Coming from the city of the weird

00:21

exploring topics from the esoteric and unexplored, two dimensions are known.

00:28

Shining a light of truth from the darkest corners of our reality.

00:33

Welcome to the curious realm

01:02

Well, hello, everybody. How you doing today? Look, we have a camera this week. All that good stuff about it. Let me brighten that up. There we go. How's everybody doing today, Chris Jordan here.

01:17

Coming at you live from Austin, Texas. Just had a little hiccup with the Facebook action, but we'll get that up and going here in just a minute, folks. Welcome back. I hope everybody has been doing well. We had a fantastic time. Couple weeks ago over at the Phalke monster festival. Thank you so much, Greg wolf theater, Lau Blackburn, Daniel Allen Jones King gear art at all for a fantastic event. It was really great. A fantastic day full of fun full of talking full of fellowship. Speaking of fellowship, I want to thank my friend my good friend and listener out there, David Paul. For for my con shoe.

02:03

I can now avenge the night as I am destined to do. Not many people out there have their own con shoe. Shop D but I got one David Paul made it for me for the studio here. So let's welcome Khan shoe to the studio. Big moon night fan. Always loved that series. So I have been thoroughly loving that. Speaking of things I'm loving, let's go ahead and hop on over to the Facebook and check out some of the News of the Week. News of the Week brought to you by Facebook everybody our Facebook group, curious realm come find us. 20 years 20 years hot dog.

02:48

gelei Maxwell was actively sentenced in prison for sex trafficking. Finally 60 years old she was spent the next 20 years granted that'll probably be federal time. So really closer to about five or 10. But we need to make those laws have teeth folks. Seriously out of Fox News drug traffickers arrested in California with 150,000 fentanyl pills released after just days in jail 101 year old ex guard for Nazi camp convicted by German court as accessory to flat 3500 murders that's out of USA Today.

03:28

Out of AP news again the Gallade the gelei Maxwell sentencing absolutely awesome stuff from our good friend Gretchen Cornwall. Make sure to stop by and check that out. One of the big news stories today in our in our community was the ABC seven story out of San Diego mystery lights spotted in the sky over San Diego some really wild video there. And of course I did The Daily Beast January 6 Hearing moved over fears for Meadows aids safety so that is just some of the news of the week brought to you by our good friends over at Facebook. Stop on by check us out folks while you are online. checking that out make sure to stop by the YouTube channel of our guests tonight. First guests for the show is Nathaniel Gillis demonologist we will be talking about demons seeding through alien abduction, things like that.

04:29

What what is the truth behind demons in our world as well as what the truth may be behind many cases of alien abduction and their close close tie. We'll be talking about that in the first segment. In the second segment, we will be talking about the Center for the Advancement of humanity. A new place and awesome effort started by our good friend Josh we Shapiro of Crystal Skull explorers trying to enhance the vibe

05:00

abrasion of humanity as we shift into the next paradigm as as we get ready to shift consciousness. And with that in mind and shifting consciousness in mind, let's go ahead and bring on our good friend Nathaniel gelous. How are you doing, man? Doing very good, Christopher, it's good to be back with you. And I'm really excited to get into this research. Well,

before we do, let's let's take a moment and shamelessly promote because speaking of a new paradigm, you've you've actively got a new show coming out soon. So tell us all about that and how that came to be? Yeah, for sure. Well, you know, one of my very first shows I've ever done in my career was with Rex bear from the leek project. So my first show I ever done was coast to coast. And then immediately after that, I think it was LEED project. But I you know, so every time I would get on Rex bears channel, we would always have a blast. And the audience loved the content. And, you know, we just enjoyed it so much that I guess Rex bear reached out to me, and he said, you know, he goes, I'd like for you to have your own show on my channel. And so you know, it's been a long time coming, I've done almost, I think it's over 100 shows, just all around different people, different hosts, but you know, so So here's the deal, it's going to be called the ghost notes. And it's going to be on the leek project channel every Thursday night at 9pm. Eastern Standard. And so that's, it's not just going to be some me, it's like, sometimes it's going to be me lecturing, which is what I've been doing for the last three weeks on there. But you know, I guess, a cure coming soon, I'm also going to be able to actually interview other people. So it's not just going to be me all the time. I don't want you guys to get sick of me, right? So I'll be able to have other other guests on the show that you've kind of evened it out for us. But yeah, man, I'm really excited about it. And I look forward to, you know, diving deeper into this research and you know, who knows what's going to happen, but I'm thankful for it.

 07:07

Well, I am thankful for the fact that you are getting yourself your research everything else out there a whole lot more my friend, because you have an incredible talent, like so incredible that people like Billy Carson from forbidden knowledge, and ancient alien theme are having you on to present your work because it is it is a really fascinating realm to consider.

 07:36

When it comes to the possibilities of alien abduction, because it's one of those, there are so many cases of alien abduction that are individual even though they have similarities that you it's hard to just dismiss them

 07:52

right as mass hallucination, or anything like that. So let's start getting into the root core of this topic and start cracking the nut of the tie between alien abduction and demons in demonology. Correct. I think there is an intimate connection. And I, you know, whenever I talk about this subject, there's always people out there that, you know, whatever happens, no matter the amount of the research, no matter the the intimate connections and parallels between the two subjects. They just don't want them to be demons period. You know, and I think that it's a little bit more complicated than just asking the question, okay, are they demons? Or Are they aliens? And so what I've been able to do in my research is kind of dig deep and wide, and really draw out these major parallels and behavioral patterns that unite both you ufology and demonology as one. So that's, it's not either or it's not a dichotomy. If we realize that these beings are the same beings that we used to call demons, at least, that I think what that does is it opens up the door for deeper research, and also case studies, you know, throughout demonology, that

otherwise we would have ignored because it didn't fit into the UFO logical blueprint. And so yeah, they're there. And I think that as researchers, it's almost an intellectual dishonesty, to tell people that, you know, well, you know, we should look into demonology, because we know for sure, it's not demons we, we don't know, right, everything is still on the table. But what I've been able to do is kind of flush out a theory here that says that these beings have been here for 1000s of years, and that they have been doing the same things to us as a species. The only difference is that they've been putting on different masks. And so you know, we'll have one researcher that says they're all aliens will have once Richard says they're all demons. I think that we need to sit down and have a really good deep intellectual discussion about it. Because again, I think it's deeper than what we would like it to be

 10:00

but it's not it's also more complicated. Yeah, no, it's very invest ly complicated Daniel and and even the first time around,

 10:11

that I became aware of your work when I started when I started reading your fictional work the skin the crawls?

 10:20

Which is

 10:23

a story based on this kind of stuff. And really, really interesting. It was one of those Wow, I've never really heard anybody consider this option. You No, never, never really heard anybody take it on or even consider it. Really. Now. Now, granted, there have been numerous shows, there have been numerous things that

 10:52

talk about the tie between angels and demons and the the history of them amongst mankind the world over and their possible tie to UFOs and extraterrestrials.

 11:07

That's correct. That's correct. And, you know, it's highly probable, at least that our ancestors interpreted these beings as demons. And so when I've come along and said, Hey, listen, you know, I think that we limit ourselves to terms. And when we limit ourselves to terms with that, literally, it's not just limiting ourselves to terms, it's limiting ourselves to a very specific niche of research. Yep. And so by expanding my research in the various literature's, you know,

whichever literature terminology, you apology, yeah, the behavioral patterns are there, you know, we can ignore it, we can throw it underneath the rug, and just, you know, go on with our lives, but we are absolutely being invaded by the impossible here. And we need to step up to the plate and at least acknowledge the fact that there's a lot more going on, than just lovers and light, I say, yeah, yeah. You know, when you say that, there is a lot more going on there. There is in I have said, more than once on this show with more than one guest, I believe in the presence of true evil, whether you believe in God, Satan,

12:19

what have you, there is a driving force of humanity out there, that and we've had the discussion between you and I on this show about is that perchance and egregore, you know, something, something that has been created through the hate of mankind that just keeps going on that is now the essence and presence of evil?

12:43

You know, right. Right, or is it something that was pre existent to us, as as is told by numerous civilizations,

12:53

and much like we talked about with Jason McLean, a few weeks ago with biblical cryptozoology, things like the Nephilim, the the Sarafem, the cheraman, which when you look at their descriptions in the Bible, and zohore, and everything else, they are, they are wild descriptions,

13:16

right? Oh, these beings and then even to Matt Leviathan, stuff like that these were not considered

13:26

mythological.

13:29

Right, they were considered real. And they're so like you're saying is, is that the fact that

13:38

these were demons in the guise of something? Or did they manifest themselves in, in a way that we were familiar with?

13:48

And when it comes to the modern manifestation of the alien phenomenon, and the phenomenon of alien abduction, is it the case that that has been happening?

14:02

I think it is. And this gets back to who, what, where, when these beings are, and we are very much groping in the darkness, you know, I mean, we're we're limited to information that they could have very possibly weaponized against us. You know, as I was talking to a psychologist the other day and his position is very interesting. He believes that the majority of abduction accounts are abductions that occur from people being out of their body where these beings will peel the soul from the body. And these individuals will think their entire abduction account is going on, in like a physical realm. It's not until they become physical again that they realize oh my god, that entire event was out of body experience, which is incredible in what's what's really, really interesting case study wise, because we regularly have self talk on she was just on last week.

15:00

Promoting the upcoming MUFON symposium in Denver, but also talking about recent case studies and recent cases, she is one of the experimenter Response Team. And not only her, the Kathleen Martin Oh yes, remove, have have both come on this show and literally said that the greater majority

15:23

of experimenter situations right now are spiritual experiences, they are experienced, people have an out of body experience and move on to a different vibrational plane, where they can then interact with these beings or interact with the craft, things like that. And after that, they have a lingering effect of this vibration, not only repeat visitation, and repeat experience because of maintaining that vibration, but but some of them even Healing Touch, and stuff like that. So, you know, I guess one question I would have, because of course, I'm not saying that, and nor are you that all alien abduction is this case, what you're saying is that, because of the many generation experience of alien, and an encounter, that experience and trope of humanity is being hijacked by these beings, and urine, because it's something that many people, especially now are inviting.

16:38

Yes, yes, absolutely. Your wife and actively going out and doing things like CE five, stuff like that, which sure much like, you know, I think and we can talk about this, but I think much like proper, you know, out of body experience anything like that once once you've taken the steps and gotten to that point,

17:01

you've got a pretty good idea of what is and what isn't, you know,

17:07

and I think that it's kind of the same way with the CE five experience, you know, where because of the mass of people, you're much more likely to be in a safe experience than doing it by yourself. That's just me.

17:22

I agree to a certain extent, absolutely. I just think that there is a danger in unlocking our own selves to the mercies of whatever these beings are. Yes. You know, I had a remote viewer that I was actually working with a son and I tell the story often because every time it just blows my mind, like every time it's like, oh my god, it's like I just heard it. But yeah, he was meeting this, this man was going into trances and meeting, what he considered to be as guides. And one night, he was out of his body, and he was communicating with these beings. And by all accounts, I mean, this sounds just like a UFO abduction. He said that he was in a metallic room, and that these beings flanked him on the right and on the left. And but he also said that it's very interesting. You said that these beings did not seem to be his guides. He said, if that was the case, or that these beings were his guides, and they were just kind of leading him along to sit in the dissection the whole time. But he said whatever they were, he said they changed their appearance to something inhuman. And then they said next thing he knew that he slammed back into his body and from the subdermal area of the skin underneath the surface of the skin. These these beings carved religious amulets into his chest. Oh, now guys, this is getting deep and it's getting dark. But let's go ahead and pull the trigger. I have evidence from Abramelin the mage that he was he was he was talking about these these high end magicians, magician applied magic, who would carve it religious amulets and Egyptian hieroglyphics.

19:07

And he said that, number one, he said, not only where was this Angel Magic,

19:15

he said, but whoever is operating in that dimension, they will use Egyptian hieroglyphics as a ritual interesting. And so what I'm looking at now is that the potential of these beings performing rites and rituals. And I think that if that's true, then I think it also gives us a better foundation for understanding why it was that Jack Parsons and Aleister Crowley both conjured these beings Yeah, but they did it by virtue of Guess what? High magic and rituals? Yes, I was just I was you. I was just going through and bringing up my Kabbalah on

20:00

veiled and mystic Grimoire are mighty spells and rituals. Oh yeah. And I've got a few more books like that here in my here in my esoteric library of things. But one of the things that I immediately thought of when you started talking about these people converted because don't get me wrong when I did my dream work.

20:24

I had

20:27

a wizard that I would go and meet. And this was a spiritual guide that I manifested.

20:35

I gave the bounds to and somebody that I looked for that was basically a version of me out there. I was not conjuring and trying to contact specific beings

20:49

or anything like that, as opposed to Aleister Crowley.

20:54

And let's start getting into that real quick because you said that some of your more recent work. This is in our pre cover pre show conversation, folks, you said that some of your more recent work focuses around Aleister Crowley. And he's always been a fantastic fascinating individual to me the we literally owe the entire New Age Movement. Just about to Aleister Crowley.

21:21

Oddly enough, him and and the founder of Scientology, like like the two of them to gather? Sure, Dan, the New Age Movement,

21:34

really wild. Both of them have a really shady background, both of them have backgrounds in intelligence, things like that. But the first thing I thought of was lamb. And I'm bringing up a picture right now, which was basically the, the critter that Aleister Crowley had more sessions with than anything in his practice of high magic.

 22:05

And it was really his spiritual counselor,

 22:10

and a being that he trusted implicitly. So let's let's talk about some of these beings like lamb.

 22:22

What are they? Where do they come from? Are they beings of old like gin? Like Solomon was given control over? Or

 22:34

are they much like I was positing before Egregores where where it is

 22:43

kind of a creation of a mass mind.

 22:47

Right? Well, I think that this goes back to a man by the name of Paracelsus. And philosopher, and he had created a being called a humanoid Oculus. Yep. And if you modulus by all measures was a bit it's a small statured man, or it also has an indication of the embryonic creature.

 23:12

It's the same thing that goes with the Hebrew word Golem, and Jewish mythology, these same same beings here. And the goal of you know, of course, the Golem is as a Hebrew word that is, it's, it's meant to typify a being that is in an embryonic state, or it is still fulfilling its potential. And so all of these references were made by the Jewish religion and other other experiences and other mythologies. But these are all references of the same phenomenon. And that phenomenon was called the missing fetus syndrome, where these beings will literally inseminate a female. And that four months when that baby's still just studying in the womb, they'll take that baby that fetus as a golem as a humanoid Oculus, right? And then they will place their consciousness into it.

 24:09

This is what's been going on. This is Genesis six, this is what was going on with the referee, and

This is what's been going on. This is Genesis six, this is what was going on with the referee, and then definitely, and so what this is all centered around a self replicating process where these beings will use and I'm telling you I wanted to personally is I believe that they are. They're not just using science against us. But I believe that there's enough evidence now in my research to say that they're also using high magic against us. And so when we get into these ancient texts, like Well, one of the texts that came across was called the red right?

 24:45

And the red right describes a high Magi magician, who would actually when the his body was dying, he would dispossessed his body and he would go form a relationship with a woman this is gonna sound like UFO abduction.

 25:01

And then he will inseminate her. And then when that baby is to a certain development in her womb, it will take the baby Hello missing fetus syndrome. And then it will then place his consciousness into that fetus.

 25:19

That is the humanoid Oculus. That is the egregore. That is that's everything that we're talking about. But I think that's the firm foundation from which everything else that we're going to talk tonight is built on. You know what I mean? It's not just science, like, especially like Crowley and Jeff Parsons. It wasn't just, it wasn't just rituals, either, right? No, Jack Parsons was performing rituals in order to enhance his scientific method. Yep. So they're both hand in glove. And I think that we need to really understand that get that into our psyche, when we're discussing these beatings. Well, well, I think that a lot of people confuse high magic with witchcraft.

 26:06

Number one way of witch witchcraft, I would I would go as far as to say is much more of a lifestyle.

 26:17

High magic is much more esoteric. You aren't going to find it amongst common people, you aren't going to like maybe one out of every 50 practitioner of Wicca might be a practitioner of high magic or might be studying something like the Kabbalah the Golden Dawn, Brian's like that? Which, once again, tracing right back to Crowley. Absolutely.

 26:44

You don't I mean, it's good research, because it's solid. It's been there stick research. And I tell people all the time, you know, even going through in reading the Satanic Bible, which is

people all the time, you know, even going through in reading the Satanic Bible, which is somewhere over here.

 27:00

It's the fact of it is understanding a mentality and understanding the depths to which somebody believes in the only the only difference with the Church of Satan and things like that is that you believe in yourself that money, you know, and the self is the most important thing because the self is the most enlightened thing.

 27:28

So yeah, it's it's interesting that

 27:33

you have these two camps of thought, the Christian concept of not having self and then that,

 27:42

right? Yeah. When when at the same time,

 27:47

that would be much more akin to not being possessed or being able to be possessed because you are so much more aware of self

 28:00

correct Correct. That's why your your even ologists and antiquity believe that possession was the byproduct of emptying oneself.

 28:11

Phenomenal thought, let let's get into that real quick. Because, uh, you know,

 28:17

I think not enough people understand the the warnings, especially the biblical warnings, and when I say biblical warnings, like Old Testament warnings, where you're talking about people who understood concept of high magic, when you're talking about people who understood

solemnise magic, and the magic of Solomon in the keys of Solomon, and the ability to control gins and spirits, and elementals and all these different things.

 28:50

That like you're saying, lead to this.

 28:54

Oh, yeah. Oh, yeah. And these are very powerful people. Yeah. I mean, extremely powerful beings. Oh, yeah. There's two things that it specifically warns about number one, sorcery. Sorcery, which is a you know,

 29:10

some hardcores will even even interpret things like having a drink, or, or you know, imbibing marijuana, things like that as a form of sorcery. Because you are intending to put yourself on a different level.

 29:28

Right, you're trying to look into the darkness and yeah, hope the darkness doesn't look into you. Sure. It's dangerous, you know, and, I mean, this is a big, extensive subject to get into, but people need to realize that if these beings are performing high magic, if these beings are initiating experiences into a mystery school like Jim semi van, thanks, then the conversation that we need to have is changing drastically, right? I mean, it's no longer just okay, they're extra

 30:00

Terrestrials what? You know, now we have to ask the profound question of what are they then? Yeah, right. Why are they using seemingly rituals and abduction accounts against us? And what are their capabilities? I mean, it's, it's not an accident that these, you know, people are using ritual magic to communicate to them. It's not an accident. It's so it's almost like it's a highway, like a frequency of some sort. But, you know, going back into these these accounts, you know, I can't help but think about even the couple here, John D. And Edward Kelly, who when they were conjuring these beings, they had a ball of light that appeared and their ritual. And inside the ball of light were these again, as what Aleister Crowley called the Nokian beings that were looking at them

 30:51

floating in the room just looking at them through the ball of light. I mean, it goes on and on. I mean, we can even go to the Skoll experiment when they're in the middle of their seance a

small metallic UFO appears in the room and the small humanoid collide or humanoid soulless beings right these these these these these fetuses that they're using this That's what I believe they're coming from and they are but they were they were in the small UFO crisper floating in the room in there these beings are staring at the the people that were performing the ritual Wow. You know so so this is all intimately connected well and you know, I have for the longest time

 31:34

warned people especially those wanting to get into paranormal research those wanting to get into ghost research that kind of stuff feel free to go out and put out a recorder all day long. record sounds that kind of stuff. You know, you know what you don't do you don't go out and ask questions to Bigfoot

 31:55

you shouldn't be as as the Old Testament says, and once again people very familiar with high magic

 32:03

whole whole priesthood of Levi dedicated to it

 32:12

the whole order of Melchizedek was was mystic magic.

 32:18

And yeah, when when they are warning specifically about do not converse with the dead,

 32:26

right? Do not practice sorcery.

 32:30

Do not practice sorcery and converse with the dead. Like, like,

 32:36

like, speaking themselves, like just just in case we were clear, don't do both of them at the same time to you know, exactly right. And it's interesting, because now you have shows out

there literally encouraging people

32:54

who have no idea

32:57

how to discern one from the other. No idea how to deal with something, if they are pushed.

33:08

If they are confronted, you know, are they spiritually able to deal with it? And I don't I don't care, religion or not man. JC assemble? I don't care. Are you spiritually able to recognize that deal with it and leave?

33:28

Correct.

33:29

And we literally have shows out there encouraging people to like go cliff jumping.

33:38

It's hard to know how to swim or know any rescue swimming. Just go cliff jumping.

33:46

And it's kind of disturbing to me, you know? Because yeah, especially if you're like,

33:55

since you were on last one of the many things that we've talked about with a lot of people experiences and everything. Nathaniel is the downside of these experiences. Like you were saying earlier, you you would think that in this day and age that you would have more people who are open minded to like, hey, yeah, so like some books fell off my shelf the other night? You know, that kind of stuff? No, not necessarily. Most people are more than willing to call you crazy. That's 80% of the public, willing to call you crazy to your face.

 34:33
So

 34:35
how can people start to recognize these beings? How can they start that road of discernment? As as we kind of move into the second half of the hour here? Let's start turning it toward what we can do to wake ourselves up and you know, wake ourselves up because when you're woke up the people around you tend to

 35:00
Wake up, folks. And you don't have to go around proselytizing. You don't have to go around preaching it from the mountain like Nathaniel, all you got to do is walk the walk and live it.

 35:10
And what can people do to

 35:15
start discerning the difference between these things start discerning the difference between entities even in their dreams, things like that, but may be creeping in because there's a familiar trope going on. And there's a there's a window of entrance, where all they need is the invite, like, like the vampire from Lost Boys, like, just just open the window, Johnny

 35:42
just opened the window.

 35:45
Okay.

 35:46
Like, how do people start to discern that?

 35:51
Well, the first thing I would suggest is don't invite them in

well, the first thing I would suggest is don't invite them in.

 35:55

Told invite them in at all. And I think that just goes to show you the danger that we face, and the kind of disadvantage that we're in right now. I even know people that were adamant about ghost hunting, you know, avid ghost hunters, we did it every day they go to, you know, cemeteries, houses, all that stuff. They thought it was really cool. And so they have a really negative experience. And now they're, they're proponents of not even investigating, you know what I mean? Because, you know, we really do not know what we're dealing with. Were they a casual observer, or were they an invader, though?

 36:32

They were somewhat of an inviter. You know, they would go out and looks at like A Conjuring of sorts, but no, but it was asking question, is there anybody here? Right, right. And it's your, you're like shooting flares in the sky? You know, it's kind of one of those things like, my kid goes to this elementary.

 36:53

You know, like, how much information are you given the creepo following you behind? You follow him behind you in the car in the morning. Right. And it's not like we can control the phenomenon that's not like we can, you know, control these beings, they, they do whatever they want to do to whoever they want to do it to. You know, and I think that it's dangerous to a degree. I mean, look, look at even Aleister Crowley Crowley currently warn Jack Parsons and said, dude, even though you're a high magician, even as intelligent as you are, these beings do not know you like they know me. Yeah. And I think that a lot of times, especially people that have like dark attachments, you know, I think that a lot of these people have went out to houses that they should have never been in. Right. And they're trying to, you know, for the purposes of research, trying to contact this phenomenon. And, you know, like I said, it's not all love and light, I mean, these beings can literally steal your soul.

 37:56

It's haunting. And let's start getting into that real quick. Because when you're talking about stealing a soul when you're talking about being able to take energy from people number one is, is that something that like we're saying requires permission?

 38:15

Is it something that requires belief?

 38:20

I think belief to a degree.

38:25

Then my book of skin that cross I talk about the temptation of belief, that's a lot like what these eBUY case studies where, you know, the woman is asleep at night, or she's just, you know, she's like, taking a nap and milk the day that these beings will appear to a woman in the image of someone they've been with.

38:42

And so there's a temptation of belief where, you know, subconsciously that beings asking you to believe it is who what's appearing to be. Yeah, yeah. Right. And so there is some form of belief that forms like a covenant with them. But in terms of them being able to peel the soul out of the body.

39:02

I mean, my God, there's a case study, they have a girl named Judy Doherty. She was a young lady she was driving and the other day on a long dirt road, she witnesses a UFO gets out of her car, looks at the UFO blinks a couple of times, and instantaneously now she's in it. She's in the UFO, looking at her body, as if it was in suspended animation. And so doing I'm talking Chris, just blink of an eye. They pulled her out of herself. And so I tell people this all the time, I think that that we need to start looking at this as a potential threat.

39:41

Because, you know, I mean, if these beings had the ability to pull the soul out of the body, but keep the body itself alive,

39:50

then it's more than just nuts and bolts, and it's darker than just okay, you know, anything that we can imagine and ETB in

40:00

So so even if it's just technology, we don't really know what it is, but my God, look how powerful of a creature that is. If they can just pull you out of yourself without your permission. That is, it's a terrifying hypothesis. Well, in once again, it really speaks to that vibrational aspect then that

40:26

both self talk spoke to, as well as Kathleen Barton, where it's the case of, because in

40:36

because of the vibration that these people were at, they were able to feel the craft pass through the craft into into the cockpit, things like that.

40:51

So yeah, I mean, and not to be too much of a nerd, but just the same way that the flash passes through objects. You know, it literally is all vibration, everything. And, and even to look at

41:12

a desk, the desk I'm at right now this microphone.

41:16

It's just repulsion. This is 90%, empty space. The rest of it is the repulsion and vibration of atoms against each other. That I'm feeling. That's that's the feeling that I have here. So yeah, that can be analog that can be faked. That can be your utterly deceived the brain like we have technologies that will do that. Oh, god. Yeah, absolutely. And I think that just, I think it should inspire us to want to understand the phenomenon more. You know, I like when Betty and Bob Lucca were sleeping one evening. And Bob, Luca heard something and he looked up, you know, he kind of leaned up in the bed, looked at his wife as they pulled her soul out. Wow. And he watched her apparition and it's really deep. I mean, watch this or apparition flies out the window with these beings. And it wasn't just his experience. Betty Luca came forward and said, Hey, I remembered being out of my body, but present with them. And so I think that it speaks as a researcher, I think that speaks to them being of a spiritual nature, in the sense that it understands the soul. Right, it can manipulate the soul.

42:37

And this is a potential threat that I think that would eclipse anything that we've ever imagined. I mean, it's it's far darker than even Stephen King's imagination. Yeah, and it's, it's occurring. It's this stuff is real. And I think it does represent a danger to us.

42:56

I would definitely say that it represents a danger now. Now, granted.

43:03

We just had a fantastic

43:06

UAP hearing about the dangers and and how we'll be getting more money for investigation, things like that. What what do you make of the current movement of UFO UAP disclosure?

43:24

The government's line that they are telling and what it means for your research, and how did the two tie together? Well, I think that,

43:35

that what they're doing is they're telling us the truth in the sense that they're saying, Okay, we do have UFOs on camera. Right. We have recorded them on our radar and on sonar. But I do I also think that they're employing what Budd Hopkins used to employ a lot of times like Budd Hopkins would go tell people at conferences, that he has UFOs that had symbols on the craft. Yep. And then he would give them pictures and drawings of fake symbols.

44:07

This is brilliant. And so there was some misdirection there. But what he was really trying to do was filter out the frauds.

44:17

And so when he wouldn't be who's telling the truth when he said, okay, yeah, I do have symbols that we found on craps. But when he when he was lying, he was lying in the fact that these are what the symbols were. And so when they asked him why he did that, he says, Because I what I want to know the people who were just gonna say, oh, yeah, I saw That's right. me so I can easily see through the story because, hey, I just made these symbols up. It's impossible right for them to be the same symbols. However, he said there were more than one event, one to one case where people would show up to his house and say, Hey, listen, I don't know if you have anything like these symbols, but this is what I saw the other night. And sure enough, those are the same symbols that he had in his secret archive

45:00

So what it strikes me as is I really think that that's what our government is doing. But I think it also asks a deeper question. If the these things that these UFOs that they're showing us if they're not truly unidentified to our government,

45:18

then what do they really have in their files? Right? What are they calling on identified? That's what's really interesting to me, because a lot of this stuff is misidentified to us. You know, we always wonder, okay, oh, my God, that looks just like a UFO. Well, so so like, giggy. You know, we say all the time on this show, number one, we are here to demystify and untangle, not to further entangled, like, sure, we may throw a hypothesis or two around, because that's what you're supposed to do. This is an open think tank of ideas as to what's going on, however.

45:56

Yeah, it's it's strange to see what has come out. It's strange to see the dialogue happening. I guess it's not that strange to see the dialogue happening of threat threat threat, we need more money so that we can take care of the threat.

46:14

We need to rise to take care of people who, who are saying these things. And what do you what do you think about the fact of, you know, laws even regulating folks putting out their testimony about their experiences?

46:31

Well, I think it does, kind of, I don't know, I mean, I, I'll just be really blunt here, man, because it does concern me deeply. I think there is a movement in the field, that they literally they go out and they doctor the data, they do it by either changing the testimony or by silencing negative experiences, or just by completely omitting negative accounts from their data. If it you know, to a degree, they're like, Okay, if I don't acknowledge it, it must not be happening. Yes. Yeah, it is occurred, it is occurring, you know, and what's interesting about that is, you know, whenever I do these lectures in these these shows, man, like I said, before, we actually went on air, you know, I get tons of messages from people who say, you know, like one, one of they specifically said that she was going to be included in a study, included in a documentary, until she got to a certain part of her experience. And they told her that it was too negative. And so they they declined their offer and said, you know, we, before we were going to have you on, but now we're not. And so I think that that's true, because if they're doctoring the data to that degree,

47:41

then then I think that a lot of researchers have been basing their findings on Doctor data. And, yeah, it's like, you know, you're building your house of research on sand, it's gonna fall apart if the data isn't honest. Yeah. Yeah, absolutely. It and you know, to

48:03

that is one of the things that we bring up all the time, whether it's cryptozoology, whether it's search into UFOs, UAPs, whether it's, you know, even even the work that Caroline quarry is doing into ESP extrasensory abilities, that kind of stuff. You've got to come at it from an open mind, because if you're coming at it from a closed mind, period, period,

 48:30

a, you have shut down science to begin with, right? You do not have a scientific mind. Because the scientific mind is the curious mind and wants to know, and much like many researchers point out whether whether it be crop circles, yeah. 80 to 85% of them are fake. What about the 15 to 20? That ain't right, right. It has to be one gate. Yeah. Yes, one and then even a factor sin even a 5% range of what the what you need to guarantee get like, I guarantee you, if it was a wastage of 5% of profit margin for Procter and Gamble, they'd spend 1% To find out how to stop the 5% leakage. Correct. You know what I mean? Yeah. So so why is it that we with science and everything else are unwilling to look at that 5% unwilling to look at like, yeah, there's like a good 5% of pregnancy cases out there that are just strange.

 49:43

Absolutely. Yeah. They're unaccounted for, and they don't you know, how did this happen? Yeah, I mean, specifically speaking, yeah.

 49:52

We'd only takes one to kind of redefine the paradigm and so many reasons.

 50:00

archers, you know, they ignore it. They don't want to it doesn't fit their narrative. And I think it kind of just, it gets me on a rant, you know, I got my little soapbox

 50:12

it bugs me, man. Because, you know, I tried to be as close to the grassroots movement as I can, you know, working with experience areas and collecting data, and then looking throughout history for different behavioral patterns. You know, and again, I think that if we're all going to say that they're just love and light. Okay, here's what somebody said the other day that really ticked me off, please.

 50:36

So so so the majority of my research is centered around the EQ bytes occupy phenomenon and the role it plays in UFO abduction, and you know, anybody that anybody that has even casually followed my my shows and my research, they know that. So I talked to, you know, women and

couples and families. And, you know, I've talked to the husband and have watched the, the wife in the kitchen on the tables freak out, because every night there's a being that's literally laying in between her and her husband. So I been there, right? I've been in the presence of these beings where it feels just like unparalleled, unspeakable horror. So I know this is real. I mean, I'd been in one house and talk to a lady where the entity was

51:17

it was laying in between her and her husband at nighttime it was playing with her hair.

51:23

I have to I have to ask. Yeah. Did you have to lay in bed with them?

51:29

No, no. Okay. No, no, I didn't do that. But we did some tests. And sure, yeah, for sure, man. I mean, the husband didn't believe it was happening at all until one night in the middle of the night. Something hit him in the face. Wow. And then he was rushed to the hospital the next day with Bell's Palsy. The doctor diagnosed him with trauma to the head. Wow. Right. So I've been in the presence of these beings to where it's literally damage to the nerve endings. That's crazy. Right? Right. And then we have we have researchers that dare to suggest that these women that are suffering so mightily from these beings, that they're just looking at it wrong.

52:15

Yeah.

52:17

You know, like, like when they abduct a woman and they force her into intercourse and stuff. Well, you're just looking at it wrong.

52:24

What, there's no other way to look at assault, right? There's no way to kind of romanticize trauma. No, really. It's disgusting. It's disgusting. And again, that's, that's the, that's the length that people are willing to go to, to literally just twist the data, blame the experimenter. And it's sick in the head. Now, Nathaniel, number one, I know that you're getting ready to do your own show all that

52:57

I would love a what grinds my gears segment.

53:03

From you, like once a month, you know, where it's just like, This is what's been going on in the paranormal community, folks, and this is a conversation you know, what gets

53:14

all of a month or so ago? Right after you were on last time you did a live stream on Facebook, where you just sat there like cue card status, like just go with questions that you had on cue cards and man, I love that. I said I was cracking up for the longest time.

53:37

Yeah, you know, we chat privately and I follow you and stuff like that. It was one of those like, yeah, um, but they're interesting communities that we run in.

53:52

And, and they're, they're Stone Cold believers, and they're casual believers, and they're non believers all in the same mux you know, so before we let you go, what what is

54:10

what is probably your biggest, biggest pet peeve when it comes to the paranormal community when it comes to

54:20

people not understanding the possible bridge between demonology and UFO UAP experiences as specifically abduction experiences, not just like, you know, Hey, I saw something flying behind the mountain the other day, you know, but but much more the Yeah, especially like we're seeing so many experiences now being out of body. Right being of a spiritual nature, not like, hey, yeah, this thing landed in the field and this thing snatched me up, and I woke up on my patio. Yeah.

55:00

No, like, that's not the that's not the abduction experience anymore, ladies and gentlemen, I'm sorry, but we have heard it from to MUFON field experience, you experience researchers that talk directly with experiencers. That that is not the great majority of cases anymore. Right? You know, you know, what grinds my gears? Is? Is the lazy research a lot of evangelical people do.

 55:28

Okay, forgive me, I know that's gonna be causing controversy. But what happens is, you know, you know, they, they seemingly, they go out there and you know, they write 1000s of books, do all of these shows and stuff. And then so, you know, they're saying that, okay, these are fallen angels, they're demons. And then what happens is in the field of view, apology, you apologists, they use the definition given to them by these other researchers. And so they say, well, listen, if that's what a demon is, these beings aren't demons. And, and so what I think is has to be done is it's not just, it's not good enough to just be a theologian, you have to be a historian, you have to go into the linguistic lineage of these words. And, you know, there's shoddy research inspires responses from other you apologists who are saying, listen, that doesn't add up at all. And I think that if anything, what I've been able to do is kind of carve out a niche in the rock, where I can say, Okay, if we're going to say the fallen angels, we have to define what they are in a not in the lens of Western scholarship, what were they in the Ugaritic? texts? What were they in ritual bowls, right? Right. And then once we flesh out that theory, then we can start thinking, Oh, my God, these do fall in line with what people consider to be angels or fallen angels in Mesopotamia? Yeah. Yeah. You know, Jim, in in rather, Middle Eastern traditions, or the the,

 56:58

the ain't good. The essences given dominion over by by Solomon. right to sell them and rather, if we don't have that foundation, yeah, everything else is good on lean one way. Yes. And I think that's my biggest pet peeve. And I say that because because I have an evangelical background like my dad's a Bible scholar. And so I'm sorry, but no Catholic seminarian right here. Yeah, right.

 57:25

But I'll be darned if I haven't gone through and read Kabbalah if I don't have you know, the,

 57:35

like, God, it just left my head. The

 57:40

so hard. Yeah, well, not just that, but you know, the seals of Solomon, all that over my shoulder. And that research to lean on and that that realm of, yeah, like, even even in, within the, the rite of anointing of new priests, they talk about the order of Melchizedek of old. Right, right. You know, and you're exactly right, because it's not just to have knowing theology, it's also being a story and going back into antiquity, and a lot of these researchers, especially in the evangelical world, are scared to touch this. Right? They're like, Oh, my God, you know, you're gonna, you're gonna get caught up, you're gonna go to hell or something.

58:26

And I'm over here thinking, you know, well, if we're gonna get a good grasp of this phenomenon, we've got to look in every direction we possibly can. We can't limit ourselves, right? Because the phenomenon is evolving, according to our awareness of it. Yeah. So we have to kind of follow suit and evolve with it. Yeah, we really, really do. And, you know,

58:47

with that in mind, that is, that is a perfect actual segue to our second guest, Joshua Shapiro, from Crystal Skull explorers talking about the new Center for the Advancement of humanity. And, and the whole concept of raising our vibration as a humanity as a species, as a as a group of people,

59:14

individually, so that we're ready to harmoniously come together and become part of that littoral galactic community.

59:25

That Yeah, is there like you're saying is, is quite obviously there. Otherwise, it would not be a trope being used by these demonic critters.

59:37

So All right, great. I agree. Nathaniel, I want to thank you so much as always for coming on. Especially on such short notice. I know I reached out to you like Sunday night. Like hey, by the way, I had a guest drop out I'd love to have you on again and again and again and again. Because it's it's I think

1:00:00

such an important conversation. As we break open the world of disclosure, as we break open these new realms, we need to remember the vibration. Man, we need to remember the fact that

1:00:18

out of that vibratory spectrum,

1:00:23

we see and hear a slice, like five to 8%. That's it. So we're willing to accept that five to 8% of the electromagnetic spectrum that

1:00:38

we can only see in here,

1:00:41

then why are we so unwilling to accept the five to 8%

1:00:47

of things out there that are unexplained?

1:00:52

You know, that's just where I'm at. So, before we let you go, go to commercial break and come back with Joshua Shapiro, and the Center for the Advancement of humanity. It is time for shameless shameless self promotion, as always, Nathaniel, so let everybody know where they can go to keep up with you. You are on YouTube, where they can go to find the new show. All that kind of good stuff. When is the new show coming out? We've already done I think it's like three episodes of it.

1:01:24

But it's good to call the ghost notes. It's going to be on the leek project, YouTube channel and all the other platforms every Thursday night at 9pm. Eastern Standard Time. And for those who want to follow me on social media, I also have my own YouTube channel, Nathaniel Gillis, and then I'm all electric. I'm on Instagram and Facebook, under the Daniel Gillis, too. So, man, it's been a blast. As always, Chris, thank you for having me on. Absolutely. Man. I love having you on I love talking about this topic. It is one of those like, I have said for years we we are all walking around with a black mirror. Every one of us we sleep with one next to our bed at night. The question is, do you sleep with it black screen down or black screen up.

1:02:14

And we can get into that a whole nother time because that is that is a conversation in and of itself in the world of manifestations. So thank you once again, my friend for coming on. Take care and we'll talk to you very soon. All right, brother. Good. All right. Take care.

1:02:33

Man while you are online, checking out everything from Nathaniel Gillis folks, make sure to stop on by curious realm curious realm.com is where you can go for all of the episodes. That's where you can go for all of our live feeds coming up from the MUFON symposium. Stay tuned through these commercial messages folks. And we will be back with Joshua Shapiro talking about the Center for the Advancement of humanity right after this.

Shapiro for the Center for the Advancement of humanity. There it is right there on rumble. They are also out there on tap Pathak

1:10:13

Welcome back to the show, Josh Shapiro, tell us a little bit about the Center for the Advancement of humanity, what it is, and what you guys are all about what is the mission?

1:10:27

Well, first of all, I want to thank you, Chris, for having me come back, if your listeners have heard our interviews before, you know, we've talked about many other subjects like crystal skulls and UFOs, etc.

1:10:40

.....

The center is the latest project that I've been working on since about March of this year. And it kind of is, in a idea stage right now, although there's quite a few of my, I would call them extended spiritual family who believe in the vision of the center and what it represents. And basically, the Center for the Advancement of humanity is to help with sharing the most powerful and most important information, mostly from a spiritual perspective of what is happening in our world, of how to help people to learn more about their true essence, their divine essence, if you will. And there's many different subject matters that we're going to be covering.

1:11:31

We're gonna have different departments and people and centers all over the planet, this is our vision of it. And so for right now, basically, what we're doing is finding extended family and different countries around the world, who are helping us to anchor the energy of what the center will be about. And I think the center two is also going to be kind of like a mirrored expression and is going to grow and build. As more positive change starts happening. As more of the advanced technologies that we have behind the scenes starts coming out to people, the prophecies of moving toward a golden age, all of these things we're going to be involved with and participating in and

1:12:19

trying to take the, it's basically what's going on right now, although you're not going to hear anything about this from the major media is a redistribution of wealth and a lot of

1:12:34

money and funds that, you know, we've worked hard to accumulate in our lives has basically been stolen by a very small group of individuals, whether you call them the elite, or the globalist, or whatever. And these funds are going to start being coming back. There's a new financial system that according to, you know, what I feel and also what I'm reading on telegram is in place, which is called just Syrah, which is going to you know, revolutionize everything, so it's completely fair, they're going to be using new advanced technology, so money cannot be stolen, I think it's going to be key to your DNA. So like, when we have these new computers that will access this advanced system, it will automatically recognize you and immediately link you in to your own bank accounts. And there never be problem. So a lot of this may sound like like fantasy, but I've had some spiritual experiences that show me that this is where we're headed in the future. And so because of that, I'm kind of building the center to prepare. So as these magical openings start happening, and as the truth starts coming out, that are center, you know, the advancement of humanity that we can support great information for people in every form of media that will exist, whether it's, you know, books or documentaries,

1:14:03

or ebooks, whatever is available, and basically, I'm prepared myself to, you know, donate all the information I've been collecting since the early 80s. When I started being an Aquarian Age networker and turtle, Crystal Skull Explorer.

1:14:23

And kind of the patient is we're here near Atlanta, because I keep seeing that eventually we'll have our own building, and start to hire people. In other words, this is not going to be done via volunteer, this is going to be a regular type of business. Of course, we'll have some free products, you know, like, I have six free ebooks, which of course your listeners are all welcome to and we can talk about that towards the end.

1:14:49

So we'll have free things will have advanced things I hope. We'll have a department for holistic health and healing, which would involve the so called new techniques

1:15:00

ology with med beds. So we're really one of the new centers, I feel there will be many of these centers. But we will be one of the new centers coming out to totally support people in their growth and spirituality and having the best information available to them.

1:15:20

You know, like, well, to put, let's put it distinctly this way,

1:15:26

I think that, since we've all grown up in life, that the people who have been in charge of educating us about the history of our world, and even the origins of our world, that we have not been told the truth. And so if that is the case, then as the truth starts coming out, because there are people who know exactly what's going on in our world, like, are we really having contact with galactic beings, which I believe we are. And we also have on our

1:15:58

RUMBLE, RUMBLE video channel, I interviewed two spiritual mediums one head and arcturion speak through her. And my, let's get into that real quick, because that is the conversation with the Galactic Federation, council segment A and B, let's get into some of that message. Because Joshua, you have, of course been on before talking about the spiritual messages channeled by crystal skulls channeled by yourself through them, how many the last time you were on was actively the first time that Spirit ever moved you to speak on Air

1:16:38

Show,

1:16:40

which has happened to you before, but it's not a frequent thing. And I was very impressed by that. But

1:16:47

the idea of this, and when you came to me, I guess it was a couple months ago saying that you were starting this up with other people. I was like, this is fantastic. Because much like the paranormal outreach network that we just are Opus, that we just talked to recently, it's it said sympathy, it's that being able to know that you are in a place where you can share your encounter, where you can share the spiritual message that you have been given.

1:17:16

Because that can be such a burden sometimes to have had a revelation and have nobody that you can share it with. So the fact that you have gone through with other people to start up the Center for the Advancement of humanity, I think is a beautiful and amazing thing, Joshua, and something that, like you said,

1:17:41

it spirit has shown you that there will be numerous centers popping up. Yes, and, and the key is, like when what I'm trying to do right now, when I work with centers, we have two that have said that they are interested to become sister centers. So like, we would have a main center, which is the one that I would build first. And then these already are existing spiritual centers that are doing their own thing. But to show the philosophy of the future, is when I go to them, I said, we're not here to change anything that you're doing. Okay? We're, we're just here to say, look, we're going to be developing different products and services, information, and so on. So you can pick which ones you might want that would work for the people that are visiting your center. And the only thing that we ask is, you know, just to let people know that we exist, that you are proud member. And in exchange, I believe that what's going to happen for us, and it's very difficult to prove, because most people don't understand the new financial system, which I mentioned before, is that when that starts happening, projects, for humanity, and projects that are of a spiritual nature, I think are going to receive a great amount of this great wealth that's coming. So that we can help to educate people, about many different subjects that could help them to have a very happy and amazing life. Because I believe that, you know, from a spiritual perspective, if you are only living, like, let's say, a physical part, you have the spiritual part of yourself, which is very powerful, which connects all of us to the family of humanity and to creator. And it's important to embrace both the physical and the spiritual in order to have a very powerful, happy, balanced life on Earth. And so this would be, you know, our objective. So when we're working with the, these other existing centers, we you know, say we'll just be

looking at how we can have ways to help each other. And primarily, what I want to do with the sister centers is like if they have special projects or whatever, because I believe that great wealth is coming. We support them in that

1:20:00

As, and in exchange for that help and support for them to create their dream, and what they want to do, they just let people know about, you know, that these network of centers exist. And the other thing is that people have been very delighted about the creation of the center is when I visualize when we get to the point where I can start actually hiring people. And we can start setting up all our departments. And even for myself, just to have helpers, because generally, you know, I'm a typical Aries, I do everything, and I haven't had the funds to be able to afford assistance or whatever, I create books myself. So sometimes I get helped with, you know, illustrations, etc. But mostly I'm doing it's on kind of a jack of all trades. But what's going to be the key for working with us is I'm going to have one main question, I'm going to ask people, or I'm going to have the department that will be involved in hiring. And if the person doesn't know the answer to this question, then it may not be the right person for us to bring into the team. But yeah, you need to know what makes your heart sing, what do you love to do more than anything else. And so the idea is, if I'm hiring people from that perspective, then when a person comes in to visit our center, you know, the physical center, you're going to see all these people very happy and joyful, and they're gonna feel a very powerful, uplifting energy, and they probably won't want to leave the center.

1:21:38

You know, because they're going to feel like, you know, we're very welcoming, were there to help them. And this is the way that our world needs to be into the future. So I'm hoping that the centers, all working together all over the world, will be an example of, you know, the future of humanity, that we're all working together. Yeah, because the key is, if we each do what we love to do, every job, every test that needs to be accomplished, would be covered all over the whole planet. Yeah. And as a matter of fact, I also feel to that, from the visions I've had of our future 15 To say, 1718 years going forward, eventually, we will have, we will no longer need money, everything will be done through barter and exchange will be free, etc. But we can't, you can't move from being where we are. Now we're accustomed to using money to pay for products and services, to all of a sudden not have that. So this period of time, I feel it's another thing to Center's going to do is to help people to adjust to moving from a world where we have black and white and conflict and so on to a world where people are dancing and singing industry. And the children of the future have no clue whatsoever, and may not even believe us that we went through all these challenges and controversies. You know, the Go, dad, mom, Grandpa, Grandma, how could you say that? Look at our world today. It's so beautiful and harmonious. And so I feel like our center is tasked with being one of many, to help people so we can move to take us into that beautiful future and that golden age. And for myself, that's all I can see. And so it's like, even though, you know, I see, well, we got to war and Ukraine going on. And now we have

1:23:37

people protesting about what the Supreme Court did with the rove verdicts and so on. And,

1:23:46

you know, these Tifa and, and the Democrats and how they're, well, my opinion is they're literally destroying the country. I think a lot of people are starting to see that. But that's my opinion.

1:24:01

You know, these type of situations are in the process of going away. And it's almost inconceivable for most people is, how could we how can we have such a world? You know, there seems to be so many challenges. It's going to take us a really long time. I don't feel that

1:24:19

the truth, whether it's coming from the light or the dark, it's getting ready to come out. And that there are people who've been working for many years since probably JFK, I would say in maybe even longer than this. Oh, sure. Bring our world to peace. And it's not just people, galactic beings to are supporting us in this but they have to respect our free will. Yeah, yeah. So they get Yeah, exactly. Exactly. And that's just it. I mean, even in our pre show conversation, and even in the conversation with the guests just before this, you know, like I was saying

1:25:00

America by definition is choice. Right? You know, and it's interesting that that you, yourself have chosen platforms like rumble in the alternative platforms to take this message to because yeah, some of it frequently, especially now, with, with the the recent UAP hearing that just happened and the whole dialogue now of threaten the skies. What do we do about people putting out misinformation? What do we do about people putting out their own theories, things like that. And they basically said, I don't know you guys need to write a law about it.

1:25:42

So yeah, you know, how long is it before truths, like, what the what the Center for the Advancement of humanity is trying to get out there are pushed down. And with that in mind, let's get into that recent conversation with the Galactic Federation, Galactic Federation Council. Because I think that's an important one to get into, when you're talking about especially the mission of

1:26:14

the,

1:26:16

the center and what it is that you're doing in the future that you are trying to build and bring mankind to that point of enlightenment. So what was it that the conversation with the Galactic Federation Council? Okay, so first, let me define what this council was, as I understood from one of our spiritual members, Reverend doe Johnson,

1:26:44

Reverend Joe Johnson, and I had been talking since 2017. And she is a trained spiritual medium. And one of the contexts that came up before I did this interview with her back in 2017, actually, was I started speaking to the arcturion Council of 13. And what was very surprising for me, is when I was talking to that counsel through Reverend doe, they were talking about crystal skulls, like they knew about crystal skulls, that this was something that was also an important part of who they were. Now, my understanding through Reverend doe, and what I've researched, is that the Arcturians are of of a much higher vibrational frequency than we are, they do have in their vibration, they do have their own physical bodies or physical form, so they can have contact with each other. But they are much more evolved spiritually. And they have a great love and respect for humanity. And I think, according to

1:27:55

I think Kurt, the name of the arcturion that I spoke to, there was Ruth Huerta rear toe, and rear to claims that, that she was around back in the time when Atlantis was formed, and she was working with the council of Atlantis. And during that particular period of time of Earth, the vibration was high enough that the Arcturians could actually have direct contact with human beings, which they cannot do now their vibration is too high.

1:28:26

It's interesting that you say that because in our last interview with Seb tuck, who who works with MUFON as part of the experiencer response team, as well as Kathleen Martin, who works in the same same aspect with MUFON as well as other aspects and has spent the better part of her life now in the search of UAP technology UFO history, stories, witness accounts, things like that, more than once has it been mentioned about vibrational state and and about how more and more of these accounts have direct contact with alien life have been in a spiritual way and and in a way almost like out of body experience vibrational

1:29:24

crossing the fields way. There's a saucer landing in the yard, and some guys walking out going hey, how you doing? Well. So it's interesting that you bring that up even even with the conversation being channeled from the Galactic Federation Council. So I didn't want to interrupt you but I thought that that is key to understanding especially with frequencies in the in the fact that we have to tune ourselves.

1:29:58

Right well

1:30:00

Nikola Tesla also talked about when he was alive, that everything is vibration and frequency. And the key to understanding the Arcturians, or advanced civilizations like themselves, is that the vibrational level which they're in there, there doesn't exist any kind of thought whatsoever of violence or crime or negativity, okay, they are very connected with creator with the divine frequencies of love. And they've had contact with humanity. And I think there's a possibility in our DNA, that there may be part of the Arcturians. Inside of it, I think, from my studies with many different contactees. And around UFOs, it seems like humanity in our DNA, we have a lot of different galactic races who have a piece of of it there. And that kind of makes us very unique and interesting. But anyway, what the Arcturians were talking about, is that, you know, they're bringing a message of peace to humanity, I did EF rear to about do they see this positive future, which I talked about, and they absolutely see that. And I, and I think that as we become more of a peaceful world, we will have more direct contact with them, which is a wonderful thing, because they have great spiritual knowledge and insight that they could help to teach us to become much more attuned to creator and living a more harmonious life is like they have excetera. And so that was basically, you know, the message that they're here, they're sending us very loving frequencies of energy, there are probably another way that they can help which I know this has been going on for me since I started the center.

1:31:53

What's happened to me, and again, there's no way I can prove this, because it's my individual experience. But when I talk about the center, it almost feels like there is an arcturion, who's very interested in helping us in the development of this. So it's very, very interesting that Reverend dove had an arcturion Speak to us the first time. And that, you know, every time I talk about the center, I feel this arcturion off the right side of my body. And I could feel the arcturion there now. And it's like, I feel like the Arcturians and the Pleiadians are the ones who are whispering to me in March, Joshua, you need to start going with dissenter.

1:32:34

But every time I try to start a new project, because I'm Aries, and I always have all these ideas and everything, I never can get anything going because I never get all the total resources that I need, which is not just financial, but I can't put it together. And then nothing happens. Because, you know, everybody's struggling right now with the crazy things happening. And they said, No, this is very important, trust us. And so on my mailing list, I think I have more than 30 people all over the world. Now, these are building people. And this also includes you by the way, Chris, I want to acknowledge your help and interest support. You're one of those absolute 30 plus

people who when they listen to me talk about, you know, this idea that go, this sounds great. I want to be involved. I don't know how I'm going to help. But I just know I need to be involved. So now it almost makes me feel

1:33:26

like before we were all born into the earth, before we came into bonding, a group of us got together and said, Hey, in 2022, we're going to start building the center. Now, here's a really cool thing. And then I want to come back to define the Galactic Federation Council because I haven't really defined it yet. Or at least as Reverend dove told me, is one of my guides. And this is in my free ebook, which I offer to all of your viewers and listeners. It's called messages from Arges are just is the name I'm going to take in our future in this lifetime. But our just is talking to me like a spirit guide right now. So I just asked are just, you know, just kind of being funny. I said, you know, the center I'm working on does it exist where you are in 2037 2040? He says, oh, yeah, absolutely. It's all over the place. So, you know, I take that as a good sign that you know what we're working on, even though it's in the very beginning phases, it's important. Okay, coming back to Reverend dove.

1:34:36

This is how she defined the Galactic Council. It's like there's 13 Galactic races. And each race has their own council of 13. So Rita was one of the members of the Council of the Arcturians. Okay, but you know, the Pleiadians are there and they have their own council of 13 etc. So the idea that whoever and you

1:35:00

Talk to me about what she received from her context is that we would do a series of interviews, and that we could have, for each interview, a different galactic race, a member of their council stepping forward to give their perspective about, you know, what is their world like? Well, how do they perceive how the universe works, and then also give their opinion as the as rare to dead about what's happening on the earth. So they're very well, they acknowledged that they're very well aware of the challenges that are going on. But they believe, and they see because, you know, they can see things that we cannot see, since they're in a higher vibrational frequency, that we are definitely headed to a very positive future. So that was a very good message from them, confirming you know, what I have received from myself through my own personal experiences. One being that this future part of me, is showing me what life is like there, but he can't tell me, how do I go from where I am now to where he is. Because obviously, if I knew that, it would interfere in my becoming artists in the future. So an artist actually did write through me one time, when I was in Brazil, he was writing about what the future was like. And that that message that he wrote, that's what is part of this free ebook called messages from artists, and artists also has found his way, I have two fictional stories to that I've also written which are available on the crystal's go website that I think you showed a little while ago, where our just shows up in those stories as well. So it's like, you know,

1:36:47

everything that I see and everything that's happening around me and the information that I'm able to gather through the various sources of people I know, it's all pointing to a positive future. And that this is a key year 2022. And, you know, we could talk about if you want, at some point, what are what are some signs that this is actually happening, because there are some signs that are showing up now, I was just about to say, let's get into not only some signs that this is happening and and what this change is, but how it brings us to like you were saying that new monetary system that we ended up living with later on. Okay, so here is what is being talked about on telegram about the war in the Ukraine.

 1:37:38

But before I say that, let's talk about what the major media is saying. Because we I think people are waking up now, and starting to say whatever the major media says, it's usually the opposite. So the major media puts Putin, the President of Russia, who initiated these actions, I guess, at the end of February, early March, as comparable to how we understand Hitler, an insane dictator, who's wanting to conquer the Ukraine, and make it a part of Russia again, and he's gonna go after other other countries too, after this. Yeah, restoring the motherland, right. But here's the thing that doesn't make any sense. See, this is what people have to look at. Okay, it's the same thing. Like if you went into the pandemic, there are things about it, that make no sense whatsoever, if you're really looking at it, honestly, and not basing your opinion about what the politicians and the famous people say in the media says, and even the medical profession. So remember, when the United States invaded, it was Iraq. I think George Bush Senior was our president, I remember this Yep. In a matter of days, it was over, because you had the superior mind of the United States. First, a little tiny country that had, you know, didn't have couldn't stand up to the weapons and the, and the strategies and everything. And it was over. Well, we have the same situation in the Ukraine, Russia, compared to the Ukraine, even if Ukraine gets the cell from the United States and from the EU and NATO.

 1:39:14

Supposedly, the United States, EU and NATO are not sending our troops there. Maybe we're sending them weapons, but even if we're sending them weapons and money, they cannot stand up to the mind of Russia. This war should have been over in March a long time ago. Okay, but it keeps going on and on and on. So what I'm saying is, there's something else that's happening here, which is very important, but people aren't hearing it through the major media. All they're hearing about is how terrible the Russians are. But if you go on Telegram, what they're saying on telegram is, number one, the Russians went to the united to the, the Council of the United Nations and presented absolute evidence after they took out these you know,

 1:40:00
have

 1:40:01

laboratories there to create more viruses and infections and deadly things for humanity. And

they show that the United States was paying for all this and backing it up. So maybe this is part of the reason why Biden's been so friendly, you know, with the President of Ukraine, and, and so on, enhanced this on doing all this stuff in the Ukraine, that they have all these unethical activities going on which they're making a lot of money from it. Next thing that Putin talks about, and they have total evidence for these labs, and I think it started as eight and now it's like over 40. And I think I saw somewhere, I don't know if it was just on telegram or on a website of like the CIA, CIA or FBI or one of those organizations, where they were acknowledging the United States was involved in those laboratories. So what I believe is really happening in the Ukraine, is that when the Second World War ended, and this is also what Putin talks about, which you never hear about, but you hear about it on Telegram, because they're publishing what he's saying, for translated from Russian into English, is that when the Second World War ended, the Nazis and the and the elite and the globalist, and the Cabal and all those kinds of people, they moved into the Ukraine, and they set up all kinds of things. And that this war that's going on, really is the War of the light versus the dark. And there actually was on Telegram, somebody coming from the globalist who say, if we lose to Ukraine, it's all over. Meaning that if you believe this, and this is what, what I feel very strongly about that what I see going on, that these very wealthy people, you know, they pretty much have, are in charge of every major, major company and major

1:41:56

category, all the major things in our life that they've been basically in charge and controlling. And, you know,

1:42:08

what's happening in Ukraine is Russia is taking them on right now. And saying, we're not going to give our power away to you anymore, like Russia, they were talking about Russia, even before they went into the Ukraine that they did not want to accept a central bank in Russia. I think in many parts of the world, we have the central banks, which are supposedly controlled by the elite, they didn't accept it. But now here's another aspect, which you asked me about the new financial system, and just Saara, which Russia is starting to do now. Their rubles are now backed by precious metals by gold. And this is a significant part of the new system coming. Because one of the things they talk about on telegram is the new rainbow currencies that are coming for all the countries in the world, like I've actually seen on Telegram, what the new if they're going to call it either us and or US tn United States Treasury note, I think it's going to be calm. I've actually seen the physical bills, you know, like what we would call dollars, but it's not going to be dollars anymore. The physical bills, what they look like they've been shown them on telegram. And there's rumors being talked about that people that work at banks are being trained on the new system that they have actually in, in their banks, but they're not talking about this to customers yet, that they actually have these new bills or, you know, new currency, let's call it new currency. And again, that the United States Treasury notes are going to be backed by gold. And this will be an important part of it, because all the currencies in the world for the most part, except for now, Russia, and China's doing it, I think India, and there's a couple of other countries now that are backing their currencies with gold are backed by nothing.

-

 1:44:04

So So another aspect of the new financial system, that's Gus, which of course many of us are familiar with? No, but we're not sure what to do with it is the crypto currencies, the digital currencies, also those have nothing that backs them so like, you know, when Bitcoin used to be worth it, I think it went up to \$69,000 per one coin. And now I think it's down to around 20,000. And it's dramatically dropped. Last couple of months there, there is a major major dip going on in crypto right now. However, I will say this, and this is just as somebody who mines Aetherium

 1:44:47

through mining, I am actively increasing the length of the blockchain that I'm helping mine

 1:44:56

which is thereby increasing security. So there is

 1:45:00

At least it's not like an arbitrary value, there is at least a value there. And that blockchain is part of like, you know, bank transactions, things like that. But I hold in my hand right now something that a lot, not a lot of people actively still hold. And that is an actual \$5 Gold note. Right? This I mean, this is what what our money used to be folks right here where it was like, hop on and bam, give me five bucks worth of gold.

 1:45:31

It used to be backed by us. And even the language of this note is legal tender for all debts, public and private, no longer on your money.

 1:45:44

All kinds of things. But this is let's see. 1963. Right. So when Nixon became president, I heard that they started taking the gold, you know, you couldn't own gold? Yep. And only recently, could you start doing gold, which is what I personally did when we got all this free money. Yeah, I bought gold and silver. Yeah, because this, I believe, is the future, that everything has to be backed on precious metals on something that that has a value that something that you can hold and touch and has a perceived value to the society. So this is part of what the new financial system will be about. So the new currencies coming out, there will be a computer system, which they call Q Fs quantum financial system, which according to what they're saying on telegram that this system is in charge right now, the SWIFT system, which is the old system that I didn't even know existed until I went to Europe and I had to convert my euros to dollars, I had to use the SWIFT system. To do that. It's already been taken up. Now, again, a lot of the information that I'm sharing, I don't have like, you know, some secret source or whatever I'm trusting that spirit is gonna guide me to the right video, to the right channels on telegram to receive the information that's going on. Because there was a moment in 2020, right after they

start announcing that COVID started coming into the US, where we're, I'm sitting right now talking to us, very close to where I'm sitting right here. I remember, there's one day I said, I really I want to know the truth. And all of a sudden, all these videos and links to information and everything, start coming. Yeah. And so I make it my duty that every day go on telegram and I look at the channels to stay abreast because, like you, like you said, many of the social media and the major media, what they're telling us they're, they're covering up what's really going on behind the scenes. And there are only a few places independent places, and telegram was specifically designed not to allow it to be censored, although there are some channels they say are fake, I don't know how they're deciding this or not. So there and there's probably, you know, some people on there who are spreading

1:48:14

information like the media and so on, because it's free source. I'm very hopeful that what's going on with Twitter right now. And this gentleman who's getting ready to buy it, that this is going to be the beginning of major change as well. And I'm also

1:48:35

signed up for Trump's new social media truths social is what it's called. And, you know, so I just stay in touch with with these things. But their major sign for the new system coming is that the Russian ruble is being backed by gold. And also there's another group of countries that I think are working with some digital currencies with this. It's called BRICS B are ICs, which represents Brazil, Russia, China, India, and I forget what the letter S is for which country that is, but there are five countries that came together that said, we are not going to support you know, the normal currencies like the dollar is the main currency and I think it's starting to, to lose that status. That they're going to Africa, South Africa, right. Okay. So it's starting to lose that status and new systems are coming. So, in the future financial system, there will be both a, a physical form of the currency and there will be a digital form of the currency, the two currencies, which seem to be very important for the future that will work with the system from the point of view of the of crypto is x

1:50:00

RP, which is called ripple, which will be backed by gold. And the other one is x LM, which is

1:50:08

stellar. And that will be backed by silver. And those are the only two currencies, which I have, I do not have those currencies online, I have them in what's called cold storage or an offline program. It's guarding them. And, and what I've done is when I've had extra money, I have bought whatever I can. And I found two places where I could do that because ripple Wow, was taken out. In the US the SEC had this big case, which I don't know if they finalized it or not. So you couldn't really buy it in the US. Like I had Coinbase and Coinbase. Stop selling it. So I found a place Unbound, I think it's called in the UK. And the nice thing about it is they don't take that much away from you when you buy it. And when I buy it, in five seconds, it's in my wallet in

here in the US, wow. In other words, why it just doesn't take that long, I immediately can transfer it. Whereas with SLM which I still use Coinbase, I have to wait seven days before I can transfer transfer it. Because I wasn't sure if the internet was going to come down. You know, I, I didn't have the idea that when I had the extra funds, so what I do is I do these online surveys with Amazon, it's called MTurk. And I usually make anywhere from 40 to \$60 a week. So in other words is guaranteed income, it's not that much. But these coins right now are both under \$1 in value, if they went up to \$10 in value, one of them I have 2300 coins now the other 1000 Well,

 1:51:53

maybe all the money that I need, and they're saying to that the price of things will greatly go down to the prices of the 1950s like 95 I keep hearing, which is interesting, because that's the year I was born. So you know how straight now they want 400,000 500,000 Oh, yeah, like things that things have gotten to a point where there's no option for the bubble other than to pop, right? You push things to the max with with the squirrely math that you use to figure out inflation.

 1:52:26

And we are no longer based on anything physical. And that you know, we really have. I am a proponent of and it shocks a lot of people but it's through my experience with mining, that I have become a proponent of crypto. Yeah. And with the concept and with the idea that we could all Joshua on our phone, have access to our wallet, same way that we do our bank account, except it would be a government wallet. Right? Fine. They've already got access to your stuff, folks. Sorry. But like long before they told you that the banks had access, they had access, like a decade ago, they had access everything.

 1:53:11

And in addition to that, you could also put like, your rank voting on here, yes, there would no longer be, hey, I need to take the day off. So I can go stand in line and vote like that will totally actively change the way that the working man's vote is represented in America. Right? So it means that in the future, everything to do with finances will be done in that way, in a secure environment, the transaction will happen almost immediate, like you know, every time I get a big chill, when five seconds, all of a sudden, I have have the ripple that I purchased that came from a place in the UK, five seconds, it blows my mind that it will be even faster than that. And it'll be instantaneous. And the key is that the financial system has to be secure. The one we have now, I've heard horror stories. Some people I think they call themselves white knights are claiming how the the globalist and the elite because they had total control of the current financial system. Somebody would do a transaction for millions of dollars, and all of a sudden they would just disappear. Yeah. You know, just like, and there was no way you could track it or trace it. This will be impossible, which also means to have a more advanced Internet, which will also be secure, new computers, new phones, new everything. And this is what I'm very excited about. And I believe all these technologies already exist, that the elite and the globalist have had it for more than 50 years. And it will just start trickling out and people just as we've adapted to the internet and streaming and mobile phones, we will eventually adapt

1:55:00

After probably a few years to all these new techno, absolutely, you know, and we'll have free energy, which, you know, would be one of the subjects we would talk about in the center of tortilleria civilization that existed before.

1:55:16

And I mean, it's going to be an amazing world. So this is the key thing I'd say to everyone listening, which I say on all my interviews, even if we do not know, today is June 26 2022, how we're gonna go from now, to 2037, to 2040. To be in paradise, all we have to do is like five or 10 minutes a day, just go in meditation and visualize what would the world be like what that you would like to see where we have all this peace and harmony, just see that like, every day, and what will happen is one morning, you will wake up, and you'll look around, and that's the world that you're going to see. Yeah, so I'm absolutely positive because of the communication with my future. So and the other experience was, I was in a coma. And I remember going to a dimensional meeting, where they were talking about how they were going to help the people of the earth to see this period of time. These were galactic brothers and sisters, and I was at this meeting, and I saw what their plans were, they blanked my mind. But they told me and this is part of the reason I think what I'm telling you all this stuff is true, because I saw it at this meeting, is that when things start happening in my real time, my present time, I'm going to know what's true and what's not true. So I know for a fact that the number of people that were affected by the pandemic we were taught is lies. I know for a fact that what's going on in the Ukraine, what they're telling us is happening, there is lies, they're taking out the elite and the Cabal there, it's a major spot for them. And I will also tell you, too, that I have seen pictures on telegram of the capital city in Kazakhstan, and there's another one Turkistan or something like that. These are definitely cities built by the tar Tyrians, which they did not destroy. And you've never seen them on the news ever. And this may be part of the reason why the people rebelled in Kazakhstan, and they took out their government is because, you know, they were tired of the tyranny that was going on. And then also to there are these two, I don't know if you call them states or geographic sections in the Ukraine, which were rebelling which the Russians initially acknowledged right away when they came in. So to me, these are like all different signs that we are moving toward this period of time. So I don't know where we are in our time for the presentation. But I would like to make sure that the people listening have a way to contact me. Oh, absolutely. Yeah. Okay, so, for the Center for the Advancement of humanity, I just use my crystals go email. Because we haven't set up our own website yet. I do have an email for the center, but it's very complicated. So if you would like to learn more, if you'd like to learn about our Rumball channel, or learn about what we're doing on Telegram, or there is a webpage, I have two that kind of shares it or maybe you want to help us and participate, or there's many countries that we do not have a family member in that's holding the energy for, feel free to get a hold of me at Crystal Skull explorers@gmail.com. And that's Crystal Skull explores@gmail.com. Of course, I'm Joshua. So feel free to write. If you're interested in getting any of the six free book free ebooks that I've been offering to all the people listening to these presentations again, send me an email, I have a free ebook on crystal skulls arteria have fled Earth, the messages from artists, which is I've been talking about so you can get more details about how I contacted her just in the future, what his message was, he sent me and more about that meeting I attended. I also have from May of 2021, a book that's kind of doing a high level overview talking about these situations, which I think a lot of what I talked about back

then is still valid now. And then I have one more about are we in a computer simulation. So any of those free ebooks all in PDF form. If you email me and get it to me, I'd be happy to send it out to you. And if you're curious about crystal skulls, we've got carvers in China and India helping us make skulls and we have some here we can help you get your own crystal skull as well. So yeah, so this is

 1:59:49

an course Chris has one of the skulls made by our Indian Carver which he keeps telling me how much he spent enjoying how lovely I love my skull it sits right here. All

 2:00:00

Behind, it's every episode, right? So hopefully it's inspiring him with more episodes.

 2:00:07

And I'm so honored to have Chris. It's one of three online, kind of like shows that are supporting dissenter. So and Chris has helped us, as you see, there's a new design for our logo there, which Chris did. And he's going to be helping us with for our videos, you know, the beginning. So the whole key to what's really going on right now, if I could summarize it at the end, is that we're we're starting to find extended family and work together and, and do what makes us happy and make a difference in the planet. And there's one last message if we have time that I absolutely. Okay, so on telegram one time, I see this document. It's like a secret document by the globalist. And if you want to participate in all their dark projects and get all this money and everything, you have to sign this document. So

 2:01:02

there are two keys. Where's this document? I want it.

 2:01:08

I want their horrible, horrible dark money.

 2:01:13

Well, anyway, I'm just Yeah, I know, you're, you're a kid or I'm used to you. So And besides the fact we need to be, you know, joking, having fun. We can't just say yes. Well, well, yeah. But they're there. I have seen a couple of these, like what you're talking about where where quite literally people are invited to come be part of the Cabal that is going on your life away to the devil. Yeah. So this particular document I saw is explaining their strategy of how they're deciding what they're going to do. So most of the talks about and uses the word poison. So all we have to do is look at what's happening with COVID. And the pandemic, which is, you know,

they I think most people know, they created this virus, number one, whether it was done in the laboratory in Wuhan, or I don't know, could have been done in the Ukraine definitely tinkered with. Yeah, so they, they brought it up, because they needed an excuse. So they could take away all our jobs and, you know, get us locked down and everything like that, even if the poison to which they are referring Joshua is the poison and vitriol that we have toward each other that has been sown over the last two years. Right. But the key that they kept stressing is that when they came out with this poison, then they would give us a solution, which would be more poison. So the solution is the vaccines, which again, go on Telegram, and you'll see many videos from people who were greatly affected that took these vaccines I knew, and my wife Katrina, we both know we have nothing to do with this. This is absolutely one of the most terrific things that we've ever seen in our life, stay away from it. And so we've never had any problem with it. Never been afraid to walk outside with a mask without a mask doesn't matter. We know that we're protected. But here's the other part, the second part, which blew me away, he talked about Prime Creator. Now why would people who believe in, you know all these dark energies and the Devil and Satan and so forth? Talk about Prime Creator, it means they know that there is a prime creator. Okay. So this is what they say. And this is what I know, is the situation now, which is part of the reason why everything is shifting also, they say this is the most secret of secrets. Prime Creator allows us to do what we're doing to create the world the way that we want to where we don't have to care about other people, if the majority of people on the planet agree with what we tell them to do. And Prime Creator will not intervene. But if the majority of people on the planet say no, say we will not do this, we do not accept this, then I will come in and you will lose everything. This is what is happening right now. The majority of people, all you have to do is look at the protest at the mandates and the lock downs that have been going on in major cities all over the world. And, and the contact I have with the Galactics to telepathic contact with the Galactics who are overseeing the center and have been helping me with all of my spiritual work. They said more than 50% of the people on the planet are saying no. So this is very, very important. If you're anyone is listening to this and you agree that all this madness that's going on, are this elite and Cabal, you know trying to convince you you have to do that.

2:05:00

And if it doesn't feel right, if it's immoral to you say, no, if enough of us say no, they lose everything. Yeah, so this is the key. And I think this has already happened, we're past this point. And this is why everything's starting to fall apart. They're saying the stock market's gonna fall soon. That does change with Roe and Wade is a part of this, that the crazy stuff that Biden's doing here in the United States, it's a part of this, they have to wake people up people, people will, because of because of Roe v Wade, things like that, they will start to vote with their money, guaranteed, and they will start you will start seeing things fall because of the relocation of money. Right? And, and the money has to change. And they're saying that when desire comes, everything will be on an equal basis, like the currencies of all the countries will be of an equal value. So no one will have an advantage, okay, so that it makes it that we get to a point where a person who is like today who's very wealthy, and can buy whatever they want, that condition will not exist in the new system, because everyone will have enough wealth, to have a peaceful and harmonious life to be able to live the way that they want to to have the freedom, though, we'll have contact with our galactic brothers and sisters, some of us will go visit them, they'll come down here, we'll work with them. So this is where we're headed. So basically, what we're seeing now it's the light and dark are both coming out. The truth about the light and dark are both coming out. But the light has already won. It's like a chess game between two advanced players. There are only two outcomes, either they tie or one wins and

one loses. While the light already has won in this chess game. And the dark can't do anything to stop it. It is divine. Well, it has to do with debt agreement, I told you where because that point of no return. So you know, we have to go through this process we're going through right now, in a gradual way. But the Arcturians in the plans I've talked to said that there's a possibility of a major event happening this year, that's really going to shift everything in the positive direction. arcturion said it could be the Pleiadians showing up in the sky with their craft all over the place, and beaming down this very loving peaceful energy. So the people who watch them are not going to come from fear and panic. They're just going to feel, I don't know who those guys are up there. But it feels really good about them. They seem to be here in a peaceful way to work with us. So yeah, you know, so I just say whatever we can imagine, though it's coming in our future and beyond what we can imagine. It's going to be so fantastic that none of us can even believe what's about to come true. And I know that we're in this process. And I feel like every time I speak, I have to share that message that we are in that process. Yeah. So Yeah. So. So Chris, I want to thank you again for having me on your show. Hopefully, hopefully, people listening have a better idea now, what the center is all about? Absolutely. And we're here to answer any questions or if you wish to participate, you know, for me to center as an Aries, I always need a new challenge and a new adventure. This is my new adventure. Well,

 2:08:44

one last time, Joshua a number one, thank you for always coming on and sharing your wealth of knowledge and revelations that have come to you through spirit, as well as

 2:08:58

other channels. But let let everybody know where they can go to get involved with the Center for the Advancement of humanity where they can go to volunteer where they can go to follow subscribe. Everything else one, one last chance for shameless shameless self promotion. Okay, well,

 2:09:19

the key is to the send me an email basically, and then I can send you the links or also I'm assuming, Chris, that you will have some description about the show with the links to that they can kind of long

 2:09:33

so if you want to go directly, you know, to our, our rumble video channel or if you want to go directly to, you know what we're doing on telegram or if you want to go to this temporary web page I set up that explains everything, which then will have the direct email to the center. Look there or you can contact me at any time at my personal email. Crystal Skull explores at Gmail dot

 2:10:00

Calm. And that will also be good for the six free ebooks I talk to you about are anything to do with, you know, crystal skulls or UFOs or whatever I'm, you know, don't think I'm so busy that you can contact me. I love meeting new people. But right now, I'm in the mood of co creation, what can we all create together? That's

 2:10:23

what we do to make a ripple a wave. Right? So that's what I see is going to happen with Chris's show. I'm gonna say, Chris, we've got all these great people associated with our center. Can we bring them on your program so people can start hearing about it? Yes, yes. So they're right there, we just set up a co creation for the future. So this is the kind of thing that I'm doing. I just also very interesting, I just connected with this group, the X gates, they're based in Italy. Yeah. Now Italy is a new country, right, anchoring the energy for the center. And I got a really good relationship with Diego, who's the head of it, and I am now one of their authors. And very soon, my first article on the crystal skulls will be appearing there. So I'm just learning their system and trying to get my pictures in the right place and everything great. So I expect to be you know, doing articles there. So this is the idea of co creation, where we work together where we delight.

 2:11:23

It makes us aesthetic, what can we do next? What incredible things can we come up with next? That's going to help a lot of people? Yeah, so. So I think as more and more people see this positive future, this is what's going to bring it faster and faster to our world. Absolutely. It is it is quite literally a Tom and Jerry Cartoon and a snowball. It starts with something small at the top. Exactly. And it shakes out effort. Right. So my excitement is not made up, say or extended family listening here. This is coming. It already exists behind the scenes. I feel it every day and it's getting stronger and stronger. And also the vibration of the Earth is getting higher and higher too. And that's helping this process to to happen, because the darkness cannot exist when the light is so strong. And that's where we're going towards. Absolutely. Well, Joshua, thank you so much. Once again, for coming on and sharing everything about the Center for the Advancement of humanity. Make sure to stop by check them out at all the links supplied by Joshua, there will of course have links up in the episode post for this.
