Coming from the city of the we're exploring topics from the esoteric and unexplored, two dimensions are known. Shining a light of truth on the darkest corners of our reality. Welcome to the curious realms.

00:41

Well, hello, everybody and welcome to this very, very special edition of the curious Rome podcast. It is not often that we we go into prophecy every once in a while we will discuss the concept of in time prophecies. Every once in a while we have discussed things that are happening in the Ukraine, stuff like that, and how they relate to endtime prophecies. But we have never done an actual episode on it. I think that now is really the time there. There is so much going on in the world around us, especially when we look at what is actively happening right now in the Middle East in Israel Palestine. We will be getting into that part and how the modern political action and war going on in that area relates to the biblical prophecies that relate to the area and relate to now. But I would like to bring on our good friend, Ella bein that will obey and welcome back to the show. How are you doing?

01:52

Oh, I'm doing good. Thank you for having me back. It's always good to talk to you, Chris.

01:56

Same same. I always love having you on because you you actively, for years studied Hebrew, things like that. And it really does bring a different texture to the conversation of in time prophecy, whenever you were talking about, specifically Ezekiel, Daniel, things like that, to fully understand the Hebrew tradition behind these things in the Hebrew teaching behind them. So thank you so much for taking the time to come on and discuss this very important topic, Ella.

02:33

Oh, you're welcome. It's my pleasure, Chris.

 02:37

Well, um, let's let's start off because a lot of people I mean, I would, I would venture to say most people, whenever they hear the term in time, are thinking Book of Revelation, you know, the, the apocalypse of, of John, things like that. Now, many people I get, most people who've dug into the Bible, who've read the Bible, who understand biblical history, know that many of the references made in that come from the book of Daniel, come from the books of Ezekiel, come from previous Hebrew texts, and are leaned on heavily, showing the coming apocalypse, to the people of Rome, who were who were going through the persecution, things like that. So let's, let's really start getting into a zekiel, and the book of Daniel, and how that relates to biblical prophecy and prophecy of the End Times Ella.

 03:38

Yes, well, those are all good topics. And just want to say that the Old Testament, the books of the prophets contain all the prophecies about Israel, and about the end times. And just for definition purposes, I would like like to just underscore that what what we mean when we say end times prophecy, is this was a phrase that was coined when Israel became a modern state, which was in 1948. So that really began the beginning of endtime prophecy countdown because of what was prophesied in the book of Ezekiel, chapter 37. So So chapter 37, and I'm sure everybody, you know, is familiar with this because, you know, there was like a song about it, you know, in kindergarten about the Dry Bones, you know, this bone is connected to that bone, that kind of thing, remember, but that song came out of that chapter, which is when the Lord basically tells Ezekiel to prophesy over the dead Israelites whose bones were dried up in the land of Israel, and that he basically said that he was going to bring breath back into those bones, put flesh on those bones, and put his spirit back into those bones. And those bones would live again, and they would rise up to be a great army. And this essentially, is the chapter that not only prophesize, about the rebirth of the nation of Israel, but it also approves reincarnation in the Bible. Oh, I said that word. So trigger. So, so many Christians have problems with that, because they're taught otherwise, they're, they've been taught, and this goes back and I write about this where it began this this implant, this, you know, that that that makes them believe that reincarnation wasn't God's plan, but it wasn't it was all throughout Judaism,

 06:25

that it was it was a, it was an understood fact, in ancient Judaism to the fact I mean, that is where Sins of the Fathers comes in. Yeah, is the fact of you, you may be reincarnated back into your familiar line. Yes, that is exactly which is a very common belief in Orthodox Judaism.

 06:46

Exactly that. And this is the reason why in that Jews traditionally will name their children, the first letter, whomever last died in the family, because of the belief that the soul would live through the ancestral line and be reborn into the family. And you know like just like in Fiddler

through the ancestral line and be reborn into the family. And, you know, like, just like in Exodus on the Roof, when they were saying, Oh, why did they do this tradition, and that there's always a reason behind the tradition. And that is the reason and not gonna

 07:19

lie Allah, there's a reason why my son has my grandfather's name.

 07:24

There you go. Yes. So you see, and you don't have to be Jewish to practice that because it's an old, it's a very ancient belief. And I find so many Christians are so you know, blinded by this Oh, whereas they think that reincarnation comes from Hinduism. And let me just say that back in ancient times, the, the, you know, the Indus River, everything all came out of Mesopotamia. You know, Sam script and Hebrew are two of the oldest birth languages, and both groups were living on the planet at the same time, which is why they held similar beliefs. Okay, now, about rebirth that is not necessarily like one was monotheistic and the other is polytheistic. So that's a very, you know, big distinction in terms of ancient religious beliefs. But really, you know, so, you know, Ezekiel 37, clearly describes the rebirth, the reincarnation of ancient Israel. And this is a key piece in understanding and time prophecy, because of what it says in the book of Obadiah, and as well as the book of Revelation, where there's a prophecy and in Daniel, sorry, Daniel, where it says that, that that that they will look upon those whom they pierced, and they will mourn. Okay, as they see the Son of Man coming in the sky. Now, how is that possible? Okay, because first of all, you know, we're close, but we're not there at the Second Coming yet. And all those people the piercing is another is a biblical vernacular for crucifixion. So, so all those people who were involved in the crucifixion of Jesus Christ to over 2000 years ago, died there, they'd been dead and buried a long time. So how there's only one answer, okay, that that they can look upon those whom, that who may purist when he returns is that they're on the earth again, at that time, because they've been reborn they've been reincarnated so that they can have another chance. Okay, because it's God's grace to give you know, chances extra chances. You know, it's it's within the Mercy Seat of the Lord as to how many chances somebody gets? Well, I mean, you're a parent, you know how it is with children, you know,

 10:14

they will be unending. right answers. So

 10:18

when you, when you love your son, you love your daughter, you're gonna give them as many chances as it takes to get it right.

 10:25

Well, and two things to remember number one, that we as Christians tend to put our Christianity upon men, many people forget the fact that in Hebrew tradition, there is no

heaven, there is no hell there a shield. Yes, everybody goes to shield until the time of judgment, good, bad, doesn't matter. Everybody goes to the same place until the time of final judgment. And the fact that secondly, that, that I am going to make breath enter you and you will live. That once again, I get I've spoken, we've spoken about it whenever I've had you on the show before that goes straight to the heart of Jewish teaching and to the heart of Jewish Kabbalistic teaching. And the idea of we create because we have the breath of God inside of us, because we alone were the ones breathed spirit into yes and because of this these bones once again have that chance to create to to be full once again. So it's really interesting to see that concept of full reincarnation being used when you're talking about in time prophecy.

11:58

Yes. And it is it is rife, and I pull all the scriptures out and connect the dots in my book to prove this. And because this is a blind spot in modern Christianity, and I uncovered why, so I found the the history of of when they edited the Bible, and it all goes back to these to Roman Creed's. Okay, Constantine's creative 325 ad, which really began the official Roman Church doctrines of replacement theology and anti semitism and, and the war that they basically waged on the God of Israel, because like, Constantine's creed basically says that if anyone practices the feasts, the Jewish feasts, where they're actually the feasts of the Lord, they will be an athame, and a theme of Rome. And if they practiced the Sabbath on on a Saturday and not a Sunday, they were considered an eighth of an aroma and Judy ICERs if they refuse to eat unclean meat, same thing, so that became the church doctrines of anti semitism, and where they tried to strip the Jewish roots out of Jesus, they tried to strip him, you know, because he was Jewish. I mean, he came from the tribe of Judah, which is where we get the word Jew from it salutely Yehuda, because there's no j in the Hebrew language. So they were called Yeah, you know, yeah, who Diem and, and then, you know, in English, basically, after the 1700s, the J was introduced. And I mean, even the first King James Bible of 1611, didn't have the name Jesus in it was his Latin and Greek name, which was a Seuss. So they basically switch the eye for the J. And, you know, it's the English transliteration of Yeshua, which is what's his Hebrew name, which means salvation. So, um, you know, so basically, the history of how they put the Bible together was governed by Rome. And you know, here in America, we take for granted that we have this separation between church and state, because we don't actually have a theocracy. But in Rome, everything. Their politics and their religion were one. And when they decreed anything, whether it was religious or political, it was all the same. So this was a Roman governing decree, which has become a spell in the true sense of the word because people continue to live under it and they don't realize that it's a curse. So this is this is the stuff that I unpack in my books. because I'm trying to help people to get free, so that they can, you know, open their eyes and see the truth. So that's number one. Number two was the nisi and creeds and that came a little later, because the seventh Ecumenical Councils were editing the Bible. And so I found a story that with which I published in my fourth book covenants, that basically tells the reason that they were motivated to get the monks who were the scribes editing the Bible, to delete as much as they could, but you know, To err is human and they weren't perfect. All the scriptures that have to do with reincarnation out of the Bible, because they did not want people to believe in it. They wanted people to believe that you either get your life right now with the church of Rome, or you go into hell,

15:58

like there was no, no, it was a black and white doctrine Absolutely. And in even now, in a lot of

ways, is still very much a black and white doctrine. And

16:10

so when people see the history of how and why this was manipulated and orchestrated, then you can see that, you know, it's created another false belief system, which is actually blinded a lot of modern day Christians who really want to serve the Lord who really want to understand and time prophecy, but they're, they're blocked in, they're blinded, because they don't believe that God reincarnates people, but they believe that Jesus was resurrected, they believe in the Yeah, so it really is not much of a difference, because it's not something it's not a religion. Let me just point that out. People think oh, reincarnation is religious. It's not, it's a, it's a core belief system that is held within Judaism and all the world's religions, except for Christianity, because they were told not to believe it. So it basically underscores and highlights many of these endtime prophecies. And, and by not being able to understand that this was a core Jewish belief, they can never understand how these endtime prophecies were going to unfold. So for instance, I mean, Israel, the land of Israel was in a drought for 1800 years. Nothing grew there, it was cursed. Okay, so there were the after the second diaspora After you know, Rome destroyed the Second Temple, and all the the Israelites and the Jews and all the tribes had to disperse and leave and they moved all around the planet. And I sort of traced the lost tribes in my fourth book covenants, because there was evidence of them all over the place. Uh, you know, they, they, they went to Africa, they went to Europe, there was evidence of them in Afghanistan, and even in Japan, there there are Jewish temples and then I found evidence here in America through the Native American Cherokee tribe, who kept the oral traditions of the name of the of who they call great spirit. And they are the only Native American tribes that had this word and had this name because they preserved it you know, orally and they kept just kept it going. And that is the correct pronunciation of the God of Israel, which is your Holo. So, you know people call them Yahweh just because of you know, language and how language got watered down. Jehovah was a made up name after what that Rome actually did because of the the letter J, which has actually I prove in my second book, become a another entity. Okay,

19:10

yeah, the name of God would have been spelled YHVH. There there would be zero vowels whatsoever.

19:18

No vowels. And that's another piece that I found in the history was the Meza Radek Jews, because they were held captive in Babylon for 70 years. They had to listen to the Enuma Elish every day and so they decided this was like, their whole thing was to protect the sacred name of the Lord. So they didn't want the Gentiles to misuse it. So they did this deliberately. Okay, when they okay so they took it as you said, the the ancient Hebrew didn't have vowels in it. Okay, so when they They rewrote the Torah, the whole Old Testament, and they put vowels on all the words, okay to help people to read it. But when it came to the name of the God of Israel, which is written 7000 times through the Old Testament, they covered it up deliberately to confuse the Gentiles. And they succeeded in doing that. And they put the the vowels that comes from the NOI and Elohim, under the you'd hate, love, hate the tech, which is also called

the tetragrammaton. So that when people read it, it wouldn't read correctly, because they didn't want people to say his name in vain. So I pulled all the scriptures out about 3533 35 of them in the Old Testament, that actually commands the ancient Israelites, to say that his name to sing his name to thank to praise memorializes name, all these things to exalt his name. And, and there was a curse that was brought down on the the high priests, because they stopped a steaming the holy name of the God of Israel. And then this came and then what came out of it, they were so afraid of the curse and all this horrible stuff that happened to them. So the Masoretic Jews decided we're going to just protect it, cover it up and confuse everybody. And they did. Okay. So this is

21:38

history astoundingly. Well. Yeah,

21:41

yeah. So now you have all these extra names. And there's all this kind of conflation because, yes, the the Old Testament, the book of Genesis specifically, is a continuation of the Sumerian tale, the Sumerian history of the Enuma Elish. And this conglomeration?

22:01

Yeah, it's a good bet. And we just brought that up the other day, because it states it right there. Like, first story of creation, second story of creation, like yes, and they are labeled such and they are different. Mankind comes along at a different point. Mankind is created in a different way. One is Sumerian. One is Babylonian, it depends. And that's just it the the Jewish people. This wasn't written as time went along, you know, that this was written after they became a people, after they had spent as a try as one tribe, slave over here, another tribe slave over here learning different ways.

22:50

Yes, and there was so much movement around in the ancient world. And also then, of course, the floods, hay which, which wiped everybody's memory, and they had to kind of start all over again. And so when you see that the people in the genealogy in the book of Genesis, in the early part of the Bible, they lived 960 years. I mean, Methuselah, live night, but then after the after Noah's Flood, nobody lived more than 100 or 120. So so there was a definite genetic manipulation to Homo sapiens sapiens, from that happened after Noah's or during Noah's Flood. So this is the stuff that I studied with Zacharias sessions material, because, you know, like, a lot of people have gotten, you know, taken stuff out of context and sort of ran with it and create this whole, like, other belief system that the Annunaki created humankind. So what I prove in my books is that, yes, in fact, the Anunnaki genetically manipulated humankind, but they didn't create humans because the humans were already on the earth when they came. So so a lot of people have this sort of myopic viewpoint and they think, okay, because the Bible is 6000 years old, then humans must be 6000 years old, but you know that that is not the case. So, so the book of Genesis one one actually starts after the first flood, okay, which was the

sinking of the civilizations of Atlantis and Lemuria, which index Bible he calls that Lucifers flood? And this is significant in identifying who is the god of this world. Okay, and the Bible is very clear. You today's Bible, and even the New Testament is very clear. that, that Satan is the god of this world. I mean, Jesus even acknowledged that, okay, so and who is in my whole work is to, you know, figure out who, who are these? This, this whole cast of characters in the Altet? Who is Satan? Will Satan is just a Hebrew word, that means adversary or rebel. Okay, so that's why in my books, I make it plural because there's more than one. Okay? And yes, there's there is definitely like, you know, like a head, and like the head of the snake, so to speak. And, and Lucifer is definitely involved in that. But here's what happened with the church of Rome, and how they have and this is significant and important to understanding what's happening now. So the church of Rome, had Jerome, who they call now St. Jerome, was commissioned by the Pope to rewrite the Old Testament in Latin, so he was the first one to do that. So when he got an A, you know, these translations are only as good as the people who are translate if they understand the original language, to translate it. And because we know that there were several manipulations like even the Masoretic Jews, they deliberately flipped the vows to confuse so who's to say that, that they didn't do this in the Latin. And so this is what I found. So when I say a fourth, chapter 14, which is the only place in the entire Old Testament that this word shows up, and this is the chapter where the Lord is basically rebuking the the the being who rebelled against Him, okay. And he doesn't call him Satan. He calls him Halo. And Halo is an antonym for Hallelu. So it's like the opposite of Hallelu. So Hallelu means to praise which is where we get the word hallelujah, which is to praise your who was you know, and Hebrew is also, you know, famous for truncating. And, you know, like, nicknamed shorthand, shortening things right. So yah, is short for Yahuwah. So, hallelujah came from Hallelu, but her Halal is the opposite. And it literally translates to he who boasts in a foolish rage, and that's what he called this individual who I am kind of, you know, connecting is it to the Sumerian Mar Duke. Okay, so, and Marduk is mentioned in the Old Testament once as the king of Babylon and he was not only a king of Babylon, in ancient Sumerian texts, he was also known as the Lord of Nibiru. And that's where we get the word Mars from from him and he went to Mars, and he was in Babylon and he wanted to lay claim to the earth as well. So when you look at the Sumerian tale about who he was, and where he came from, he was the son of in Lille and the nephew of N chi, and he challenged both of them. He challenged his father and he challenges uncle who got murdered, okay, and then Lille ends up in the middle of the Earth, okay, inside the earth. Because of the his rape, all right, so So I connect linguistically these ancient names to, to Allah. Okay, so en lille ends up becoming Allah has 99 names, but that's one of them. So, so what did so back to Jerome? So what did you Rome do in Isaiah 14? How did he translate Isaiah 14, where the Lord said, the five I wills when he says, I will ascend the Most High, and then he calls him, you know, hey, Leila, the son of the morning, the Morning Star, he puts that word, okay. And he gives the word Lucifer, which in Latin means light bearer, okay or light worker. So, so Lucifer in and of itself is not a bad name, but it is who This being is. So he instead of translating it, you know, accurately like this is a dark theme that fell from heaven that is a rebel of the Most High God, and he's been rebuked, like multiple times. He's now Ella. They did him to a Christ figure. And, and it blows, it blows my mind and I'm sure it'll blow other people's minds, especially if you're deep into Catholicism that today's Vatican. You know, first of all, the word Vatican means divining serpent that they actually worship Lucifer, okay? They invoke him during their maths, and you can listen to this on their YouTube channel. This is not a secret. It's not done behind closed doors. It's done. But most people don't understand Latin. So when they go and they listen to these masses, and they like, Well, what did he just say? Like, unless you're really listening and following, they, they believe that Lucifer is Christ. Okay. So so, you know, this is so this whole religious piece is, is is complex. But if you start to, like what I've done is just like, where did these pieces come from? And, and how we ended up today, where today's Vatican has now created a new sect or new religious group called Chrislam. Because they have invited

the Muslims to pray at the Vatican. And they do they do their daily prayers at the Vatican, and they are calling it Chrislam. Because today's pope is leading this movement to create a one world religion. So, so back to the Jewish prophecies, the end time, prophecies that literally name who this this end time, alliances and coalition is. So what we have in the book of Daniel, Jesus talked about the book of Daniel. And he, he promoted it, he loved it, because he believed it because, you know, it was it was, it was happening. So Daniel talks about these four empires. And we know that, you know, there was the the gold, the silver, the bronze, the iron, and then the iron, and the clay, which is kind of the hybrid, which is where we're at right now, this is the end times the iron in the flesh,

32:27

the statue of Nebuchadnezzar, his dream is what you're talking about. Yes, correct.

32:31

And so the gold is the Babylonian Empire, which was basically around 600 BC, the silver was the main media, Persian Empire, which is significant, because Persia is today's Iran. And then the bronze was the Greek Empire around 330 BC. And then the iron represents the Roman Empire, which was around 27 BCE, and basically fell, because of Christianity. And then you have the iron in the clay, which is basically the Roman Empire. Part two. So what Daniel talks about is a revived Roman Empire. So when you look at the map, and you see, well, where was the Roman Empire? And were, they ruled over all these countries that have now become Muslim. And this is very significant to understand the end time prophecy that all these nations that are named by their ancient names, and some of them still have the same name, they're all Muslim. Okay, so the revived Roman Empire rules over or somehow is connected to this coalition of Islam. And what's happening in the Islamic world is that they're there. They're fighting amongst themselves. I mean, we we've been hearing about the division between the tsunami and the shears for years. Right. And this is why Iran is arch enemies with Saudi Arabia because the Saudis practice a different kind of different branch of Islam. Yes, and they're not they're not jihadists, the the, the Iranians and the Turks they're, they're moving into that jihadi. And they believe that every the whole world should be Muslim. Okay, so so when we look at the book of Revelation, and we see that in the end times, people are going to be beheaded by the Antichrist and was like, Well, who does beheadings anymore? The Muslims, the Muslims are still doing beheadings no other religion on earth practices beheadings. Okay, and then we see words like barbarian and Skiff. Ian's Okay. Which the skiff Ian's the ancients get the INS actually, were in the geographical location of what would be considered today's southern Iran. Okay, and the Scripture calls them barbarians. Because Because even the Roman Empire was scared of them that they were so intense. They were so strong, and they did such horrible things. So what are we seeing on the planet today? Well, you know, you know, ISIS, you know, Muslim jihad, Hamas, Hezbollah, it's all you know, the same 10 headed dragon. And when when we see the scriptures that talk about the 10 horns, and for years, Christian eschatologists, surmised or hypothesize that those 10 horn horns represent power. So they were you know, like, like nations of power. They thought it was Europe. Okay. But I have connected dots. And I am saying that it's the Muslim nations, okay, that they are the the 10 heads of the same dragon. So you have you have a so a DOM, okay. Like an Obadiah. This prophecy is that the Lord is going to punish a DOM and E DOM is today's Palestine, Palestine, Jordan area. He says I will destroy their clever men wipe out their wisdom fighting men of team on which team on is

today's Yemen, which is also one of the most radical Muslim nations. And also, he talks about how that you stood aside on the day when the enemies broke down Israel's gates. You know, he's basically pulling up the past and saying, you know, and this is the thing about the past, is that the past is prologue. And we cannot understand the future unless we really have a grasp on what happened in our history.

37:44

Yes, yes, yes, absolutely. And, uh, you know, it's funny that we come to this point of this conversation at this point, because I wanted to divide this between the history of what we're talking about, and how the history of what we're talking about applies to what's happening right now in the news and in the world. And this is a perfect time for us to take that break. Let everybody kind of digest what they've heard for the first 40 minutes here. And when we come back from commercial break, folks we will get into in time prophecy, how it relates to what is currently happening in the world around us the way that Ella has broken it down is pretty eloquent here. And we'll be getting into of course, the idea of prophecy being changeable Don't forget there's always an out with actual prophecy folks. So we will we will talk about these things when we come back from this commercial break. 40:23

Yes. Well, hi. Thanks for having me back. So, you know, I'm all about who who are the cast of characters? Who are these names that were named in the ancient texts. Some of them have changed. But they're still the same grouping of people, of tribes of nations and geography. So, you know, what's what's just happened when Hamas attacked Israel in in a cruel, horrible, unprecedented way. We are seeing that, that this is not an isolated incident. Okay. And the it is the first time that that has happened in Israel. I mean, they've had four wars already since Israel became a state. And everyone is comparing what happened October 7, to what happened on the Yom Kippur War in 1973. Because they will take him by surprise. So so that's a similarity there. But this, you know, a lot of people think that this is a war between Israel and come us and that is not accurate. This, this is a war. And this is the net this is this is part of the end of the beginning of the end times War, World War Three, that is between the, the jihad, the Muslim nations, the Muslim Alliance coalition, okay. And we can name all of them, because they're all named in Obadiah. And Ezekiel, and the, the Old Testament of this whole coalition, which includes Iran, today's Iran is ancient Persia, and the Barbary that the Bible actually uses the word barbarians, and Skiff Ian's, which used to be in this area, which was in around

Southern Iran. So what were they all going for? And this is that my first book, book one talks about this ancient space portal, which we call today, Jerusalem. Okay, so Jerusalem. Why are they all fighting? Or why have they been fighting over Jerusalem because Jerusalem belongs to the God of Israel, and it's an ancient space portal that Zachariah Sitchin proved through the Sumerian tablets, that this was a spaceport, okay, all the way in the deep past. So what does the Scripture say Zachariah? I'm not I'm not talking about Zechariah Sitchin. This is the book of Zechariah. Chapter 12, verse three, says that in that day, the Lord says, I will make Jerusalem a burdensome stone for all the people for all the nations of the world, all that burden themselves with it shall be cut into pieces, through all the people of the earth will be gathered together against it. That is the End Time War, okay. And the battle of Armageddon. The word Armageddon comes from the Hebrew Har Megiddo, which means mound of Field of Blood, which is outside of the city gates of Jerusalem and this was an ancient battlefield that they would all meet and you know, fight, you know, guerrilla warfare type fighting. Yeah. It's interesting. I mean, it's a horrible, but it's it's a it's a connection to this prophecy that Hamas burned that, that field on on October 7, and eighth, when when they were, you know, going on a rampage and the field and the fields of Armageddon, were just burned to a crisp. So nobody was really there. They just burnt the land. So whatever they were doing is right in line with all of these prophecies, who they are, who they represent. Who has funded them, which is Iran. Okay. And Hezbollah, Hamas, Hezbollah, doosh ISIS, they are all these terrorist organizations, jihadist organizations that have been funded by Iran. And so the end time World War Three is according to Ezekiel 38. And 39. The final battle is Armageddon, but that happens after world war three that is like the the final battle, but World War Three happens first. Okay, and what it says is that a coming prince that comes out of the revived Roman Empire, right, and, you know, the Antichrist has multiple names throughout the Old Testament, as well as the New Testament. So in the New Testament, he's called the son of perdition, the man of sin, but he is this person, okay? This this man that also says that he will hold no affection for women. So so people interpret that that maybe he's a homosexual or maybe he just, you know, is against women. Okay. And Islam is pretty anti women, pretty anti when they see women as as sleazy at least

46:17

the hardcore sets of it. Yes, absolutely. Orthodox.

46:23

Yes. The Jihad so this is that so somehow they're all pulled together, all these nations. So the, the scriptures talk about who they are, I have identified them in their modern names. Some of them are the same, but so like Meshech of so a lot of Christians get confused with the Gog and Magog references in Ezekiel 38 and 39. And also in Revelation 20. So is Eagles prophecy talks about God will be the leader of a great army that attacks the land of Israel. Okay, and the land of Magog. So may God is a land, which a lot of historians believe was these ancient lands of Turkey, which today we would call Turkey. And even bordering where there is Russia parts of what today is now called Russia and also so, there is also let me just get this. Okay, so Phoenicia is Lebanon. Zahra fath Sara find is also part of Lebanon today. Sardis is Turkey. The Negev is Judea, which is an Israel. That's where I went to school in the Negev, that is still part of Israel. When I was going to school in Israel, the Sinai actually belonged to Israel. And then they gave it to Egypt. So the the land that that God gave to the Jews was, like 100 times bigger than

it is today. So it's been cut up so many times, and they're still fighting over these little places. So now, what just happened with Gaza is all part of the prophecy from Obadiah, which is against the Palestinian against the dome. It was ancient Edom, and Esau the mountains of Esau, which are the Palestinian West banks. And basically, the prophecy talks about the Lord Himself is going to be the king of that kingdom when he returns. But but the surrounding nations or these Islamic nations, that that we go into Ezekiel 38 talks about how they come against Israel. So So Meshech Roche metric and two ball. A lot of Christians think Roche is Russia. But Roche in Hebrew means head. Roche means like, like a president or a government leader. And back in those days, they didn't call it Russia. In fact, we we only started calling it Russia recently in our lifetime. When I was born, it was the Soviet Union. So there were other names for that land. But the prince of Rosh, Meshech and Tubal, you know, they think that that's modern Russia, but those words Meshech and Tubal were actually in the land that we call today, turkey. Now, what has happened recently over the past two decades is that Turkey has gone from being a secular nation, to now Islamic nation. So Turkey was such a cool place to go. Even his rallies used to go vacation there. Now, it's being run by clerics and radical Islam. And what's his name? The Turkish guy?

50:22

Heard one ever again.

50:24

Yeah, whatever. Or one, he wants to make it in Islamic State, like a theocracy. That's his goal. And his other goal is to lead all the Islamic nations, like he wants to be the head of all of Islam. So you're talking about all these other countries, which we call the stands. Okay, so you've got, you know, lose Becca, Stan, Kazakhstan, Afghanistan, you know, all these stands that are also, I mean, the Taliban is associated with Afghanistan, but they're all you know, radical Muslim nations radical Islam is what they practice. So he, in the end times, this is what it says is that there's going to be a coalition. Like they all come together, there's like 10 heads under the same one, head or dragon and that's where the word Roche comes from the head. So even in Hebrew, they call like, Rosh Hashanah is the head of the year or Roche, Holmen. Shala is the word they use for prime minister who is the head of the government. So that's why I'm saying that Roche is not Russia. But it's Meshech and Tubal, which are, which is Turkey. And again, it falls fits into the theme of the coalition of Islam. Sure. So and then, and I'm also questioning this, I don't know, it's just, you know, it's it's their words, that that appear in the Old Testament multiple times, as well as in the book of Revelation is gonna make us who is Gogue? Okay, God sounds like a giant. Don't, don't you? I mean, like, you know, if you will, like watching a movie like and, you know, here comes this 30 foot, you know, giant being, I mean, wouldn't God be a good name? So there is no reference. Okay, that says that it's that it's a person. But I am saying that because of the supernatural power of this being named Gog, that it's part of the beast, it's part of the Antichrist army, that, that rises up in the End Times. And they all go against Israel. So what is the thing with Israel, so it's Jerusalem, it's this ancient space put. So let me let me just tell you go back to a little history here. So Babylon took Jerusalem 2600 years ago, then Persia, which is today's Iran took Jerusalem 2500 years ago, then Greece took Jerusalem 2200 years ago. And then Rome, took Jerusalem 2100 years ago. And then the Muslims took Jerusalem 1300 years ago. And then the Ottoman Turks, they took Jerusalem 500 years ago. And then the British, they took Jerusalem from the Turks a little over 90 years ago.

And then just over 40, short years ago, God allowed Israel to once again have Jerusalem as their own capital. So this is what they're fighting over. And, and this statement, which is, you know, public, from Iran, has said that they are going to use jihad to liberate Jerusalem from Israel from Israeli control, and, and they're not going to stop until they do. So that is the battle lines of world war three. And all that, you know, as anyone who studies history and who studies World Wars, World War One was, is connected the same themes were repeated in one way or another, to World War Two. And then of course, World War Two was the Jewish Holocaust. But anti said the anti semitic rhetoric and all of the tropes and everything that everyone's been dealing with started in World War One. And that's why Hitler came into power because because they were so flattened. The Germans were like, you know, yeah, just help us help us. They

 54:54

were they were reaching for a national identity again, and I've said it on the show. are numerous times we are scarily scarily right at that point. I mean, no, yes, it's no different band in books than burning them folks. hate to tell you, you're you're still thought police and you're still keeping people from knowledge.

 55:18

Exactly why this war that is happening now in Israel is really the beginning of it's, it's, it's our war to defend our freedoms, okay, our freedom of religion, our freedom of speech, our freedom to be who we are freedom of equality between the sexes, the genders. And that's why whatever is going on in Israel, is is going to be felt all around the world. And if it hasn't already, and people hear, I mean, it's like people are saying that oh, that's like Israel's 911. What we went through here, on 911, it's very, there's a lot of similarities. But what people are now waking up to after these atrocities that, you know, we've been seeing that has happened since October 7, is that this could easily like anyone if you think it can easily happen here in the mainland of the United States of America, and for anyone to think otherwise. I mean, they are trafficking people across our southern border. Okay. And some of them are actually coming in from the Middle East. So so they are establishing it's like, what, there's an old saying, like the cat, the camels nose under the tent. Okay, which means that they come in and you know, great invasions happen in secret, like, like, everyone is saying, oh, there's gonna be an alien invasion. Well, you know, the aliens are already here. All right, they, they've been here a long time. That's why we call it the alien presence, because they live inside the planet. So so they're not coming from out of space to land on Earth. They're already here. And the same thing here in America. They're this this. They're setting the stage for world war three,

 57:15

I will show a statistic that I bring up on the show all the time, and somebody recently called me on it, they're like that can't be. It is folks, I am here to tell you, we are more ready to kill ourselves in America, and to have a civil war than we are to fight a World War.

 57:36

That's chillin

That's chilling,

57:38

the number of people killed in the American Civil War is literally more than the number of people of Vietnam World War One and world war two combined. Wow, combined. We are more ready to go brother against brother family against family neighbor against neighbor, then we are to carry it on across the global Ella. And that's frightening. That is, like you said that is a chilling number to see in front of your face. That is a chilling number. And I know that we killed more brother on brother than we did other people doing something to us. And that's a mentality that has not left us. Yes, because of Palais I don't care who you vote for, I will have Christmas at your house. I will come have Yom Kippur at your house. Like I don't care. I don't care. But for some reason, we have gotten back to a point where if you vote for something that I don't like, like, we may as well put a wired fence between our lungs. You know, when so it's frightening. It's frightening.

58:58

It is frightening and you can't just disagree agreeably anymore. Yeah, where we used to have this where we embrace that that was our freedom of speech and, and our individuality and the fact that we were many parts like a tapestry that made up a hole. Everyone is disconnected and why is that? So my new book that I just published in August, which is a republished book one as an expanded fourth edition, I added 20 extra chapters and expanded it into a seven by 10 to fit everything in because and all the old stuff is in there about the A to Z of who the ETs and the aliens are, but this was something that that that just kind of like hit me really strong because of what you just said. And there's a Mac of value in alien agenda at play. You know, you know me I'm, I'm about discernment. I don't I'm not one under these like oh, all all is this was that and like Christians I stand in the middle between Christians and a new agers were Christian Oh aliens or demons. No, all demons are aliens but not all aliens or demons and they only have half of the story and the reason that they only have half the story is because of these doctrines of anti semitism. They basically kept 100 Jewish, ancient texts away from them. And that has the rest of the story in it about the extraterrestrials and it's in the Bible. Today the extraterrestrials are in biblical prophecy. There. It's still in there still a lot

1:00:40

there. And and though What's crazy is that there, there was plenty of editing done after the Council of Nicaea. That's just for the final version. Like okay, after that, like geez, Martin Luther and, and, and the good King had a great time taking out Tobit and Belen, the dragon and all sorts of other apocrypha. But yes, absolutely the first one. And there, there are probably many Catholics. I know right now. They're like, Chris, where were you a while ago, I'm right there with the truth, folks, is where I am. As much as I hate to say it, like, sorry, Jesus was much more of a Virgo like me than he was born in December, feel free to look at the actual like star that was followed and where it was at the approximate time, even the fact that we aren't even on the same calendar, as an unbroken civilization. Like, Judaism is on a totally different calendar than the rest of the world. Totally different.

1:01:45

This is true, and even even their calendar had to be adjusted multiple times because they keep messing with things. That's why I don't like making calendar predictions, but you're like, Oh, this is where we're at, and what's going to happen next, what's going to hold?

1:02:02

And there's those things that are in there that the prophets say the quote Signs of the Times. And and the thing is, and this is what I always tell people, This is one reason why I have not done a show on Nostradamus. I would be interested if you know a Nostradamus researcher, Ella feel free to get him at me, I would love to do a show on those predominance, but I cannot call him a prophet. I can't call him a prophet because there's no way out. And with proper prophecy, there is always a chance of redemption, there is always a way out. There's always a way to backpedal. There is always a way to put the pump the brakes and stop things. Well, and that's kind of what the signs of the times are about is to be like, Hey, forget a warning flag. Here's a flare, boom, you know,

1:02:56

because all of the profits had one thing in common that was a common denominator that they all said including Jesus Himself. Repent. Yeah. And that's how you change that's how you time travel. That's how you change your past that's how you change your future. And that is what we have the power to do we have the make that decision and we can change everything in our own timeline. So So you're absolutely right that is what is within all these prophecies but but why did these prophecies seem to unfold and come true as they're spoken is because people are or you know people recalcitrant and they don't want to repent and everybody's virus

1:03:42

sadly, sadly predictable animal Yeah. In our behaviors, spiritually humanly,

1:03:52

and that's how the aliens are able to manipulate us that's why I call it an iMac of alien alien agenda because they it is Mac of alien has to do with the policies of dividing and conquering. And this is old, this is ancient and it's worked time and time again and if they can keep us from realizing our true power, which is in unity. We are powerful when we come together. I mean, look at what happened in the past. Whenever we all coalesced, and we all came together and forget our little petty differences. We moved mountains we got somewhere the same thing in Israel when you when you like everyone in Israel right now is all on like they're all together because they're all fighting to preserve it. And this is what has all these wars have always brought people together. 911 brought a lot of us together. I mean, and then everything fell apart again. But you know these types of things have opportunities in them. So they know the aliens know the powers that were We were not against flesh and blood. We were against powers principalities, rules in the dark. witness of this present world and spiritual wickedness in

the heavens, which are the aliens, the powers the archons that will this planet. They benefit from our division. They benefit from our strife and the wars because what happened fear and the fear and the shock and the or is that our energy? This is the louche. This is the loose the soul energy that gets emitted when everyone is is shocked, terrorized, hurt, going in pain, sorrow, all of the misery that that that division and war and conflict happens whether it's, you know, political differences that you know, we talked about that people can't even talk to each other families don't talk to each other people unfriend, they unblock. I mean, that's minor compared to, you know, being beheaded and burned alive and tortured. And all these horrible things that that the Muslims are doing, that are creating even more of this like, louche energy because now everyone is suffering. Okay, so So someone is benefiting from that. And who that is, in my opinion. And what I've sort of identified is this alien prep, these are the negative aliens that are holding on to their power. This is what the Bible calls the god of this world. And it is in there they are the ones that start these are they are creating, that's why the Lord had these prophecies written so accurately, because he knows who they are. Because they're there they come at they're, they're coming against him. So I want to I want to say this is very important piece, because there's all this, you know, what happened in Israel has has opened up another can of worms of anti semitism, and not that it wasn't there because the anti semitism has has grown back to where it was in World War Two pro levels, because of how this is a

1:07:08

very open anti semitic vibe.

1:07:12

Yes, but it's being taught in what has been called hate space, hate spaces, which are these college campuses around the country, University of Berkeley, California, University of Colorado and Boulder, I mean, there's a whole list of them, okay, that are teaching this pro Palestinian anti Israel rhetoric that is basically churning out these students to hate. That's why it's called hate spaces. This has been going on for almost two decades now. So we have, you know, the culture has now come back to where it was around World War two levels of anti semitism. So now you have the jihad that are like, clearly anti semitic. I mean, they hate Israel, they chant. This is not conspiracy theories. This is facts. On October 7, when Hamas was attacking Israel, the Iranian parliament, put, they were chanting Death to Israel and death to America. They put us together, okay, because America backs Israel, and Israel is our ally. In the Middle East End, America has national security interests in Israel. The partnership is deep, and the partnership goes way back. And it says in the book of Revelation that when all the nations of the world go against Israel, there is only one and nobody is left to defend them, except an eagle. And some people think that is us. Okay, because we're represented by the eagle. But basically, what I wanted to say is that it's the Lord. So it's the LORD Saves Israel, okay? And it says here, that he lets all this stuff happen, because he is making a statement, and that he is one, that he is the Lord that He is the king and that he is true to his covenant. And even if they broken their covenant to him, he's keeping their His covenant to them. So whenever he this is why all these wars that they have fought since 1948. It is against all odds, it's always against all odds. They're always outnumbered in some one way or another. And it's always the Lord that somehow turn something around and they end up winning. And it's not because Israel is so righteous, okay, cuz they're not because there's a whole lot of, you know, secularism in Israel, they got they got

1:09:54

a whole a whole pack of problems of their own going on when it comes to that You know,

1:10:01

internally and they're all on the same page except during wartime theory.

1:10:05

Right? So all kinds of things.

1:10:07

Yes. And the Religious Right. There's, there's a big movement for the rabbis to take over. And this is what you started the show with with the Third Temple. So that's how that's gonna happen, because they're already ready. They have everything they need financially materially in place to rebuild this third temple and this. So there's three reasons. Okay, politically, why Iran used Hamas to attack Israel. Okay. Obviously, the Palestinians are have been used as pawns in this war against Israel for the longest time. So they're, they're victims. And they're also

1:10:54

yes, in Texas, Israel read heifers needed for the temple to arrive.

1:10:59

That because that's part of the prophecy. And heifers, so they're already the only thing and then this this other piece happened, which was this alliance, the Abraham accord between Saudi Arabia and Israel, which was unprecedented. And that happened like two weeks ago before the attack happened. And who is the arch enemy of the Saudis? I ran, I ran in Saudi Arabia, our enemies and get this, it says in the Old Testament prophecy, that in that day, Persia, is going to destroy Arabia by fire. So Saudi Arabia is ancient Arabia, the only reason it's called Saudi Arabia is because of the Royal Saudi fat the Saudis. And now it's called, but it's still Arabia, it's still, you know, the biblical Arabia. And Persia is today's Iran. So that's the Scripture, it's going to destroy that, that Persia will destroy Arabia will destroy Mecca. It says even specifically Mecca, because that's where they go for their pilgrimages by fire. So that connotes a nuke. Okay, by fire. Right. So. So this is a ancient stuff between them. All right. And so when they saw that, that the Saudis and the Israelis got into the Abraham accord, they didn't like that. And that's all also part of this attack. I read. And I can't confirm or deny the authenticity of it. But I'll just tell it to you. Because everyone is like, oh, you know, how come? How come the Mossad didn't see this coming? How come Israeli intelligence failed? Why did they say this? This was obviously planned. You know, it was a whole elaborate thing. The Egyptians said that

they that they received intelligence that this attack was coming down the pike, four weeks before it happened, four to six weeks before it happened. And they informed the Israeli government, and apparently, they were ignored. So it's very similar to what happened to us in 911. Where, you know, President Bush was given intelligence in August about this and they didn't do anything about it, and then it happened. So I you know, there's going to be a lot of could have, should have would have, you know, if anyone has seen an I just did recently, on Rosh Hashanah, believe it or not, the movie, Golda, which is played by Helen Mirren, which is basically Israel's taking Israel story like from is from, from Israel's point of view on the Yom Kippur War of 1973, which is what they're comparing this to, and how they didn't see it coming and the decisions that were made or not made and all the mistakes and how they backpedaled it will, it's very, very similar. So history repeats itself in many ways. One of the main messages here that is that again, a common denominator, in all of these attacks on Israel is how the Lord saves them. Nobody's is on their side except him. And he comes like at the 11th hour and saves them because he wants them to to see that he is the king of Israel that he is their God and their Lord and a lot of them have sort of like, you know, like it's split the religious right? Yes, they believe in God but they're so like religious that they can't even see straight. You know what I mean? Like everything is people is a minute's that religious spirit that that caused Yeshua to be crucified. But the they do find a lot of people think, oh that Israel has abandoned God. And that's not true, because most Israelis believe in God, however, there's a half of them are secular. Okay? And this is again another piece of the endtime prophecy. So one part has already come true. And that is these equal 30 where the Lord brings ancient Israel brings the Jews back to the their own land, it says so when he's Eagle 37. So they're back in their own land. And I think now there's probably knowing 10 million, something like that. But the second part of the prophecy is, also we're starting to see unfold. And that is, when Israel when Jerusalem, acknowledges who he is, and says that he's not coming back until they do this bless it is he who comes in the name of the Lord. And so when I was living there in 1976, to like 1982, like, they didn't even have New Testaments in Israel, there was nothing you couldn't find one in a library or a bookstore. Now they're allowed New Testaments in Hebrew, so Israelis can read New Testaments. I know a handful people. I know a handful of people here in Colorado that were kicked out of Israel, they're Jewish, they're Messianic Jews, like me, they believe, you know, that, that your show was the Messiah, and they were kicked out of Israel for for talking about it. Okay, now, they have organizations like one for israel.org, which is messianic Israelis. And during the pandemic, they grew, because people had nothing better to do than sit and watch videos. And they put all these videos out and and now, so the numbers and the numbers are not always accurate, because there are people that don't actually report so you have to kind of have that margin of error. 50,000 Jews living in Israel believe in Yeshua, okay, and maybe even like, 100,000 worldwide or something to that effect. And that's the last time I checked Jews for Jesus, they kind of keep track of these things. But it's, it's hard to get it because there's so many people in Israel that do believe but they do they keep it to themselves, because they don't want the, you know, to be mocked or excommunicated, like, like I was from their Jewish family. So, so this is a very big piece of endtime prophecy, because the 144,000, which are the 12,000, from each of the 12 Less tribes of Israel. So there's one tribe that got cursed, and that the tribe of Dan, so Joseph had the double portion. So Joseph gave it to his sons, Ephraim and Manasseh. And a lot of us believe that if I'm a man and Manassa ended up in England, and America, okay, so we, we are we are from because they had the double portion, they had the extra land. So so it is it is the it is God's will to bring 12,000 from each tribe, to the land division, and this is not just on the planet, but back to Israel, okay to be representatives of him during these End Times. Okay, so that's all that's needed as a remnant. It does. The whole entire State of Israel doesn't need to all everyone has to believe the same thing. There's got to be a remnant. And that's how he's worked in the past. But his whole thing, the common denominator of all these prophecies is that he saves Israel not

because Israel is righteous in and of themselves, but because God is because God is going to show them and the world, that He is God that He is, Lord, that He is the king, and he keeps his word and he keeps his covenant despite the fact that they haven't. So I'm saying this because I see all this, you know, all these anti semitic tropes online about all while they're being punished. You know, it's like we Jews have been punished. Like, we can write the book on punishment, okay? Like punish beyond belief. Okay, enough with the punishment, we are under grace. Okay. That is the new covenant. And if people want to keep the old the old law, it says so if you keep you're going to follow the old Lord says on the end of the book of Leviticus, that there's like 635 laws and if you want to keep the old law, that means you have to keep it perfectly and if you break one, you're you're guilty of breaking the law, which is the reason why you show a cane, okay to basically

1:19:58

give gives the New covenant of grace, that we are under the grace of God, right, which is, which is a supernatural thing, which is not something that we can do it and this is this is where God gets the glory and he gets, he gets the credit for this, he gets the credit for salvation, people are not saved because they're perfect, or they follow this religion perfectly, or they know Scripture perfectly, or any of that stuff. That's all like, you know, outward stuff, that's religious spirit stuff. We are saved because of the grace of God, and we accept it, you know, I mean, that not everybody's accepted it. So it's almost like, like, like having a credit card, you know, when you have all this credit, and you've never activated it. So this is what the and it's easy. It's not rocket science, you don't need to be, you know, go to your Shiva and all of this, you just need to accept what he did to bring it all to it to bring because it's his unique role, as in Hebrew, it, he's called the Moshe nadeet, which means the Messiah King. So it's his unique role to bring everyone together. Okay, so that is who he is. And that's what he's going to do when he returns. However, this is where it gets complicated for all of us. And this is where the discernment is very much needed. And that is, before he comes, we will have a counterfeit Messiah, who will attempt to do those very things. They will he will attempt to unify the world through a one world order a One World Religion, a one world government and a one world currency. And he will control who can buy or sell or be in that economy. All right, and if you don't do things his way, he will bet. That's what the Bible says. That's the prophecy. And that's why whoever This being is, okay. And we can we can talk about who he hasn't, he hasn't emerged yet, because he emerges on the world on the global scene. At the end of world he ends world war three. So all these nations coalesce and go after Israel, and he's the one that makes a peace treaty between Israel and all of her enemies. Okay, so he is looked upon as this Prince of Peace. He is He is a peacemaker, and he has supernatural power, says in Revelation 13, that he has the power to cool down fire from heaven. Okay, which is biblical vernacular for alien technology, you know, weapons from weapons from space, fire from heaven, weapons from space, so So, but we don't know who he is yet. But he comes out of I surmise, this is my hypothesis, I could be wrong. But I surmise that in order, because it says that Israel accepts Him as the Messiah, which is David and he gets the temple built, he's the one who gets this temple built, he sits in the temple, and he declares himself God, okay. And Israel thinks that he's, he must be their Messiah. So they get tricked. They get deceived. This is what this whole seven year and it's a seven year tribulation, that's what the book of Daniel tells us that it's seven years, and, and everything changes halfway into it three and a half years, he starts off as one thing. And then three and a half years into it, all hell breaks loose, and it's the worst persecution that has ever happened in the history and even worse than Hitler. So so, you know, he has all these different names. And Daniel calls him a coming Prince. So this is interesting, because when you start delineating and discerning and like picking apart who these beings are,

so let's go back to that. You know, that story about the Michael, Archangel Michael, Archangel Gabriel, and Daniel and the Prince of Persia. So there's this whole drama and dynamic that goes on. And, and, you know, you know, the story about Daniel in the lions den and, and, you know, he had to God proved that Daniel was with God. And so the king saw that he didn't get eaten and, you know, and so, Gabriel was the angel who had to deliver a message to Daniel, but he couldn't get through because the Prince of Persia, it says was blocking him. So he had to go. This is very little bureaucratic in a way. He had to go to Michael, Archangel Michael, who was put in charge as the guardian of Israel. That's his initial official role. That's what it says in the ancient scriptures who he is today to New Agers is a whole different Michael. Okay, but the ancient Archangel Michael was put in charge of protecting Israel. Okay, so he had to go to Michael, and get Michael to push back the Prince of Persia, so that Gabriel could deliver this message to Daniel. I mean, it's right there. This is what this is what it says. So we see that there is some kind, you know, this is where people go, Well, you know, why are my prayers getting heard or answered? It's like a hard heaven. There's a you must have heard that term hard heaven, like you're hitting something and you're not getting through. And that's because there are these Archons princes, principalities, and princes are another word for like, Ark. So there's seven are their seven archangels and their seven Ark demons. And they're all princes. So when Daniel talks about this coming Prince, that is going to, to basically rule for seven years, he only gets seven years one week, okay? Because there's there's there's a whole thing with the timing, and it's very precise. And so far, it's been very accurate. We just haven't arrived to that final week yet which begin the seven year tribulation. So the seven year tribulation is also known as the time of Jacob's troubles. So Jacob, as you know, became Israel. So this is this is the trouble over Israel, which is why, you know, Zachariah says that Jerusalem is going to be this burden, some stone for the nations, because the whole world is going to get sucked into this final battle there. So So So what happens with this coming prince who is the antichrist, he, he's very eloquent.

 1:27:25

He, he, everybody falls in love with him, he brings peace to this war, that no one and he's the only one that does this, because everyone has tried and has failed, and it's one of our American politicians, you know, goals is, oh, we're gonna make peace in the Middle East, we're gonna bring peace between Israel Elsens, and nobody's able to do it, but this man does it. Okay, and everyone worships Him, because He finally brings peace to this ancient war. And everyone is just like, oh, and then they have this time of what the Bible calls a false peace, where Israel feels like, Oh, now they're safe, and they're secure. And everything is going well, until all hell breaks loose. And who This being is, well, you know, based on what it says, who he's going to be, where he's going to come out of, and how Israel is going to accept him. First of all, I can tell you flat out that Israel would never accept someone that they will say is their Messiah unless he had Jewish blood. Okay, because for years, couldn't even get it the law of return, which is the law of Alia, meaning, you know, like anyone who's Jewish on the planet, is welcome to emigrate to Israel, as long as you're Jewish, okay. And then, you know, people convert to and they have to show their conversion papers they're allowed into, which is the reason why the Messianic, the Jewish Christians got kicked out because they don't want their they're offended by Christianity. And, you know, if you look at history, you understand why because of, you know, the inquisitions, pogroms, Holocaust, you know, all of this got a couple of reasons, a couple of reasons, all sort of orchestrated, and funded and put forth by Christians. So that's why Israel is a little shaky with. So this is why it's like so radical for Jews to accept your show up in Israel. So when you have this 144,000 that is going to be living in the land of Israel representing Yeshua, that is when all this starts to happen, because then God will have the

Lord will have achieved his remnant and that would be considered the 140,000 as the remnant and they are used stuff in, you know, the events that take place. So the temple is a major marker of the seven year tribulation. Yeah, because and get this so get this. So here's another piece, okay which which is where deception and you know counterfeiting come in. So right now this is happening this has been happening since 2013 is that the Jews in Israel are chomping at the bit to build this, they can't build the temple. So they're reinstating animal sacrifices. So on Passover, every year, somebody goes up to that temple mount, and basically slaughters a goat or a sheep. So just the of that just recently, because we just had Yom Kippur war and Russia. And so because somebody tried to sacrifice a sheep, and they got up, this was before the Hamas attack, and they got arrested by Israeli security. Another reason that the jihad jihadists, the Muslims do not are attacking because they don't want to give up this stronghold that they have on the Temple Mount, which is the Al Aqsa Mosque. Okay. So, back in the 1980s, I guess, when I started really getting into all of this stuff and questioning, like, how is this going to happen? Like I was really into the prophecies. And I kept asking, Well, God, how is that ever going to happen? Because I lived in Israel, I went up to I visited there, I don't know multiple times and security is very tight. And they they didn't they have very, you know, like, defend definitive boundaries, they do not want Jews, there's all kinds of problems there. The only way is something supernatural that is going to come about that is going to destroy the oxbow mosque, okay, either like an earthquake, which is something that is supernatural, right? Like it's not like an attack, or something happens that is going to cause them to build. And here's another big piece, a very big piece is that the Muslims are now wanting to be part of this third temple. So there's ongoing negotiations between the Muslims and the Temple Institute in Jerusalem to build this third temple as long as the Muslims can be part of it. So don't you think that that's an interesting piece that pulls in this endtime prophecy? Oh, absolutely. Absolutely.

1:32:45

And, you know, once again, it is it is thick, it is it is a hard topic to talk about. It is a hard topic to digest. And especially whenever you start looking at what is happening and what's going on. It makes it really hard. But it's something that we do have to consider and something that we do have to talk about when looking at motivations of people when looking at why people are doing things that they are. So yeah, I want to thank you for the time on this. It has been more than in depth, talking about all of it and going through what is an amazing breakdown that you put together Allah truly.

1:33:39

There was just one thing I absolutely pleased with myself, I just wanted to that one other piece is what the the Antichrist does. So they reinstate the the sack of the animal sacrifices, which they've already been doing without the temple. They're gonna do that in the temple. And he stops it. It says in the in Daniel that he puts an end to these animal sacrifices, because he gets all this pushback from all these people who are already pushing back on animal sacrifices, like you know PETA, and and all these animal rights groups in which in Israel is, is you know, they're growing. They're people just don't want that. So he stops the animal sacrifices. So that is the beginning of that halfway point. And then all hell breaks loose because he feels like he wants to be worshipped. They don't need to sacrifice the blood of animals and really anyone who believes in Yeshua and what issue it did for all of us, no animal or human can outdo his blood sex done. It's that's it, it cannot be, you know, which is where

1:34:48

would be interesting, though, if it's come the point of sacrifice of the heifers that is forgotten in such a way So that is that is something to keep your eye out for folks. Because once again, yes, for the building of the new tempo there, there is supposed to be a sacrifice of read efforts for that to happen. So it would be interesting to see if cuz talks are happening as we speak about the building of the new temple. Yes. It'll be interesting to see if that comes to bear as the case.

1:35:30

Yes, it's very current. It's in their minds all the time in that there. It's in the news even, you know, like even talking about it on CBN. Yep. Christian Broadcasting Network and they're helping they want to help them. So there is a Christian alliance with Israel, Kufa, Christian United for Israel. And they, they have what they call pro Texia. It's just like, Israeli term and the Israeli government because they are considered Christian Zionists, but they don't proselytize Jews, which is why the Israeli government favors them. Because they, they give them a lot of support, you know, spiritual, political, and financial. So just putting that out there in case anybody's wondering.

1:36:24

Yeah, man, it is, once again, an incredible topic and something that I've wanted to talk about for a long time. I'm glad that I got to speak with you about it, Allah. Thanks. To me, once again, it's important to not only look at the Christian tradition of it, but to look at the Jewish tradition of it and to look at the Jewish roots of it to begin with. Because if we don't understand that, then we are looking at nothing but a game of telephone, and a full on misinterpretation of something. So thank you very much for being able to help us hack our way through the jungle on that. And get into it. Where can everybody go?
