to do is sort of weave in some of the, you know, more, you know, some of the conspiracy with it. And then some of the numbers, some of the numerology going one with 911. You know, and even believe it or not, I mean, with some of this stuff. You have Aleister Crowley lurking in the background, you have things related to the Old Age of Pisces the New Age of Aquarius. This is this is what probably talked about what the new age of Taurus, I mean, you've got the number 93, your flight 93, which is, which is fascinating. I mean, we get a

48:58

massive spike in the egg experiment that was going on. I don't know if you remember the MIT egg experiment, but it was kind of along the lines of like the SETI project where you could like use part of your computer to like, in its downtime process information for SETI, except it was it was kind of using people's computers and bandwidth at the beginning of the Internet to create these large random number generators.

 49:27

And the day before 911 happened all these random number generators just spiked in the same way globally. Before

 49:39

I don't know anything about that. But I mean, it's just weird that who you know really, really interesting. just phenomenal.

 49:49

I can tell you one to 10 times better than that.

 49:53

You know, I mean, the Pentagon your book now, but please Oh, no. Well, I mean, the Pentagon, the Pentagon, the ground

 50:00

was broken on 911 9041 50 days beforehand. The Pentagon is 77,000 square feet 77 feet tall hit by flight 77. I mean, come on. Wow. Wow. Yeah. Yeah. I mean, you know, I mean, come on. I mean, does this begin to sound like a computer simulation? I mean, you know, it's, it's weird. Yeah, absolutely the more than CO inky dink, almost. It's really, really strange stuff. And I want to thank you so much for your time tonight, I want to thank you so much for your volumous amount of work and research and in in getting these things out to people and then explaining the actual symbology behind these things. Because, you know, I would love to have you want more just to talk about Masonic tradition, or myths, Masonic teaching, because it really is that

 50:59

that path of the seeker

 51:02

it's, it's a beautiful, beautiful thing. So, I want to thank you for bringing the truth of the Royal

arch of Enoch, out to people as well as your amazing work, cinema symbolism, tell everybody where they can go, to find you to find your work to order the books to contact you. Like I told you before the show, it's now time for shameless shameless self promotion. Sure, well, first off, let me say thank you for Thank you, Chris, for having me on. Curious round podcast. It was my pleasure to be here tonight. It was an excellent show, I definitely will look forward to returning we'll do a show in the movies. That's no problem. Certainly, I don't want to cannibalize your show. We'll do something over the summer, or in the fall.

 51:48

No, no doubt, but we'll definitely do a show on the movies. And of course, you know, Freemasonry is one of my all time favorite subjects. So, of course, we can always continue the conversation on that. That's no problem whatsoever. My website, the easiest way to find me is my website. It's my name. My name is Robert W. Sullivan, the fourth. And that's literally my website. It's Robert W. Sullivan. And then for the fourth, it's the letter i the letter V for the Roman numerals.com, Robert W. Sullivan iv.com. There are links on my website to purchase the books. Also there, that's all available. There's links to buy the books on my website. If you go to my website, there's information about me, there's information about upcoming shows I'm doing such as this one. There's a

 52:44

blog where I'm constantly updating with shows appearances, archived material. When this is archived, I'll put that on my website. Again, it's a very there's a contact page. It's a very, very easy site to navigate. www.RobertW.Sullivaniv.com. Links to buy the books. Again. One more time, Robert W. Sullivan, iv.com. And again, thank you, Chris, for having me on. My pleasure. Absolutely. It was more than a pleasure having you on this evening. Your wealth of knowledge about one of the most amazing topics I can think of masonry, the symbolism behind it, the symbolism in the world around us. Should we choose to find it and look at it. Thank you so much, again, for your wealth of information, your years of research into these topics, and your openness to come on and talk about them. I cannot wait to have you back on the show.

 53:37

Take care of yourself, Robert. I will definitely be in touch. I'll send links and everything else.

 53:44

Take care and have a great evening. You too. Thank you, Chris. Have a great night. And yes, we'll definitely do this again. No doubt. Absolutely. Man. Tonight our topic with the amazing Dr. Kimberly McGeorge is remote viewing, what is remote viewing? Why did our government look into it? Can't anybody remote view? Welcome to the show once again. Dr. Kimberly McGeorge, how are you doing? I'm wonderful. Thank you so much. I had been excited to do a show about remote viewing, well, probably since we ventured down the aisles of topics like this as our previous incarnation. And we have a lot of things in our knowledge vault, including the declassified documents from Project Stargate.

1:01:38

Not a lot of people realize that our government spent millions upon millions of dollars for decades, studying the art of remote viewing and the actual science of remote viewing the fact that, yeah, it seems like just about anybody has this ability to be able to remote view to be able to travel beyond and see things. So real quick, let's start getting into what remote viewing is, and

1:02:12

how people can do it.

1:02:15

Yeah, it's interesting. I think I have a more comprehensive view probably of remote viewing. And

1:02:23

some people, I think we do it a little bit of a disservice by calling them remote viewing, because people kind of have that fixed idea that, you know, you can look at anything go across the planet, you know, pop in somebody's house, you know, kind of see what's going on, or look at a murder site, or, you know, there's a lot of different applications. So look at the lottery numbers or, you know, find hidden treasure or find a last item, you know, are missing person, on and on. And all that is true. But I think that term remote viewing, so we're attractive, because what you're talking about Project Stargate, and all you know, even though they kept it kind of top secret, yada, yada, that's still the above budget operations of the military. And the government says it's not the Black Ops budget, where this stuff is just accepted as absolutely as being normal.

1:03:13

And why is it normal, you know, because it's all I pop people, anyone with a spirit in them, but everybody has a spirit of empire creation spirits.

1:03:21

You know, we come from the all so what can't we do? We can read minds, we can merge with all energies. So remote viewing, to me, there's a million ways to remote view. So most people when you say the term and I think you would agree with this, when you say the term reviewing, most people think about the coordinate military type of style, remote viewing where we have a blind you know, corded and then we draw, or, you know, different ways the information comes in, but we present the information and then compare it to a target, yada, yada. But there's a lot of other ways to me out of body. OBE is a form of remote viewing, you go out of your body, or you project part of your consciousness, which is how I remember you, out of your body, that's remote viewing, you know, I can go right now and be talking to you and walk around my daughter's houses all four of them at the same time. So we also call that by locating, try locating cause or, you know, on and on, you know, locating that's part of remote viewing to me, merging if I can merge with you and become you and look out through your eyes and and be you is that not remote viewing. So there's a lot of types of remote viewing that are unknown or are we don't consider and a lot of people do have these abilities that I'm speaking of some people very easily as a matter of fact, when I scan, one of the most common things they find is nobody's in their body. Where are they? They're remote viewing, wherever they are, whether they're creating it out of imagination, which of course here in the game, everything you can imagine is real. There's so remote viewing, maybe they're thinking about a past relationship. Maybe they're thinking about a future vacation, you know, maybe

1:05:00

they're dreaming of how they're gonna spend their bonus check. But that's all remote viewing.

1:05:05

Absolutely, I mean, even the process of daydreaming and not physically being there is a form of remote viewing. And I, you know, we've talked about my son on the show before Dr. And his akin to my brain. And I have to tell him all the time, I know, I know you're deep inside your brain right now.

1:05:27

I love it. But there's nothing going on out here to man, we need you out here, buddy. And it's so

1:05:38

a little bit of that I've got a touch of the Add ADHD and it's one of those I can see the propensities in him. So to be able to give him those coping mechanisms early to be able to let him know, Hey, it's okay. The brain workers when kid, it's around, you just need to learn to focus it. And I think that's a big part of what we're talking about here. Is that, yes, everybody. It's like saying, everybody can't meditate. Yeah, you can. It's just that what it takes for me to meditate is different than what it takes for you to meditate. It may it may take me 15 minutes longer to shut down my quote monkey brain, you know, of, oh, is the tree still going? Oh, the dishes.

1:06:27

Whatever it is that distracts your mind from the task at hand via putting your shoes on and getting ready for school, relaxing and meditating, or focusing on an object inside of an envelope that you've never seen.

1:06:45

Yeah, that's a great point. What are the things you know, when I teach meditation, which I don't teach formal meditation, I teach informal meditation because really what we need to get the better for tell you the same thing. The Tibetans, a lot of the Eastern cultures and religions will tell you the same thing. What what you need to get to a point to truly meditate is exactly what you said. I call it silent mind, quiet mind, still mind, you know, we need to get to a point where you're not thinking about anything, because only then when you have no thoughts. And a lot of people have, you know, projected toss that note, a lot of people don't know this. I think I might have mentioned it before. But every single one of the cell phone towers has a switch that can become a programming tower. And they actually transmit the frequency of thoughts. So we're all under not only the collective consciousness of nonlocality. So we all can actually hear everyone's thoughts if we choose to, or we tune into that frequency of that person and their thoughts. They're like whipping bias, just like everyone's always, you know, I want more money, I want more money, I want more money. But you know, I mean, it's whipping by you in computer transmissions all day, just reach out and grab stuff, like, post your handout. But like, it's not hard to receive money. And that's a whole nother conversation. But it kind of, you know,

all ties into absolutely, you know, in my opinion, the same thing. Well in silent mine at one point, yeah, it's about finding that space and remote viewing specifically, I've been going through the document

1:08:15

released the declassified document like you said, what what is declassified here and what we know about Project Stargate is just what has been put out on the up and up. It's just, it's what we know about that's been able to be declassified because, well, it's been 30 years since the research, all kinds of things that does not mean that a form of project Stargate does not still exist, it does not mean that these means are not still used by the alphabet agencies of not just our government, but foreign governments.

1:08:51

All of this started, at least our research as a response to finding out that Russia was not only researching it, but actively having success.

1:09:06

And it's really interesting to see the deep dive that our government took into researching this and then actively verifying it.

1:09:22

Again, to every single government in the world, every single three letter agency in the world, including, you know, other agencies, I don't know three letters like Mossad. They all have a very, very, very high level of remote viewers, and they use them

1:09:37

for many, many different projects.

1:09:40

So I mean, that's ongoing a lot of times

1:09:44

taking over, or dealing. A lot of times I'll have remote viewers in my house. So and they have a certain frequency, you know, that they're projecting that they're not actually standing there that they didn't, you know, send out you know, a part of their body and earth here or you know, locate

1:10:00

But they're, you know, projecting a part of their consciousness to view a certain situation, you know, for certain agency or for certain projects, or they've been hired to monitor. So, there's a lot to remote viewing, and you can actually view many different things. You know, at the same time, you can also view past and also the future because all time is now.

1:10:22

Well, and

1:10:24

I think that's what a peep a lot of people don't realize is the exact to kinship to astral projection. Yeah, and, and like you said, the idea that

1:10:37

you can you can feel the presence of a remote viewer, you can tell when somebody is remote viewing your location. And that now, of course, that gets into our typical course of conversation that we have with you, which is frequencies, strange frequencies, things like that being able to being able to literally same way is finding a sideband and a radio signal and going oh, wow, listen to that. I can hear part of Australia while I'm listening to the news from San Antonio because of the storm.

1:11:13

Same thing happens with data and our brains and and even even the transmission path of our thoughts.

1:11:24

How easy is it for someone to remote view? Literally what's inside of our brain? I guess what would be the equivalent of telepathy?

1:11:37

Kinda I mean, the way I always did it, which I don't do as much now, because I have, of course, my lovely technology, and I've had it for a number of years, even a different form. But I mean, I used to just merge with a person. So once I match with a person, I can choose where to direct my attention, I can direct my attention to their thoughts, or their emotions, or literally, I can crawl around their body and be like, Oh, wow, you know, in the brain, there's some deep Dippy

channels, this is an addict. And then I can go deeper and say, This isn't drug addicts. This is a sex addict, it has a different field, it has a different frequency. But all sex addicts have the same frequency. So even though sexual addiction and alcohol addiction are two different frequencies, every brain feels exactly the same when you're in it. So we know most with it when you're crawling around in that body. It you know, it's consistent. You know, and of course, you know, people will say, well, there's white sexual addiction, and then you know, then there's like perversion, sexual addiction, or there's white, you know, alcoholism, and then there's like, you know, heavy, you know?

1:12:39

Yeah, yeah, there's, but I mean, again, it's in the same frequency range. You know, and you can also see by how deep the divots are, how low the brain chemicals are. So there's a lot of information you can put together. And really, you know, everybody holds up psychics and remote viewers and all these things. But again, I'm gonna say 100% of everyone has all these abilities. And, again, it's so funny, we come down to this lower 3d density that's so physical. And then we just want to go back out, and we want to go to the fifth, sixth, seventh, eighth, ninth 10th 11th 12th. And you'll get your opportunity when you pass like you can choose to come back here, or you can choose to move on to a different density and get your abilities back. But it doesn't mean we've lost the abilities. I think the problem is, we don't remember who we are. Once you know who you are, you understand this reality, a lot of your memory, it's like this echo memory that you hold in your field that they block with memory, weapon technology, and all sorts of technology all the time, it will hold us down, you know, it begins to come back. And then you can operate outside this reality that you can start creating your life that you want. I had a guy write me and say I want to win the lottery. Well, just tapping him without even technology. I'm like, your money beliefs are insane. If you think you have to win the lottery to win money. I mean, you're both money, beliefs are wrong. So I mean, you can create anything you want. Within this reality. You just have to understand first of all the nature of this reality, then you have to remember who you are. Well and the exact modality in which you live. You know, like you said, you don't have to win the lottery to end your money woes. I think your focus is a little beyond

1:14:20

narrow and whittle that focus down to the difference between needs and wants, your needs can easily be cared for.

1:14:29

Absolutely. And then also obviously with that question, we also know what else about him we also know that he believes that money buys happiness, and I'm here to tell you, I have made at times in my life, I have made tons more money than I'm making now. And I've been miserable because money doesn't buy happiness Money doesn't buy how money doesn't buy good relationship. Do you think it does? It absolutely does not. It doesn't buy so much of what is really what we're seeking deep in our soul.

1:15:00

Yeah. And you know, just to look back for a second, just a moment ago, quite literally, as you said,

1:15:09

remote viewing is voluntary. I started scrolling past the page that said remote viewing is voluntary.

1:15:19

Not even joking, it was weird. But, or was it? Now, the reason I want to get into that real quick, real quick, because

1:15:31

as you know, we have quite a bit of our audience that are T eyes, targeted individuals, things like that these are people that

1:15:40

have been targeted by technologies. And I guess, part of the question that I would have to ask because of course, like we were saying, remote viewing can very easily be sensed felt. Um, if you are attune to that, if you're attuned to remote viewing, you know how to do it. Now. The question is, whenever you say that you remote view into people.

1:16:12

I assume the fact that number one, yes, that has to be voluntary, and that there will that you can't just remote view, like, into the old lady shopping for grapes across the aisle, right? No, no, you're right. No, I can merge with anyone, anything, any place. Any tree any animal willing or unwilling. Very few people have the ability to have a psychic defense up against me because they don't even see me coming. Yeah. Well, I guess

1:16:42

what I would want to get into here real quick. And why I was asking the question is, what is the posture of because of course, when you're talking about spy tech, when you're talking about, hey, here's this random building at these coordinates, what's inside, amazing for intelligence, but when you're talking about

1:17:03

the opportunity to literally hide inside of somebody, observe their surroundings,

 1:17:13

affect their surroundings through them, and even affect their health or well being.

 1:17:22

Man, that that's an amazing weaponization of something that is utterly naturally occurring.

 1:17:30

Well, and in higher dimensions in the upper ET races, and I'm not talking sci fi, I hate to tell you guys it is so low dimension, and it's considered that way throughout all of the multiverse is still considered a physical lower dimension you have to get about 5g. But starting in about 5g 60 and above, everyone above, they don't talk as much as we do because they remain have mercy literally have merged, connected all the time. So you know, someone's gonna be like for dinner, you know, somebody's out flying in a jet around the galaxy. And, you know, they got caught up and they're gonna be you know, three hours late like, there's, there's a merging because as we go up in the dimensions, we head back to the All, and the all is the all, we are all part of each other. If we're fireplaces here at again, close at empty vessels, an empty chamber, not every animal has a spirit. Not every tree is a spirit. Not every person has a spirit. But if you do have a spirit, we all come from the same thing. The only thing that differentiates us is point of view. But we all are all powerful. Have all the abilities have all knowledge, all time in all space, past, present and future. So apply that to psychic abilities. You for some reason, aren't remembering that for probably trillions of years you did remote you you did merge with people. You did have, as you said, telepathy. And I also think we attribute psychic abilities because the government's in the military hides so much advanced technology from us. So most people don't know that every single pet they own is weaponized. Every single pet in our house has AI implants 100% So you don't even know that you have these sweet little fuzzy furry kissy dog taking pictures.

 1:19:17

While you're naked while you're getting dressed while you're having time while you're picking your nose. Whatever you guys do that you think nobody sees your light bulbs are weaponized. Your fire alarms are weaponized. Why do you think they require it? Do you think the government cares about your safety if you do have a lot of swag planned in North Carolina I will start telling you they don't care about your safety. There's a reason they have these rules and CO building codes you know of course it's to make money, but it's also to get their spy high tech equipment into your home.

 1:19:47

Sure, hi.

1:19:51

That's that that's one of the things because, of course, once again, you can use frequency sweepers you can use

1:20:00

All kinds of things to find devices, things like that. But like I've said, there's no and like the document said, no real defense against remote viewing? No, there's no, there's no real defense against the high frequency beats. So remember who they are, it is in their full power. And and I hate to say it.

1:20:21

I mean, there's really no defense against me. I mean, as a matter of fact, today, I'll give you an example of something that happened. I am a targeted individual, we've talked about it before, I'm very heavily targeted and wonder why individual, and I have a left ear implant that's been identified. I've seen it, the doctors have seen it, we all play games and call it an anomalous thing, you know, that they don't know what it is. So we just played the game like, you know, they're not going to be honest with me. But they turned out my implants this afternoon, you know what I did, I followed the frequency of the beam person. In this case, it's not always the person, but it was a person turning out my ear implants. And I'm not going to tell you what I did, because it wasn't very nice. I immediately went into actual battle, and started doing certain things to this person's family and this person's property, it took two seconds for them to turn off my implant that was squarely

1:21:11

that part of remote viewing to following the frequency, being able to defend yourself against enemies, all kinds of enemies, whether they're in the third dimension, whether it in the 12th dimension, whether they're the Galactic Federation, whether they're what you would consider a demon, it doesn't matter. If you are all powerful, you remember who you are, you understand the game, you're golden. Yeah, yeah. And that's just it, you know, it really is about

1:21:37

knowing that technology helps you defend yourself against it. That's true. And really, the The only defense is a good offense. So learning to remote view, learning to even tap into what's inside of you and the potentials that you have. All these things are a muscle, and, and great.

1:22:02

Like anybody can be taught to record but prime example. I'm an audio engineer. There are

literally tapes out there that you can go out and buy to teach you how to recognize frequencies by sound

1:22:18

by how to hear a tone and go, yep, that's 1.5k. And it will like it will train your ear it will train your brain everything else.

1:22:29

But you got to be ready for the fact that now you might be like me, and here's somebody's car stereo three houses away through your wall. Ah, yeah. Cuz you're sensitized? Yes, yeah. You're sensitized. And my wife can hear none of that. I can hear like almost words out of songs through our wall in front window.

1:22:51

It's like spider man hearing. It's great. But it can be pretty troublesome sometimes when you're trying to shut down the old monkey brain. Sure, yeah. No. So yeah, you got to learn to kind of like weigh the positives, negatives, and you got to learn the fact that yes, when you sensitize yourself to something don't forget, you're sensitized to it.

1:23:14

That sounds such a brilliant plan, I have to stop you. I don't think you know how brilliant that was. I'm gonna also talk about how people are always like, I want to see like you do I want to hear like you do. I want to know, like you do, I want to experience the fourth dimension, the fifth dimension. And I say, do you, do you? And they're like, Yeah, I repeat to G Suite. I'm like, I mean, sometimes it's clamer. Because if you see the fourth dimension of Fifth Dimension, folly,

1:23:39

I'm telling you the first time you do you will wet your pants, man, woman, big little child you because it's terrified. And fourth dimension is one of the darkest, the most terrifying dimensions close to the third that there is. And so they're like, that's so cool. You can see people's little grandma and relatives and their, you know, husbands and wives and children and pets in the past. Yeah, that's really cool. But I don't tell you I don't draw I don't ascribe because you don't want to know the horror that I see. evil beings that I see that the bones shilling makes you crawl on your bed that walks around. I mean, it's not one sided. And that's why I hate the love. And I do I hate the love of my community. It's not, no dimension is all bunnies and unicorns and worldwideweb and rainbows unless you're very close or in the 700 dimension almost all the way back to the wall as a friend. So this is our first time here in the game. And she came for as she remembers this whole memory. She came from being like color and sound

with about four other beings and they were just mothers actually a very low frequency guy, believe it or not, there's much much better and bigger things than the love that we know here. Put it that way. It's just a very poor word and understanding

 1:25:00

In the upper dimensions, the densities, but she came from joy and bliss, let's say and, you know, our language is a good because we're not really supposed to be using language. But anyway,

 1:25:10

it came from that there are places that are, you know, Rainbow bunnies and unicorns, but they're very, very, very high we come into, we want to experience the contrast, some of us are born of love and bliss, we want to get a little dirty, you know, that's why we came here.

 1:25:29

Yeah, and, you know, with that in mind, because, of course, like we've said before, like we said, with Lindsey Charmin with you

 1:25:40

to know these things is great. But there also comes the, with the burden of knowledge, the responsibility of that knowledge and the application. And the fact that, yes, you know, knowing how to remote view means that you could do these things is that the most responsible use to be doing that is that the best use karmically to be doing that, you know, that whole spider man with great knowledge, with great power comes great responsibility.

 1:26:14

Such as such a true outcome that we have to truly, truly keep ourselves on top of in this day and age. But

 1:26:22

let's, let's start getting into the process of remote viewing because once again, there's the process that was used by the military, things like that, in their expand the main reason was true experimentation.

 1:26:40

And the only way to do true experimentation is that blind experimentation of here's an

envelope with something in it,

 1:26:49

told me what it is.

 1:26:52

And, you know, really doing that true placebo effect type of double blind study. That was a lot of the reason for the origin of that, like you said, you don't necessarily need

 1:27:06

anything in a blind envelope to be able to remote view that process isn't a necessity to the action.

 1:27:17

Right? I mean, I actually encourage one of the first exercises when I teach a more free flowing style of remote viewing is, I encourage you to get with someone like you know, I know what my daughter's apartment or house looks like. I've been there, obviously. So, you know, I encourage them to do things with people they know where they feel safe, where they won't feel foolish if they're wrong, a lot of how we block our abilities and like you said, building that muscle. If we're afraid to be wrong, we're afraid to sound stupid. We're afraid to make mistakes. I'm telling you, every remote viewer every psychic every Empath every whatever you want to call them has made mistakes because you misinterpret it's not even that you've made mistakes. You might not even have ever made a mistake, but you misinterpret information you have to learn a lot about you and how information comes to you do I know it? Do I feel it? Do I hear it? Do I see it? There's different styles even a remote viewing even though we're using the word viewing there's also smell when you go into somebody's house and walk around you might have a smell a lot of times I know the spirits because I smell the perfume I'm often in my garage I sell men's clothes well either there was a man wearing heavy clothes in there or there's a spirit

 1:28:27

like you said earlier even even viewing people and viewing situations whenever you hop into the brain of an addict like it may be the fact that like addiction smells like wet dog do you

 1:28:42

in common with every addict that you hop into is I always smell wet dog

1:28:49

you know

1:28:52

I'm just saying that people that smell death some people smell death I see death like I see that that oh of death on people but a lot of people smell death I'm kind of glad because I don't think that's probably super pleasant just because it involves like the avatar decay and

1:29:11

you know thinking of it in that concept where where Yeah, it's going to be activating different centers of your brain. Yes. And we're individual we all our brain our brain chemical as a tool of avatars the tools you say

1:29:29

you know we have low dopamine high does that mean low serotonin and high Sir You know, we are an inflammation of history or not and inflammation history and automates the difference on our interpretation. And so, again, I encourage you to, you know, work with a family member, a good friend, and what I have them do is I have them hide something very distinctive. Something like a, I don't know, like a purple elephant statue. And you say, Okay, I'm gonna hide, you start simple. You start giving them more information. And you say I'm gonna, you know, I'm gonna hide the purple I

1:30:00

Since that's you, and then you're going to come over to my house, or remotely my house, I always go, I'm on I just always go when I remote do but you can remote you, you know, I'm going to remote to your house, you're gonna tell me where I put this, you know, paralysis touchy, so you don't have to start out, you know, tell me what I hid telling me what color tell me where it is just start simple because it feels competence and you're like, you hit it in the fireplace. And there's no way like, you wouldn't really get that, like, Who woulda guessed that you'd have a fireplace so that it builds this tremendous, you're like, so proud. And you gain confidence. And so the next time you do that a couple more times. So once you're comfortable with that, and you're like, right, right, right, right, right, then you're like, well tell me what color of the thing that I hit and where I hit it. So we don't approach it, you know, all or nothing, where we have the deep failures, we build on triumphant successes. And that gives you the courage and even with being psychic and speaking what you know, or what you hear, you know, psychically and the timeline for the future or the present, or about somebody's life or body. I also encourage that you speak it. And again, start with a safe person know that you feel safe plus, that if they're like, no, no, I don't have any. I don't have any green dresses in my house. But I don't know what you're talking about. Don't wear a green dress. I don't own a green dress. But you know what's interesting about that? Sometimes somebody will tell you even when you're practicing, I don't own any green justice. And then they're like, Oh, crap, I forgot I put

one in the giveaway box in the grind. Sometimes you're right, even when someone tells you you're wrong. It's really interesting. Yeah, yeah. And, you know, even once again, those, I guess what you would call close hits, you know, not necessarily a hard hit. Yep, I'm wearing one right now. But like I came in with a green dress yesterday.

1:31:48

Back are things like that, and

1:31:51

what is it? Is there necessarily a difference between, I guess, clairvoyance, clairaudience, and telekinesis, and remote viewing. And I mean, of course, I would assume the fact that they are all Akin, you know, that.

1:32:14

If you're good at one, you can do them all, you can be good at all of them. And I would put forth a theory, you're actually using all of them. When you are my view, I would put forth that theory and I would have to kind of, you know, talk to you and see how you work to kind of prove that but it really feels like that at least when I remote view.

1:32:36

I use a little bit of all of that, depending on the situation, you know, or some of it. And when we scan people because I have a panel where there's like

1:32:45

maybe 50 different types of psychic abilities, which we don't even know most of them, but there are a lot of different we aren't taught or no, but people are coming up like with 30 Like I've never really had anyone test for less than 30 so how sad is that? That we have 30 psychic abilities and we're probably not even using partially more than one or two I think it's really sad because we're just super super like we get so caught up in the avatar and hung up in the avatar we forget that we're Infinite Spirit

1:33:14

you know, yeah, yeah. You know, that's a that is a really good point to bring up because

1:33:25

remote viewing happens and and remote viewers are across the board they it's not anything of

anybody have a certain political mindset. Anybody have a certain spiritual mindset? Anybody have a certain religious mind

 1:33:45

is the the experiences of project star gate and the research done and the findings found are that literally anybody can be trained in this. There was Sri for a long, long time. I remember I used to hear I want to say I ordered the Esri videotape

 1:34:07

that you could that you could order back in May be in a may actively still be in a box in my mom's garage. I'd love to just like transfer it. It's a 20 something year piece of history. But remember, back in the day, they had their ad that would run on coast to coast and you could you know, order the video

 1:34:29

out and then order the course

 1:34:33

that and

 1:34:35

it was always fascinating to hear about and a lot of that is

 1:34:42

what began my work in dream word, and dream travel and going to sleep with a purpose. Going to sleep with the concept of finding an answer to something Yeah, I love that

 1:34:59

and

 1:35:00

And I guess they're kind of akin almost the same but not really.

1:35:06

Mine was definitely much more of a guided meditation that I was going to the same place every night.

1:35:16

And that place that I went, I was I was going to meet my guide.

1:35:22

And me and my guide would go and do things and talk and explore. And, and that was that was my process to, to get to answer to and I wouldn't necessarily say that I astral traveled at any point I definitely came to that out of body. Well, I definitely came to the point of like,

1:35:47

mental crash, where things started happening and then I and then I just felt that crash back into my body.

1:35:56

I've actually felt that so there was that moment just before release. But, and I guess that that's what's hard for a lot of people, I suppose is you do have to get ready for at least a few moments of you are not in control. Right?

1:36:21

Yeah, I call it sometimes when I snapped back into my body it feels like infinite falling like you're gonna fall forever but you don't you like hit the body? Yeah.

1:36:30

Yeah, it's scary. You gotta get used to it. You have to give up control and surrender. And, and again, it's anti program we're taught all this stuff is dangerous and unsafe, especially if you're from a standard religious background, you're taught that you know, we are these dangers and portals are dangerous and psychic, things are dangerous and psychics are dead. You know, what isn't dangerous, you know, in some religions that, you know,

1:36:54

jurists? Yeah, exactly. So

1:36:58

to get to the point where you're like this, is there is no real death. Yes, there's death of the Avatar. Yes, we miss the beans. And the animals and the relationships of people that have

1:37:12

pulled back are eternal beings. I mean, most animals have spirits all but most most people have spirits. If you choose, you can continue the relationship as many people know.

1:37:25

Even if you're in 3d and they're in 12 Z or you know, they're on another planet and another body and and living another life and you're here like this nonlocality is so huge. All of the things that we're talking about you, you are not taught that you're talking opposite you're talking about you can't know all things, you can't be connected to all things at once, like past, present and future. For example, if you can't be connected to all dimensions, really, when I talked about densities and dimensions, I miss speaking, because all dimensions exist some overlap. So right now we have access to the All right now we have access to the seventh and the 27th. And look, how I don't know how many dimensions that are. I've never figured about

1:38:09

you know, and, and it's so cool if you understand nonlocality your way toward developing your psychic abilities. But if you're under the programming of science, not that all sciences wrong, it's not. But you have to realize that even a Materia Medica, from a from a medical medical textbook or Materia Medica, from Chinese medicine or herbal medicine, this is a viewpoint usually of one person or group of persons of how they see the world of their relationship with plants of their relationship with maybe ETS, we hear these abduction stories of their relationship with psychic abilities. And we take that as gospel truth. But what is true for someone else is not necessarily true for you again, opposite of what we're taught, we're taught like, you know, this is, this is a couch, you know, and couches look like this. And this is a food program. I mean, you go to any country, they're going to eat a minimum of three meals a day, you don't find that off any culture. Any country. Do we not see that? That's a matrix game program. I mean, some of these things are so obvious that have been laid on us. But I would ask you what is true for you, you know, what's true for me? One meal a day is true for me. Yeah. What is fair for you? You know, we have to start pulling out and saying, wait a minute, I'm an individual. Again, your government is never going to treat you like an individual. The military. They'll tell you I mean, I have a military family. They definitely.

1:39:40

You know,

1:39:42

a school is not necessarily even what you're going to be put into, don't say tell us isn't it interesting? That they tell us when you go to school you enroll in a what a program? Yep. A program of study.

1:39:56

See, my wife's nephew was a was an eight

1:40:00

To grade and we were all like we were out playing Keno is the family you know, like having having dinner, things like that at a place in Massachusetts and

1:40:11

he was talking about how school was really boring sometimes. And you know, there's a couple of subjects I like, but a lot I don't. And I was like, Hey, buddy, there we had a pretty, just conversational relationship for an eighth grader. And I was like, you know, let me explain something to you.

1:40:33

I learned probably up around your age that school was a chance for me to see my friends eight hours a day.

1:40:41

You're gonna have some work to do. I was like, what you are in right now is quote, the Hessian school system, my friend and

1:40:50

being trained to do

1:40:52

the same menial eight hour task? Yeah, all day long. It's called busy work. And when you go clock in for the man every day, yeah, not every hour is spent doing something actual, you probably get about two and a half hours of actual work done the rest of the process and fill out

these forms this way, just because so that's what you're training for. You're training to literally be able to get through life on the daily as a worker bee in the world. Okay. And

 1:41:32

you just see it as that and that's okay. Like, hey, that's training, you know, that that's okay. I never ever want to make anyone feel small if they have no interest in being psychic, because I will say something about those people. And even if they are Fireface. If you want to fully immerse yourself in a 3d marriage and a 3d job and a 3d house and a 3d money program and a 3d education. There's no judgement here. I don't want anyone to think I'm judging that you have no interest in psychic abilities or remote viewing or any of the things we're talking about. Yeah, what you chose 3d as an experience, and you're in full experience, bravo. There's nothing wrong with that. There's nothing wrong. But some of us have been here a lot. I've been here a lot. You've been here a lot. And, and we're, well, I'll speak for myself. We're done. We're ready to start getting ready for the next life and remembering who we are. And that's okay. You don't have to love 3d canal. Yeah. Yeah. Well, and, you know, what's it and

 1:42:33

I tell it to people I work with and contractors I work with all the time, hey, not everybody is made for the freelance lifestyle. Not everybody is made for that 24/7 Hustle and the fact that I may be working on Christmas.

 1:42:52

But when I work on Christmas,

 1:42:55

yeah.

 1:42:59

Christmas gig folks,

 1:43:02

everyone's an entrepreneur for short, not everybody wants to have their own business or wants that responsibility or wants that intensity. You know, we're all different. We're all you know. And that's what I love about this reality, everything. I believe it's real. I believe in the programming, and I believe in the full system. And I believe in the medical system, and I believe in the legal system. And I believe the politicians that I believe in the wars, great that it's a real for me, and that's what I'm choosing. Now, here's where the wrinkle comes in for me, okay? The mind wiping technology, are they really choosing it if they don't remember who they are? Now, if

they remember who they are, and they're choosing it, that's a different scenario for me. So that's where I feel people like you and I come in. We are here for the people that want to see something different. You know, we're here for them. Yeah. Yeah. And much like we've said on the show numerous times, much like we said with you.

 1:43:58

We all think that to an effect change in the world that the we have to change the whole world. They're the whole paradigm and you don't you don't you just you just have to nudge the carrier wave next to you. That's it. You're giving me chills. One out of five. One out of five people who lived in the United States took place in the American Revolution, one out of five. The other four have looked at him and pointed and when you are a nutbag I'm proud family that did thank you

 1:44:35

literally, so

 1:44:39

you don't you don't have to change the whole world. It's not an over surmountable obstacle, it's not making a mountain out of a molehill. It's literally kicking a little bit more dirt on top of the mole hill people. It's the butterfly effect. Like I just watched the butterfly day and like, you know, they they flap their wings like what's

 1:45:00

1000s of times, hundreds of 1000s of times, but just one butterfly flap has a ripple effect in the home outside not even in our universe but the multiverse even just the ripple effect. Take two stones throw them in the pond and watch the third wave get bigger when they meet. Yeah, like little changes it's not even change your whole day. Tomorrow. It's not give up your job. Who desert island we're not even. I'm not saying that at all. I'm saying little tiny, incremental, you know, decisions that make your life better. It's not what and you know, what for some people have right life is living in a one room cabin in the woods, and just some people, and you know, this is true, Chris, that idea of how Oh, yeah. Oh, yeah. No, they're called glampers.

 1:45:50

People who they're the people who can't go glamping without like, their makeup, mirror and batteries. And, you know, I gotta you What do you mean, we don't like the campsite?

 1:46:01

What do you mean, we don't have power at the campsite? How am I going to do without watching my yellow jackets on a Sunday night?

1:46:08

Maybe you're toast some marshmallows, and just be still and listen, you know. But with a and we've got you for about another 3045 minutes or so. But let's let's start going through a typical remote viewing session. For those for those who haven't gone through one. How do you start out? What is what is the process of remote viewing session? Dr. Kimberly?

1:46:36

Yeah, and again, you know, my process for me is different from a in, you know, the military style to so of course, I don't do the military style, because I was born, natural remote viewing. So really, for me, and it is a simple. So I mean, for me, I'll give you an example. One of the Okay, nobody hire me for this. I'm not currently doing this. I just turned someone down to this job, by the way, but I used to do a lot of cheating for my viewers. So it's my husband, you know, wife, girlfriend, boyfriend, whatever, whatever.

1:47:09

Yes, PII work, I used to do a lot of CI work. And so what I would do is first I would stay out of their bodies, because I don't want to merge if I don't talk to, because there's an energy dig my energy is definitely high than anyone I'm going to merge with. So who benefits they benefit? I lose? Oh, no. Yeah, absolutely. So I don't go into their bodies. And so what I do is I, they send me a picture, you know, of the sheet suspected cheater, and then a picture of the person, you know, that's hire me, of course, I usually know what they look like. And I thought I, you'll understand this language. But I find the frequency signature in past or present, and I find them in a scenario and I don't necessarily find them right now. Because right now, they might be you know, drinking a beer on the couch watching the game. So why am I gonna go look at them now, like, that's not going to tell me from the outside, if they're cheating, necessarily. So what I do is I scan through, I know what the frequency is of infidelity. I know what their frequency is, the specs, I know what the frequency is. And I know what it feels like, I scan through their field, where we hold all of our memories, not just all of our memories of this life, or not all of our memories of the past lives. But all from the time they broke out of consciousness from me all, all of our memories. Now the technology that they use, they block they don't wipe our memory, they blocked us from remembering and they put something between our spirit and the memory so they don't literally when we say memory wiping they don't literally wipe your memories. They either implant false memories, which makes things really confusing, or they block your access to the memory. So that language seems a little wrong when I use it and other people use it. That so I go into the field and guess what, it's easier for me because I shouldn't really say this because I'm gonna probably make some new technology or improve this. But I've never had a problem accessing someone's memory I have more problem accessing mind than I do other people because I'm coming from the outside and they're putting the technology between your spirit and your memories you see what I'm saying? But they're not blocking me from accessing your memory. So I go to his field or her field because we all know women she too

1:49:32

and I see em through till I find sexual addiction whether in a strip club some people consider that CD or I find when they're having this intense heart connecting you know all cheating isn't sexual. What I find is repeated coffee date and these long and you can feel that's when I do merge I check it on merge with her merged with him when I see the scenario. And I'll be like, Oh my god, like these two are like soulmates. They say, Oh, it's closer than either

1:50:00

Never been to his wife or husband or wife, you know which way it is. And, you know, I have to decide how much I'm going to tell him how I'm going to present it. And that's why I don't do it anymore. I mean, I've helped a lot of people. I will say this, every person I've ever remote viewed, affected a divorce. That's one reason it's kind of depressing. I don't do it. Because let's go backwards. Spin this backwards. If you have to hire a private detective, or remote viewer, because you think your significant others GED, you have your answer already. You don't have to actually hire them. You suspected it, you're you're reading the frequencies, you know, they are, you don't need me, you don't need a pie.

1:50:39

What you probably do is explore what's going on between the two of you to begin with, because there's probably something amiss, whether whether there's an infidelity or not going, it's it's probably the fact that there is there's something missing you about what's going on between you. You know, you know, it's interesting, as we're having this conversation, I would say people like you audio engineers, people that have been in radio musicians, piano players, people that play musical instruments for many years, people that can read music, people that love music, I've listened to a lot of music and a lot of styles of music, that's all frequency, you're gonna slip into things like remote viewing a lot easier, because I just realized talking to you, which I've never formally mentally realized before, show much of how I remote view, it all goes back to frequency, of course, you know, it's kind of like my whole life for many, many years. But I still work even as I'm explaining it. I'm so planing remote viewing in terms of frequency, how I do it, and what I'm looking for, and, and you know, when I need to merge, just to check from the outside, I can always pick up like, you know, there's feelings that we have when we're with someone that we're in love with, or were sexually attracted to. So I, I only merge to get confirmation of what I'm seeing on the outside as I'm observing them. But this all happens in microseconds. So I can hit this event then hit this event that hit this event. DeSantis is a and and then I put together kind of a compilation, and then also, I walk out, and I look at their car. And so sometimes I can get a license plate and I've got a license plate, and then I've created some legal problems for me. Sure, because then I end up being put in divorces in court, and it's a mess, because yeah, they take down

1:52:29

I'm telling you when you're a good remote viewer

1:52:35

1:52:33

I mean, I was I was gonna say especially the the quote hopping in.

1:52:42

I would imagine that there's a big reason that you don't do that anymore. And that that's that that's just really the fact of ethical quandary. At some point, you know, are you hopping on somebody for the right reason?

1:52:58

What are you doing and not that like, you're going in there and putting putting some kind of psychological wall. But I've never done that. But even

1:53:11

it can kind of come to the point of, Oh, I found somebody's diary. Or oh, I read the diary I found.

1:53:24

My lady, I'm basically violating someone's privacy for money, or I was I don't do that anymore. And I don't have to do it. Because if I wanted to do it, I could do it with the app. And I don't do it at all. Because I've been really humiliated being called in on divorce cases. Imagine a remote viewer being called in against their will because it's just a mess. It's a mess. And I get really, the court system isn't set up for anything. So I get obviously, you get raked over the coals, it's just not worth

1:53:55

not worth any amount of money. So

1:53:58

my process is kind of like tapping. Okay, so here's my recommendation. Actually, if you

1:54:04

spend time learning how to reframe what you actually already do, when you go house shopping, you read frequencies, you're like, this house feels really warm. It makes me feel that this house feels really cold. I went one time with my realtor. She thought it was like a nut job. So we go on the property. It's kind of dicey. And I saw a couple of things. But I mean, that's pretty typical. There's always stuff on every property. I get, I opened the front door and I walk in and I felt like I was gonna throw up which anyone who knows me and has ever heard me talk

knows that that's a sign of a high level of demonic dark energy. For me. That's how I bodily react to it. So I said, I'm not looking at this house and not walking through this house. And I turned around and walked out. And I was like, What's wrong with you? And she like walked around the whole house. You went up there. So it's a bunch of horrible, it's just this place.

1:54:51

Spacious.

1:54:53

She can't read frequency. But you guys a lot of you guys that are listening shows like this. And you have to start honoring that you

1:55:00

You walk in the house, and you have that bodily reaction, you walk in a room, you walk in a business meeting, you all kind of date, you walk down an alley, or a parking garage or a store, a man, honoring those frequencies of bodily reactions. That's knowledge, guys. Yeah, yeah. And it's literally knowledge of you being a part of that same frequency. And again, challenging the fact that

1:55:28

much like any, any physics, you know, like I could, I could touch this crystal right now. And quite literally, the whole reason I'm touching the crystal, by the way, Dr. I know, you could see me over the phone. But

1:55:43

I'm touching a crystal right now. Now, if I was to vibrationally be able to all of that is because my electron shell is repelling the electron shell of this crystal.

1:55:57

By all physics, biophysics, me and this crystal are both sharing an electron shell with you 1000s of miles away, right now.

1:56:07

However, if I was to hit the same resonant vibrational frequency of this crystal,

1:56:14

my hand would go through it.

1:56:18

Yeah, hand would my hand would pass right through the crystal.

1:56:22

So my

1:56:25

Mickley, technically, that is possible that you can raise your frequency to again above is actually above in the case of at some physical structure like your house and go through walls, I have only raise my frequency to where the walls disappear. I have not that I know of in this body walk through a wall. It's the same with arbitration. As you embody these upper dimensions, and bring them down into the third dimension, then you have the qualities as you're saying the resonant qualities of these dimensions, like levitation, like walking through walls, and that easily in this physical body. So and we know it's possible, we've seen it, we've heard it.

1:57:05

You know, a lot of the monks have a lot of these Tibetans again, the specimens have a lot of you know, they love her fairly easily. And we see that I mean, we will not believe it. But there's a lot of videos of it. You can go Google, you know, tonight and watch them on YouTube.

1:57:18

So it is possible.

1:57:21

Oh, absolutely. It's possible they you know, we are finding more and more and more that these things are being confirmed by quantum physics, these these ideas that meditators, yogi's even remote viewing and the strange science of remote viewing and how it's possible.

1:57:42

Quantum mechanics and quantum physics are proving on the daily. And it's really fascinating to see.

1:57:52

Kind of the kind of the reverse, where that Isaac Asimov concept of when high technology comes to a certain people, it's like magic.

1:58:05

We've kind of reverse that. Now the magic

1:58:09

is science.

1:58:12

This thing that was once like, thought about taught about for millennia, as only a certain people can do it, or are tapped into it. No, it's that only one out of five people are willing to say, yes, that's their, that's even a possibility. So out of that

1:58:36

20% You have to carve out the ones that that are capable, you know, which drastically lowers the percent from the actual 20 it should be. And I would throw in Willie, I mean, I still regularly face a lot of harassment

1:58:59

for who I am. And you have to be able to take that in order to walk in your abilities. And, you know,

1:59:09

even improve your abilities, you have to put yourself out there and be willing to take that backlash. Let's say that you're still gonna get in 3d, you're not going to get that, you know, when you're going in the eighth dimension. They're gonna be like, What do you mean, you're a dealer? Who cares? Everybody thought about me or you

1:59:27

came to the party. Welcome to the party guy.

1:59:30

Yeah, we don't care if you took

1:59:34

or if you walked Welcome to the party. And again, I think it's so funny that everybody wants to see the part four and five, you know, fix the mess, whatever. But all the beans in the forest is you know, fifth and sixth dimension. They're like, What do you mean your remote viewer? Yeah, hello, everybody here is like who cares? Like everybody's psychic. Everybody, you know, knows things and can change timelines and have astral travel and 10 out of 10

2:00:00

Like, everybody's like, what do you do before you go to sleep? And I'm like, I, I have a spiritual battle and I go, what do you what do you mean spiritual battle? And I'm like, I battle on my enemies in the astral. And they're like, Of course you do. What does that mean? But to me this is like breathing. But if I say that in public and they're gonna be like, yes, IP valuation? Yeah. Well, you know it really is much like you said, much like any point of faith

2:00:32

it has to be something that is concrete to you that is immovable.

2:00:37

Right?

2:00:39

That's so good. That's so good. I love what you just said, I love that. And we call it power

2:00:45

surge. Or you can tell the people that are willing to go there. Because your third chakra is in your gut, it's the center of your being and you're grounded. And you have to be I know, you guys probably don't think I'm grounded. But you actually have to be very, very grounded to do this work. Because you can't be easily dissuaded or you won't progress to an excellent skill and a high level if you let people influence you. You know, you have to be very, very, like you said, you know and movable until you are. Yeah, yeah, very much resolved in the fact of this is me, this is who I am, this is what I believe, you know, and just being okay with it very much accepting yourself for who you are.

2:01:31

And that's hard. That's hard for a lot of people. You know, we talk about it like it's really easy, Dr. Kimberly.

2:01:40

But even

2:01:42

even I mean, underneath the shirt I'm wearing right now is a tie dye shirt. And even for me as somebody who mixed hippie jam, and stuff like that, it took me it took me till my mid 40s to ditch everything except for tie dye.

2:02:00

Wow, I love it. And I'm either in black, because I'm blending into the background at a show or I'm entitled.

2:02:08

I love it no shame, extreme.

2:02:12

But most people, I think live in that kind of extreme. Most people I think,

2:02:21

have to put on some kind of mask when they go into work.

2:02:26

You know, like, like we were saying a while ago. And it's it's hard to accept yourself for who you are. And until you are really, really comfortable in your own skin.

2:02:41

It can be hard to travel outside your skin.

2:02:45

And don't think I always was, I mean, I was put in a family where I was deliberately handled and traumatized and made to feel small. And so there was a lot of self worth issues in me. And only I would say in the last 10 years I've really overcome. And now I try to practice radical self love and nurture and also radical self forgiveness. If you can really forgive yourself anything, then you can release fear and shame and you're pretty much golden. Yeah. Yeah. And, you know,

2:03:18

I'm actively showing up on screen right now some of the panels and classes and things like that, that you do. Let's spend the last few minutes talking about

2:03:31

what services you provide that help people in the world of remote viewing help people prepare themselves from the world of remote viewing astral travel, astral battle, on the nightly, as you're saying.

2:03:48

Yeah, you know, we've said it before. And I'll always say it that.

2:03:55

We don't. We don't necessarily destroy our demons. We just kind of learn to live in the world with them.

2:04:02

Oh, totally, totally. And I only battle those that I can't negotiate with. And people are like, What do you mean you can negotiate with your enemies? Yeah, they're individuals told we

2:04:15

told the truth. We have a couple of countries

2:04:21

that you say I've actually used to have an enemy with one of the major gods and he was after me and I almost died by getting struck by lightning and long, long story and anyway, we're

under a great truth but in favors with each other down. So again, it's a little bit shamanic people play Senator shamanism, but I just played that dirt. I mean, the gods. A lot of you guys are the gods and goddesses. So you do have these relationships, some of your friends so if you are lovers, some of your enemies some of you are married to PCs, but we don't remember, but if you can remember and you know who you are. You can have the most brilliant assets. I feel weird little

 2:05:00

Sorry, I'd like to tell before I answer your question if that's okay. So I was commuting in my woods with the trees in the forest having my LA Times this afternoon. It was a beautiful day in North Carolina and I live in the mountains in the woods, of course, it's just me.

 2:05:15

And I have this man and he has a circular driveway. So he can come out his driveway to the woods across the street from him. Or you can come out his driveway directly across to my house and stare at my house and be all nosy. You know, like, and have too much time on their hands. No offense, but they seem to. And he's just kind of that nosy neighbor. So he I try not to let him annoy me. But when you move to the mountains in the middle of the woods, you want what you are privacy. So of course he does sometimes get under my skin that's communion with the trees and the trees are white sands. And they're just telling me things I already knew. You know, you have guardians in the first class and Dodman. That's all another conversation, but you know, and I'm like, I know thank you and I haven't really peaceful moment, all of a sudden, there was this huge crash, and I was just thinking about the neighbor, this plenty and how Why can he come out the other side of his driveway, because it sets off my cameras, and bothers my dogs, but whatever. So there's this huge crash. And I'm like, Oh, there's one of my chiefs, for Fox and like communion with the trees. You know, maybe they're trying to tell me something. So my dog started barking and I walked out front, would you not know it a giant tree had fallen over that side of the driveway that I was just thinking about in my head complaining about.

 2:06:27

And you know what I said to my daughter, I texted my eldest daughter, and I said, Never make a goddess angry? who's friends with a tree?

 2:06:38

And you guys think that's coincidence. There's nothing, there's no coincidence in the matrix. Like you guys are all that powerful. But anyway, well, sorry, that was a random little story. But um, so we are much more we can influence matter. We can, you know, in that case, I believe that trees aligned with me not, you know, a god or goddess, but you know, but a lot of you are, you know, were written about, you know, they burned the Library of Alexandria for a reason that was a random, they burned your history, they burned our memories, you know, or they tried, of course, they relocated under the Vatican in a whole nother show. But

 2:07:13

I offer a monthly mentoring programs, I have ultimate awakening, which is Whoo. And then I have ultimate elite, which is woo woo and an ultimate elite. I try to keep you updated on things that I know about what's going on in the world. Not what they tell you in mainstream media, not what they tell you in conspiracy, but what is really, really happening. And I'm many ways that I get that information. But I show that in ultimate elite. And I also teach about things like harm I teach about I just talked about the different types of fire cases spirit. So while like everybody has a spirit, but wait, are there different types of spirits? Yes, there are. And I thought about that I teach about kind of I taught a whole thing about soulmates. Do you have a soulmate in 3d? Do you have multiple soulmates in 3d? Have you met more than one? So are you married? Are you with your soulmate? You have a soulmate outside of 3d. So we went through all that. So we talked about a lot of these esoteric topics and we dig really deep, and a lot of people don't a lot of people just do the standard rubber stamp. You know, this is the way it is. And it's not necessarily that way. So I try to give a different point of view based on my point of view, of course. And then we offer scans. Yeah, Fermilab scans. Have you been abducted? How you've been taken? Do you suspect you're being taken? Are you interacting with Incubus Succubus at night, I'll tell you everybody is I can just say that right now. All sorts of things we do in the middle of scan and also in our chat, we have a top gear with the lower price scan. So if you say there's something really weird going on with my neck, or I want to know what I need to do to uplevel spiritually or just scan me and tell me what my spirits saying, you know, that's what that's for. And then we have a full scan and a full scan is gonna cover metaphysical, physical, emotional, mental life things, foods, like pretty much everything.

 2:08:52

For all UTIs out there, she's also got an MK Ultra scan.

 2:08:57

Yeah, we can tell you if you're targeted, how you're being targeted.

 2:09:02

If you're Vici k, if you have eye implants, if we can tell you all those details that the you know, ti community, you know, you guys know what I mean? Talk about, are you being you know, followed? Or do you just think you're being followed? You know, all that stuff? No. What about the new camp that you have going on? Oh, yeah, thank you. I forgot about that. That's actually fits in with a remote viewing conversation. Because what I do, and we have a boot camp is going to be in June. And the reason it's so far out, is because we have an artist that's drawing your spirit family and or sand or spirit guides, and how I see who your spirit guides are as soon as you enroll in the class, I immediately they usually come to me actually or I go into your field and they're just they're standing around you. And so then artists is going to draw you're actually gonna get a picture. You know, that you can frame or do from the trash, whatever you want to do. Your spirit guides, and I'm going to tell you all about them. And there's a good chance that a lot of them will come to class.

2:10:00

And they'll have messages that want to have conversations. So if you choose to, we're going to do that live. And I'm going to teach about all the different types of guides that you have. Because it's not just your grandma, it's not just your pet. ETS, it's say it's Sasquatch, it's there's just so many you know, it is animals, but not necessarily domestic animals, it's trees, its plants. It's, I mean, the beans coming in, we already have like, I think we have 10 people registered already, there is a limit of 50. Because, obviously, there's a lot of work for me to do. And there's a lot of room for the artists to do.

2:10:33

Well, and it's just the fact of life with any class. You don't want it to be 20.

2:10:40

You want to make sure to get the individual attention that they deserve and require. And in addition to that, you also have one on one sessions. And I'm here to tell you folks, before Dr. Kim's first appearance,

2:10:58

she asked me to send her a photo and did a auric reading on me.

2:11:03

And the information that she shared with me

2:11:09

before the show was and even on the show, because I remember Billy Joe Kane, our good friend from radical empathy, education and PBJ learning was in studio, and his jaw was dropping off camera.

2:11:25

I mean, you proceeded to tell me things like my body craves lavender, CBD, the that I want to actively be around crystals all the time.

2:11:39

All kinds of things like that, that were really, really phenomenal for you to know that it had you never been inside the walls of my home, you would probably never ever know.

 2:11:52

So I am here to attest to at the least your reading ability.

 2:12:00

And they're very specific. You guys. It's not like, oh, someday this is gonna happen somewhere. It's like this. Right? It's specific. Yeah. Yeah. And I mean, now, with your aura technology, everything else? What do people have to do to get one of those readings done by you?

 2:12:19

Yeah, they just have to go to my website. It's under Services, I think, yeah, they're working on the website, but I think they're there. And one on ones only open up occasionally. We have a live event, usually once a year, but that's all that's in Sedona this year, that's going to be phenomenal. But we do have live events. And again, that's why it's nice to come into my monthly mentoring program. That's my core group. The other benefit of coming into either one of my monthly mentoring programs if you have now, I don't say this, but you have access to me. So you're not I'm not going to nickel and dime you if you ask me a question. If you say, people ask me with dogs to get or my opinion on which the higher frequency dog or, or they had a dream, and what do I think about it, like you get that light kind of daily monthly access to me, and I'm not charging you for an email reading. I'm not charging you for a one on one I'm not charging you for why? Because I believe in energy exchange. And if you're and you understand this to Chris, if you're gonna commit to support me and my family and my business and my vision and my work every month, and I'm going to commit back to you and give you more than just you know, the class, I'm also going to commit and invest in your life. Yeah, darn tooten. Exactly, exactly. Because it is I mean, hey, the the universe is a slinky.

 2:13:36

They're totally, they're real cool to look at. They don't do anything unless you actively play with them.

 2:13:44

You got to actively push for it to spring back and do its slinky thing, otherwise, it just sits there. You know, a lot of potential energy wound up in it. Yeah, I think if you don't move it yourself.

 2:13:59

So thank you for always taking the time to come on, for talking about these topics. And for

doing the work that you do out there, Dr. Kim?

 2:14:09

Oh, it's my pleasure. Thank you for giving us a platform all the people that you do. And, you know, I appreciate different points of views. You know, you don't have to agree with all that. But I mean, I think we can all agree and appreciation that exposes us to a lot of things we may not have heard of or considered and that alone opens up your fields of possibility. And that's exciting. So thank you. Oh, absolutely. And hold the line while we close things out because I mean, really,

 2:14:40

for me the fact that once again, just to loop it back to the beginning of the conversation this evening, our government spent millions of dollars on this you can you can poop the idea all you want.

 2:14:53

But it was a successful program. It was a program that anybody involved with it will say

 2:15:00

A quote, the intelligence that we gathered,

 2:15:04

valuable, invaluable when you gather invaluable intelligence like that's as good as boots on the ground some like that. That's pretty incredible to hear. Alphabet agencies say that it was that accurate.

 2:15:22

And, and once again, this is nothing that you have to be a part of any program to do. It's something that you can do with a modicum of training, things like that. Make sure folks to stop on by. See secretofeverything.com that is the website for Dr. Kimberly McGeorge. Make sure to stop by that set up your appointment with her, she can get you started on your journey of remote viewing.

 2:15:51

To say the least more than that she can help you in so many other ways.

2:15:56

While you are online, checking that out, make sure to stop by the knowledge vault. That's where you can find things like Project Stargate. That's where you can find all of the amazing declassified documents and more. Make sure to stop by check out our live stream. We are so so happy to be coming to you live from events like our first one coming up at the end of April the Bigfoot roadshow in Mineola, Texas, cannot wait to be back out there, checking that out to be back on the air with our good friends Mellors who are putting that on cannot wait to go out and be a part of the MUFON symposium. Looking forward to all of these great events and meeting all of you folks in person.
